

Correspondence of the Phila. Ledger.

LETTER FROM WASHINGTON.

WASHINGTON, Feb. 2.

I have just seen the new gold dollar piece sent down from the Philadelphia Mint to the Hon. George J. Houston, Chairman of the Committee of Ways and Means.

Sir Henry Lytton Bulwer has written that he will return to the United States with the next steamer. The letter was addressed to a person high in office, and expressed, no doubt, Sir Henry's intentions at the time he wrote it.

On Wednesday next, General Cass will deliver his views on the subject of intervention. He has prepared his speech with great care, and his views will be considered discreet, yet firm in the assertion of national law.

The Naval Committees of both Houses will on Tuesday next report a bill, providing for semi-monthly trips of the Collins line of steamers, so as to enable the steamers of that line to alternate with the British mail-steamer of the Conard line, and increasing the compensation for mail service accordingly.

Under the effects of the moderate weather of the past week, the snow has nearly all disappeared and sleighing is now rather indifferent. We have had nearly five weeks excellent sleighing, and regret very much that it cannot be prolonged for a month longer.

The appointment by Governor Bigler, of Francis W. Hughes, Esq., of Pottsville, for Secretary of State, and James Campbell, of Philadelphia, as Attorney General, has been officially announced.

Is now before Congress in regard to newspapers and printed matter. The bill abolishes the present tariff on newspapers, and substitutes a rate of one cent on all printed matter, whether newspapers or anything else, weighing over two ounces and a half, and one cent for each additional ounce or fraction of an ounce.

The friends of Mr. Buchanan after their shouting, have only secured five out of the eight delegates, in the City of Philadelphia. A meeting of the Convention was held in the city, on Monday last, and one ballot was taken for delegates to the State Convention.

GRASS SEED EXTRAORDINARY! It is stated in the Bangor Courier that at some of the distilleries in Massachusetts, the people are packing small casks of liquor in large casks, some in hay, some in chaff, and some in seeds, and marked to different places in Maine as grass seed.

THE AMERICAN SUNBURY.

SATURDAY, FEBRUARY 7, 1852.

H. N. MASSER, Editor and Proprietor.

V. B. PALMER is our authorized agent to receive subscription and advertising at his office, in Philadelphia, New York, Boston and Baltimore.

TO ADVERTISERS.—The circulation of the Sunbury American among the different towns on the Susquehanna is not exceeded if equalled by any paper published in North or Pennsylvania.

EDITOR'S TABLE.

Business Notices.

THE LADIES KEYSER for JANUARY contains a Biographical Sketch of Washington, by Headly, and other entertaining matter. Published by John S. Taylor, New York.

STEAM TURNING, &c.—We refer our readers to the advertisement of W. O. HICKOK, of Harrisburg, one of the best mechanics in the country, and who is well prepared to do all kinds of turning and machine work.

THE NEW POSTAGE LAW.

This law went into operation on the first day of July inst., and will operate to the following effect upon the SUNBURY AMERICAN: 1. Subscribers will receive it by mail, in Northumberland County, FREE OF POSTAGE.

2. For a distance not exceeding fifty miles at FIVE CENTS per quarter.

3. Over fifty and not exceeding three hundred miles at TEN CENTS per quarter.

4. Over three hundred and not exceeding one thousand miles, at FIFTEEN CENTS per annum.

We are indebted to Messrs Gamble, Fuller, of the House of Representatives, and to Messrs Broadhead and Stockton, of the U. S. Senate, for Congressional favors.

Our readers will find some interesting matter on our first page. The "Apple Bee" is a well told story of an apple cutting frolic. As this is leap year, we would advise all young ladies having a squinting towards matrimony, to read "Aunt Hetty's" lecture on that subject, although we fully agree with her, that "there is no use talking to you" on this subject, as every one of you will try it the first good opportunity.

SUNBURY AND ERIE RAIL ROAD.

The amendment of Mr. Packer, of Lycoming, to the bill, now before the Senate, authorizing Corporations, Counties, &c., to subscribe stock to the road, has been adopted, by the close vote of 17 yeas to 16 nays, when the whole subject was postponed for the present.

