THE ASSOCIATE JUDGE Is not required to be learned in the law, Good sense, sound judgment, firmness, integrity and honesty, ought to be his qualifications. Mr. Francis Buchen is a man in whom are combined all these qualities. He is well and favorably known to most of the people of this County, and all who do know him will bear witness to this statement. He is an industrious mechanic, and in the intervals of relaxation from his daily toil, has not failed in acquiring a large fund of general knowledge. In local politics he has rarely engaged, but his sympathies as well as his votes have always been with the democracy. Among the candidates for this responsible office, Mr. Bucher occupies a prominent place. He has many friends who all unite in recommending him to the favorable consideration of the people. JACKSON.

### THE ART OF FLYING.

A French journal has a letter from Madrid, giving an account of a successful experiment with a new apparatus for flying. The fiver was a Mr a Juanita Perez, who though rather fat and corpulent, moved through the air, by the help of wings, with great case and rapidity. She was advertised to fly a distance of above 1,200 feet, rising in the air above 600, but exceeded the programme both in height and distance. No description of the structure of the wings is given .-They have a spread of some lifteen feet, are fastened by ligaments of great flexibility, and arranged so as to move with great rapidity; they make a noise like a windmill. A Mr. Thomas Darville, at Paris, also announces that he has invented a complete apparatus for flying, and that he proposes to exhibit it at the Champ de Mars, in the fly from the Military School to Challiot. He will be accompanied by his two sons, one of twenty-two and the other of seventeen years. The preparation of three sets of wings has delayed the exhibition until now. The inventor has tried his apparatus privately, with complete success, having flown across the Seine with it at 1 o'clock in the morning. His wings have a spread of 15 Term, A.
