GASTRIC JUICE! A GREAT DYSPEPSIA CURER,

Prepared from RENNET, or the fourth Stomach of the Ox, after directions of HARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., No. 11, North Eighth Street, Philadelphin, Pa.

This is a truly wonderful remedy for INDIGESTION,
DYSPEPSIA, JAUNDICE, LIVER COMPLAINT,

CONSTIPATION, and DEBILITY, Curing after Nature's own method, by Nuture's own agent, the Gastrio

DIGESTION.

Digestion is chiefly performed in the atomach by the mill of a fluid which freely exactes from the inner equivalent that organ, when in a state of leadth, called the Gustris Juice. This fluid is the Great Solvent or the Food, the Paritying Preserving, and Stimulsting Areat of the stomach and intestines. Without it there will be no digestion—so conversion of root into blood, and no intrition of the body; but rather a food, terpot, pointus, and dearner tree condition of the whole digestive apparents. A week, but dearner, and hence the disease, digities and delshiry which russe.

PEPSIN AND RENNET.

PEPSIN AND RENNET.

PEPSIN is the chief element, or great Digesting Principle of the Gastric Juice, it is found in great anandance in the soid parts of the human stomach after death, and sumetimes causes the stomach to figure death, and sumetimes causes the stomach to figure death, and sumetimes causes the stomach to figure death, as the ox, colf, &c. It is the material used by furners in making cheese, called Remeet, the effect of which less long been the special wonder of the dairy. The curding of milk is the first process of digestion. Remet pressures astemating power.—
The stomach of a calf will cause its starty one thousand times its own weight of milk. Baren Jacker stotes that, "One part of Poponi dissolved in skey thousand parts of water, will digest meet and other food." Diseased stomachs produce a sgood Gastrie Juice. Remet of Poponi. To show that this want may be perfectly supplied, we quote the fullowing.

CELENTIFIC EVERGECE!

SCIENTIFIC EVIDENCE!

BARON LIEBIG, in his celebrated work on Arimal Chemistry, says: "An Artheral Digestive Finish analogous to the Gastrie Jusies, may be resultly prepared from the un-cus membrane of the stomesh of the cast, in which various articles of food, as most and eggs, will be actioned, chang-ed, and digested, not in the same manner as they would be in the humon stomesh.

ed, and digested, not in the same manner in the homon standard."

Dr. PERMIRA, in his famous treaties on "Peod and Diet," pathished by Fooders & Wells, New York, page 55, states the same great fair, and describes the method of proporation. There are few higher authorities than Dr. Dr. COMBE, in his valuable writings on the "Physiology

Dr. COMBS, it his visitable writings on the "ray seeing" observed that "ray dimension of the dos quantity of the Gastrie Jules is a penalisent and all acceptality cause of Dypocessa !!" and he stook that "ray dosinguished professor of inclinations in Leading what was several afficient with this complaint, finding every thing else by fall, had recourse to the Gastrie Jules, obtained from the strength of tender to the castra Jure, domined from the strongle of the form an armals, which proved considerly successful."

Dr. GRAHAM, analyse of the formula words on "Vegetable Diet." says: "it is a reconstraint fact in adjustable, that the strongle of matoda, reasonable fact in adjustable, that the strongle of matoda, reasonable for which, under to the fluid the property of disc which various arrelets of food, and of effective a kind of artificial digestion of those fined, and of effecting a kind of nutrifieral digestion of From no wise different from the numeral digestive process.

Dr. SIMON'S great work, the "Chemistry of Man," (Lea & Blanckerd, Phile, 1946, pp. 321-2) says, "The discovery of PEPSIA forces a new era in the element discovery of Digestion. From recent experiments we know that food is discovered as a public of a discovered finite property of the process of the process

Professor DUNGLISON of the Jufferson College, Phila-Professor DU AGAISON of the action consequence of the delphin, in his great work on Human Physiology, devotes more than fifty pages to an examination of the subject.—His experiments with Dr. Beynmont, on the Guerrie June, obtained from the living human strangel and from animals are well known. "In all cases," he may, "digression occurred as perfectly in the artificial or in the natural digressions."

AS A DYSPEPSIA CURER, Dr. HOUGHTON'S presention of PEPSIN has produced the most unrevelops effects, curing cases of Deblity Emmelation, Nervous Declare, and Dyspeptic Consumption Famiciation, Nervous Declare, and Dyspeptic Constructions supposed to be on the very verge to the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated extiliteates have seen given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York, and Roston abone. These were nearly all desperate cases, and the cures were not only rapid and wombarful, but permanent.

These Bitters are worthy they attention of invalida, Possessing great virtues in the remification of diseases of the Liver and leaser glands, exercising the most scarching powers in ventaless and affections of the digestive organs, they are, withink, see, certain and pleasant.

[From the Boston Bee.]

The Editor soid. Dec. 225—
"Dr. Houelands & Celemanted German Bitters for the cure of Liver Complaint, Januadice, Dyspeysus, Chronic or Nervens Deblity, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our ellow says to hus himself received an effectual and permanent cure of Liver Complaint from the use of this remed. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persuas with the most delicate stomachs with safety, ander any circunstances. We are speaking from experience, and to the afflicted we advise their use."