There is great interest manifested in the bill, which is now looked upon, as it really is, the most important measure of the kind that has ever been before the Legislature. There are various opinions in regard to the amendment. Mr. Packer, in supporting his amendment, states that Lycoming county would no doubt subscribe largely if left to a vote of the people, but that the Commissioners of the County would not like to take the responsibility of doing so on their own account.

On the other hand the friends of the bill say that such an amendment would prevent large subscriptions to the stock of the road and retard its progress. We presume the people along the line are not very particular what shape the act assumes, provided it accelerates the speedy completion of the road.

Mr. Kunkel, our Senator, who is a strong advocate of the road, has warmly opposed the amendment of Mr. Packer.

PHILADELPHIA FOR THE LAST WEEK has been in a state of excitement in regard to the election of a new board of Directors for this Company. For some time past there has been great dissatisfaction, and want of harmony in the board, and an opposition ticket, called the "reform ticket," with J. Edgar Thompson, the Chief Engineer, as President, was got up in opposition to the stockholders ticket for the re-election of the old board with Col. W. C. Patterson as President.

The reform ticket was elected by a majority of 5,000 votes. The following is the new board:—J. Edgar Thompson, G. W. Carpenter, Christian E. Spangler, John Yarrow, Washington Butcher, and Thomas T. Lea and David S. Brown, on both tickets.

A correspondent of the Union County Star, recommends a subscription of \$300,000, by that County, to the stock of the Sunbury and Erie Rail Road. The writer says that the assessed value of property in that County is 17 millions of dollars, and that three per cent on that amount would pay it in one year, and as the whole would not be wanted in less than two years, an assessment of one and a half per cent would be sufficient.

We think the writer is mistaken in the valuation of property in Union County. The assessed value of real estate in this County by the late Census returns is \$6,529,558, or a little over six and a half millions. We have not at present the means of ascertaining the value of personal property, but it is much less than the real.

We observe among the appointments of Governor Bigler, that of Charles Shiner, of Union county, as "Inspector of Spirits." Friend Charley will no doubt make a good officer, but should the Maine Liquor Law be enacted in this State, what a fix he would be in. Union county seems to be highly favored by the "powers that be." But there is nothing like pushing ahead. Goethe says energy alone is the great quality to make a man, and we presume an officer, and adds, "that no talents, no circumstances, no opportunity, will make a two-legged creature a man without it."

The English Government has disavowed the attack of one of its vessels on the steamship Prometheus, in the harbor of San Juan. This is what we expected.—The English have no desire to quarrel with the best customer they have in the world. But they should teach their officers better manners, and to exercise less arrogance, lest frequent repetitions of such unauthorized antics may require something more than an apology.

Mrs. FORREST made her appearance at Brougham's Theatre, in New York, on Monday last. There was a number of attempts to create a row, but the police, and three companies of volunteers, kept down the rowdies. She is a woman of superior talents, and her acting was highly successful, but most of the papers condemn her appearance on the stage at present.

Centre county has again instructed her delegates for Gen. Cass. Mr. Buchanan's friends had always claimed this County in their calculations notwithstanding the instructions in favor of Gen. Cass.

APPOINTMENTS BY THE GOVERNOR. HARRISBURG, Feb. 2. Governor Bigler, this morning, made the following appointments: Inspector of Domestic Distilled Spirits—Chas. H. Shiner, of Union county; Inspector of Salted Provisions—George Getz, of Philadelphia county; Inspector of Lumber—Jas. S. Watson, of Philadelphia county; Sealer of Weights and Measures for the City of Philadelphia—Samuel C. Thompson, of Philadelphia county; Keeper of the Powder Magazine—James Lafferty, Philadelphia county; Health Officer—Wm. McGlincy, Philadelphia county; Measurer of Marble—Jacob Umstead.

ST. VALENTINE'S DAY is coming.

SENATE—First Session.

WASHINGTON, Feb. 4, 1852

Mr. Stockton presented a petition for an appropriation for a line of steamships, to run from Jersey City to Galway. Mr. Stockton also presented the petition of Charles Wilkes, of the United States Navy, asking Congress to appropriate \$500,000 for an effective exploration of the Arctic seas, and a further search for Sir John Franklin.

