## GRANNY GRAY. A PARODY.

She was all that fancy's art could paint She was ugly—she was blind! But her heart was soft as apple sauce— Ob, she ever was so kind!

I loved her tarts as boy ne'er loved;
Ah, love without decay!

But her tarts and pies are now no more— Alas, poor Granny Gray! Her pastry was paraded O'er a stall of spotless white; Her rows of cakes and apples Engaged the eager sight,

That pastry I no longer see, That stall is in decay-For her heart, her heart is cold in death-Alas, poor Granny Gray!

I've grown from youth to manhood's prime, I've travelled far and near; But the memory of my boyhood days Must long be cherished here! And when each charm of life is past, May memory foully pay A tribute of regret for her Whose name was Granny Gray.

Among the numerous discoveries Science has made in this generation to facilitate the business of life-increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art .-A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varicties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures affected by its use, but we would present the following opinions of emineut men, and refer further enquiry to the circular which the Agent below named, will always be pleased to formish free, wherein are full particulars, and indisputable proof of these facts.

#### VEGETABLE CATTLE POWDER

PREPARED BY BREINIG, FRONEFIELD & CO. No. 187 North Third Street, Philadelphia.

THIS powder is entitled by the united testimony of all who have used it to the first mak of all those CAT-TLE MEDICINES, which have been thought praiseworthy for many years. Indeed we challenge may person to make a superior, or my powder that acts in the sume manner. If the sainal be perfectly healthy it will either increase the amount of milk or cream and butter; or the natural will improve rapidly in fat. It will therefore in time be considered we have no doubt one of the staple articles of every Farorer, who keeps a disry; and of every person owning a house. It is not one of these kind o. Mixtures that merely swell an animal up for a short time, but it will by the capacity which it has of converting HIPPURIC ACID (which is on effect matter) into Lacific Acids of others, cause a greater arount of northinas matter to be extracted from the some amount of food, than possibly could be, were the neitic principles of untrition to pass out of the system in the form of Hippuric Acid.—We have interested a multitude of evidence to prove what we have said above. Suffect a say:

We have interested the neive agent, with a great number of Venerable plouts and berlie, which time and use have proved to be useful, improving the appetite and promoting digestion of the foci thus securing a healthy condition of the blood, from which the Mixk and Far must be formed.