Judge M. M. Noath a gentleman with great scientific and literary attainments, said in his "New York Weekly Messenger," January 6, 1859:

"Dr. Hoofmal's German Bitters—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is ande after a prescription reshed by one of the most celebrated physicians of modern times, the late Dr. Chr stepher Wilhelm Hoofmal, Professor to the University of Jesia, private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was outplicticedly the enemy of humbar, and interfer a medicine of which he was the inventor and anterser may be confidently reflect on. He specially recommended it in faiver Cormaant, Dymensia, Deblinty, Verties, Aridity of the strongel. The Extract from a communication of the Hon. Withiam Woodbrade, of the U. S. Senate, late Governor of Michigan.

Decror Charles Oscood.

Dear Six—I have read with much interest, your little Thatatas upon the "causes, treatment and cure" of the febrile diseases which have so extensively prevailed in our country during the last few months—an interest increased no doubt, by the fact that I have individually suffered so much from them. Though I feel myself very incompetent to judge sefely upon a subject so catacly professional, yet your theory secuns to me well reasoned, and your coucht stons use, and I think withm, that your pumpided is calsulated to produce much practical good.

Speaking of the medicine he says:—It fully justified your disterine expectations and as an are, convenient, and popular remody, my own experience, so far, unduces me to believe that it will proven great publis benefit. THE COLUMBIAN CALCULATOR .- This work is already introduced into some of the best Acadamies and a large number of Schools, where its use has given decided and universal satisfaction, both to teacher and pupil. It is purely I procured a bottle in the spring of 1811, and have good I precured a partie in the spring of 1811, and cave goes a cross no believe that impact and family escaped the ugue last season in consequence of its use.

Perhaps in no summer since the settlement of this fine penimula, but the fever and egge been so provident as the matter of the settlement. I have recommended this medicine in numerous instances, and when the discuss had become fixed and buffed American in its character, based upon our own beautiful decimal system of currency. It contains more, the arrangements are better, and it is the easiest and chenpest work of the kind now in use; and it is so considered by hundreds of the most competent teachers and men of science in the Union, who have recommended it, It is the book, particularly and expressly prepared for our Ame-Your, respectfully.

TICHNOR'S COLUMBIAN SPELLING BOOK.

EING a progressive and Comprehensive System of Orthograpy and Orthoppy, including a variety of definitions, adapted to the use of Schools in the American Republic, by Almon Tieknor, a Tencher of twenty-five year's experience, and author of the Columbian Calculators, Practical Common School Mensuration, &c.

The attention of Teachers, School Directors, parents, &c., is invited to this new Spelling Book, which conforms to the modern spelling and usages in Orthography as being one of the neatest, cheapest best arranged, and better adapted to the wants of children, than any other published in the United Stats. It is what it purports to be, a Spelling Book and not a Reading Book, and only requires an examination on the part of Instructors of youth to secure for it a universal introduction into the Schools of the United States. Just published, and for sale by HENRY MASSER, Sunbury. Where Teachers and Directors can procure copies for examination.

The Shi :—It gives me great pleasure to know that you are again preparing you medicine for the care of Dyspepsio, 1 or many of my acquisimences have repeatedly asked me where it could be produced, knowing that I had been cared by it. As I think that a public acknowledgment of the great benefit I have received from the use of your medicine is not only due to you, but may be useful to others, I now make it. For several years I suffered from Dyspepsia, which increased to such me extent that my health and constitution were rapidly susking under it. I was compoled to restrict myself to the most simple food, and even that I could not digest. I felt a loss of strength, disinclination of exercise, and, as you have it in your advertisement, a general feeling of depression and indescribable weariness. In the year 1838, hearing from others high recommendation of your Anti-Dyspeptic Effixir, I procured and used it with the most hoppy effect; under it influences languor and warriness gradually passed away, and my apparite returned which I could gratify with impunity. Ten years have now clapsed, and my confidence in the curative powers of your medicine has of course increased, for it completely cared me when I finded to obtain relief from any other source.

Very respectfully cours.

Dear Sir :—I take pleasure in resummending your Anti-Dyspeptic Elixir for the cure of Despepsis. I have taken it myself for the diame, and have been entirely cured. Yours respectfully, EDWARD H. ROWLEY. AGENT.—JOHN W FRILING, Sunbury, Pa. ROSE OINTMENT, FOR TETTER

R EAD the following certificate from Capt. Devoe, the well known and popular Sham Boat Captain (of the Traveller.) PHILADELPHIA, October 31, 1846. Several years since I was attacked with a breaking out on my neck in the form of Tetter, which I am convinced was contracted at the Barber's thop. It grandoully extended over my face until it reached the apper part of the checks. During the several months that it continued spreading, I used different applications, some of which had the effect, apprently at least, of increasing the disease, but from more of them all I perceive the least benefit until I applied the Roak Onyment. By the use of one jar of it, I was perfectly cured and have remained free of the affection.