Mr. Hale thought the Senate ought to know how much Capt. Wilkes' former exploring expedition had cost, before ordering a new one.

Mr. Pearce said the Senate had been furnished that information already.

Mr. Underwood submitted a petition from merchants and others, of Philadelphia, for the removal of obstructions in the Ohio river.

The bill heretofore introduced by Mr. Johnston, of Tennessee, to give every man or widow, who is the head of a family, a quarter section of land, free of expense, on certain conditions, was referred to the Committee of the Whole on the state of the Union, and made the special order of the day for the first Tuesday in March.

Mr. Smart, who heretofore introduced it explained that it authorized such publications in two newspapers of the largest circulation in every Congressional District, instead of two only in a State. The object was to disconnect the press from the control of the Government, which, like all others, is tending towards centralism, and he wished to do what he could to decentralize the central power.

PENNSYLVANIA LEGISLATURE. HARRISBURG, Jan. 31, 1852. SENATE.—The following bills were read in place. By Mr. Packer, a bill to incorporate the Clinton County Bank.

Mr. Frailey, from the Committee on Banks, reported a bill incorporating the Munch Chunk Bank, and also a bill incorporating the Farmers and Mechanics' Bank of Allentown.

Mr. Shimer, from the same committee, introduced a bill to recharter the Easton Bank.

Mr. Carothers introduced a bill incorporating the Erie City Bank.

Mr. Hart's resolution, calling upon the Canal Board for information relative to the expenses of the Portage Rail Road, with an estimate of the additional expense and time required to complete that portion of the work necessary to avoid the use of the inclined Planes, Nos. 2 and 3, with a continuous road to the foot of Plane No. 4, was taken up and passed.

The following bills were introduced.—A supplement to the act relative to executors and administrators; a bill for the relief of C. Spooner, of Philadelphia; a bill to authorize the Secretary of the Commonwealth to contract with Messrs. Kay & Brothers for the publication of a continuation of the laws of Pennsylvania.

The supplement to the act incorporating the Sunbury and Erie Rail Road Company was taken up.

Mr. Torbett offered an amendment, leaving the question of subscription to the stock by municipal corporations to a vote of the people.

The question still pending, the House adjourned.

HARRISBURG, Feb. 24 1852. The Senate then resumed the consideration of the bill supplementary to the act incorporating the Catawissa and Towanda Rail Road Company, authorizing an extension of the road to connect with the New York and Erie Rail Road at some convenient point on the State Line. It was finally laid aside on third reading.

The bill to authorize Recorders of Deeds to appoint deputies, was taken up and passed finally.

The Senate then took up the non-intervention resolutions of Mr. Kunkel, introduced some weeks since, declaring the right of nations to self-government, and asserting that the people of this country will not see with indifference any intervention on the part of Russia, in the future struggle between Hungary and Austria.

SENATE Bills Reported by the Judiciary Committee.

One for the appointment of Auditors and Masters in Chancery; a Supplement to the bill relating to Assignments, for the Benefit of Creditors and other Trustees, passed 14th of June, 1836. The following bills were reported with negative recommendations:—A bill relating to the Service of Process of Foreign Insurance Companies; a bill relating to Coroners' Inquests; a bill relative to the Acknowledgment of Deeds and Powers of Attorney; a Supplement to the Act relating to Imprisonment for Debt. The Senate then adjourned.

HARRISBURG, Feb. 4th, 1852. SENATE.—The Judiciary Committee reported the following bills with negative recommendations: To legalize Sheriff's sales in certain cases; a bill relative to the recording of deeds and mortgages; a bill giving to the Orphans' Courts of this Commonwealth power to authorize by decree the mortgage of real estate; to exempt from levy and sale an execution the homesteads of house-holders having families; to authorize the publication of the public acts of the General Assembly in the Legal Intelligencer; a supplement to the existing laws in relation to the recording of deeds; a bill extending the time for the payment of collateral inheritance taxes, due from estates of decedents to July 1, 1852; a further supplement to the act enabling the Governor to appoint Notaries Public.

The following bills were introduced: To incorporate the New Berlin and Susquehanna Railroad Company.

