The Legislature adjourned on the 5th ult after a very protracted session of fo

months. The public feeling awakened in 'h mines on the subject of Chinese emigration, by the famous Cooley bill and subsequent discussions on the subject, threatened at one time to lead to unpleasant results The numbers and character of this people, in the State, were exaggerated and misrepresented to such an extent that in some districts the miners determined to check the evil before it became intolerable; and, as the Legislature had neglected to do anything in the premises, they felt called upon, in self defence, in several instances, to notify the Chinese to leave the mines. This movement has not been general by any means:

THE NOMINATIONS.

News begins to reach us from the South and here we find that the same degree of enthusiasm prevails there which has been manifested at the North. The Goldsborough (N. C) Patriot says, that --

"The best endorsement of Franklin Pierce will be found in the fact that Virginia nominated him in the Convention, all the South supported him at once, and if anything more is required, it will be found in the fact that Wm. R. King, of Alabama, was selected for Vice President. No better endorsement could any man receive, than the facts that William R. King consents to serve on the same ticket. Cheerfully, boldly, and triumphantly do we hoist the flag."

The Spirit of Jefferson, at Charleston, in Virginia, thus endorses the nominations :

"The Democratic party united, are invunnerable, and we declare our honest convictions, from being an eye witness to the struggle of the past week, that the nominawill unite more closely the Democratic party | I've cut down twenty men in my time, of the Union, and carries with it more certain indications of success, than any ticket what is" that could have been presented by that Convention to the American people.32 The Richmond Examiner, in speaking as

their second choice, when fully impressed with the impossibility of obtaining the nomination of their first choice; and how Gen. Pierce eventually received the nomination of the Convention. The nomination is a thoroughly national one. The friends of rection in our State we hear of the most flatond choice, and those of Mr. Buchanan and dant crop. The wheat and other small grain Mr. Douglass are eqully satisfied. Genfolly than any other candidate.

ARMY INTELLIGENCE .- Advices from the Pacific division of the army, just received, convey intelligence to as late a date as the 4th April from Port Yuma at the mouth of the Gila river Major Heintzelman, who commands that post, states that the Yuma Indians entertain very hostile feelings towards the whites, and have for some time manifested so fierce and ready a disposition to fight, that he has found it necessary to send out several expeditions against them. The troops Letters have been received, giving pretty sent had killed some of the Indians, had burned their towns, destroyed their crops, and inspired them with such a salutary fear, the approach of any military force. This Rod has been examin by the most scientific gentlemen in the world-Professors M'Muttre, Johnson, Wallor and many others that have examined them, recomme and speak of them in the highest terms of appro bation, and have pronounced them the only safe rods in use in this or any other country for the protection of Lives and Property. One advanage is to divide and throw back a part of the electric fluid harmless to the clouds; in time of stroke this enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leaving the conductor. This rod has many other advantages over the old one. The only place of manufacturing is in

This remetly is offered to the community with the confidence we feel in an article which seldom falls to realize the happient effects that can be desired. So wide is the field of its usefulness and so humerous the cases of Its cures, that alnost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate discuses of the lungs, by its use. When once tried, its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate, And not enty in the formidable attacks upon the lungs, but for the milder varieties of Colus, Cougus, Hoarse-NESS, &c., and for CHILDREN it is the pleasantest and safest medicine that can be obtained. No family should be without it, and mose who have

used it, never will.