House.—The joint resolutions in favor of a ship canal around the falls of Saunt S. Mary's, by the general Government, were considered and passed.

Mr. Lilly introduced a joint resolution providing for a final adjournment of the Legislature on the 25th of March.

The supplement to the act incorporating the Sunbury and Erie railroad, was taken up, and debated until adjournment.

KOSUTH MEETING IN CLEVELAND. CLEVELAND, Feb. 2. A meeting of the friends of Hungary took place this afternoon at 3 o'clock, Mayor Case presiding.

Mr. Brayton, chairman of the deputation from Plainville, Mr. Ralish, of the German Society, and Dr. Nevin, on behalf of the Free Church of Cleveland, each presented an address.

The Hon. Mr. Starkweather addressed Kosuth in behalf of the people assembled. Kosuth said in reply, that it was the hundred and fifty-sixth time he had addressed an American audience, in the language he had learned from Shakespeare. He hoped that the time for speaking had passed, and the time for acting had come. Business matters required his activity; but the instrumentalities of that activity he could not reveal, as it would be sending over to the enemy the plan of battle. He called attention to the shares in the Hungarian loan which were now ready. That loan would surely be repaid. The salt mines of Hungary now yield a revenue to Austria of \$6,000,000 per annum. Hungary, once free, that revenue would be increased, and the loan cancelled in a year. He was told that certain religious denominations were opposed to his cause; that there was a movement on foot to alienate those of Irish extraction. He was conscious that freedom could, by nobody, be more beloved than by the sons of Erin, and they could not side with despotism. Besides, if despotism should crush Albion, would it make Erin free. He who sides with despotism will become its slave. In conclusion, he repeated the motto of Captain Lawrence, "Don't give up the ship!" exhorting them not to give up the ship of national independence.

EXTREME COLD. Dr. Kane, who was one of the officers of the expedition in search of Sir John Franklin, in the polar regions, delivered several interesting lectures on the subject, in Washington. Speaking of the effects of the extreme cold in those regions he says: At the appalling temperature of 40 deg. and 50 deg. of 70 deg. below the freezing point, cold became as sensible in its effects as heat—indeed between the positive effects of the very high and the negative of the very low scale, it was impossible to distinguish by sensation. Upon going out in the open air, the face became encased with an icy rind, and the lips were glued together by the cementing aid of the beard and moustache. The trigger of the gun blistered the finger, and a jack-knife in the pantaloons pocket caused you to jump as with a sudden scald. During the long darkness, when they attempted to beguile the winter hours with theatricals, an unfortunate Thespian dropped the pantomimic flat iron as though receiving a sudden burn. Indeed, next day a row of blisters had given evidence of the truth that, in temperature as in every thing else extremes meet.

The Washington correspondent of the New York Express tells the following story of the Russian Minister:—"There is a pretty good story going about town, which is, in the main, true, I believe. During the recent cold weather, Mr. Bodisco, the Russian Minister, rigged out his sledge, and his driver and tiger, and furs, caps, &c., all looking like bears and wolves. So extraordinary a spectacle attracted the attention of the boys, negroes, &c., on Pennsylvania Avenue, and as Kosuth was known to be in town, covered all over with moustaches—with a retinue rigged out in style extraordinary—the boys and blacks set up over Bodisco the cry of 'Kosuth!'—there's Kosuth!'—'harrab for Kosuth!'—This was more than human nature could endure, and Mr. Bodisco fled in a rage, so it is stated, for refuge to the house of a friend near by."

Col. FREMONT'S GOLD MINES.—A dispatch from Washington says.—Col. Benton, on Monday, sold Col. Fremont's Mariposa tract of land, in California, for one million of dollars.

BISHOP SOUTHGATE, late Missionary Bishop at Constantinople, has been elected Rector of the Church of the Advent in Boston.

The State Bank of Indiana has a circulation of \$4,681,993.

THE MONARCHS OF EUROPE.

It is interesting to note, that at the present time, the Sovereigns and Princes of Europe are almost all in the vigor of their age, as may be seen by the following table: Pius IX, 59 years; William 1st, King of Wurtemberg, 70 " Leopold 1st, King of the Belgians, 64 " Frederick William IV, King of Prussia, 56 " Nicholas 1st, Emperor of Russia, 55 " Francis Joseph Oscar, King of Sweden, 62 " Frederic VII, King of Denmark, 43 " Louis Napoleon, President of the French Assembly, 43 " Ferdinand II, King of the Two Sicilies, 41 " Maximilian II, King of Bavaria, 40 " Louis Charles d'Orleans, Duc de Nemours, 38 " William III, King of Holland, 34 " Francis Ferdinand, Prince de Joinville, 33 " Victoria, Queen of Great Britain, 32 " Maria II, Queen of Portugal, 32 " George Frederic, King of Hanover, 32 " Henry V, head of the Bourbons, 31 " Victor Emmanuel II, King of Sardinia, 31 " Henry Eugene, Duc d'Anjou, 30 " Abdul Medjid, Sultan of Turkey, 28 " Antonio, Duc de Montpensier, 27 " Francis Joseph, Emperor of Austria, 21 " Isabella II, Queen of Spain, 21 " Louis Philippe, Count de Paris, 13 "

SNOW STORM IN GERMANY.—Papers received from Germany, state that the snow drifts in the cuttings of the Silesian Railway, near Oderberg, have interrupted the communication almost daily. In some places the snow has been forty or fifty feet deep. The engines were on one occasion brought to a stand still, their fires being extinguished. The heaviest fall of snow extends the whole distance from Vienna to Berlin, and covers a wide tract both north and south of those cities. Between Baitz and Sorau, in Upper Silesia, within a distance of five German miles, the loss of ten lives is reported, from the severity of the weather. In the circle of Bantzen, in Saxony, fifteen men and six horses perished in a snow storm. Similar accounts have been received from other parts of Germany.

WHAT MAKES A MAN?—The longer I live, the more certain I am that the great difference between men, the great and the insignificant, is energy—invincible determination, an honest purpose once fixed, and then victory. That quality will do anything that can be done in the world; and no talents, no circumstances, no opportunity will make a two-legged creature a man without it.—Goethe.

It is reported that Ledru Rollin, and other French Refugees of his party now in London, are about to remove to Canada. M. Rollin will practice there his profession of lawyer. M. Delescluze, former editor of La Reforme, will get his living, if possible, as a journalist, in his new home.

The Daguerreotypists of Boston are taking daguer-type likenesses very successfully by the Drummond light. It is said that they can measure the effects of the light more nicely than they can when taken by the sunlight.

NO STREET IN CONSTANTINOPLE has a name, nor is there a lamp in it, yet there are 500,000 inhabitants! There is not a post office nor mail route in all Turkey, nor a church bell—but there are at least two dogs to every inhabitant.

The New York State Temperance Society adopted a resolution, on Thursday, that they would not vote for any candidate for office, hereafter, who was not in favor of enacting the Maine Liquor Law.

Mr. CHARLES BLACK, at New Orleans, has recovered \$10,000 damages of the Carrollton Rail Road Company, for the breaking of the legs of his son by an accident on that road. Served them right!

It is reported that Com. Perry has been ordered to the command of the East India Squadron, and will leave in March, with the Mississippi as his flag ship.

PRICE OF SPINNING.—In 1782, Arkwright charged \$5 for spinning one pound of cotton yarn, No. 60, in 1830 it had fallen to 30 cents.

Eggs sell in Cincinnati at forty cents per dozen. Chickens must be on a strike; and that is singular, too, for their production is certainly being high prices.

EVERY man who drinks at the bar in visits others to go with him; but how few who do good acts are mindful of this social duty.

A POSTHUMOUS WORK.—Some one, whom we will not disgrace by printing his name, says that the lobster is a posthumous work of creation, for it is only red after its death.

CALIFORNIA WIDOWS are abundant in Michigan; two hundred married men having left our county, and twenty others a single village.

CHARLES KALBUS has been appointed Postmaster at Williamsport, Pa., in the place of Chauncy Donaldson.

CINCINNATI pays 124 cents per day to the jailor for the keeping of vagrants, and 25 cents for other cases.

The French Government agents of all ranks throughout France, number 534,832.—An army of officers!

The St. Louis Intelligencer says the severe weather has killed all the peach trees in that vicinity.
