May 17, 1853. MESSES EDITORS :- Do you inquire where is Mount Carmel, and what it is! Direct your attention to the heart of the great Middle Anthracite Coal field, immediately north of the Schuylkill Coal Basin, on the Centre turnpike, about seventeen miles north of Pottsville, and here you have this prospective

On my way hither, yesterday, from Sun bury, along the line of the Philadelphia and Sunbury Railroad Company's road, I noticed that the grading from Sunbury to this point had been nearly completed, and for about one-third of the distance the new track of heavy T rails were laid down. I was told by those having charge of the work, that the motive will run and carry coal from this point to Sanbury by the 1st of August next. Passengers from Philadelphia (by way of the Philadelphia and Pottsville railroad) can then leave there in the morning at 74 o'clock, and reach Sunbury by 5 o'clock the same day. As it now is, passengers leave Philadelphia in the morning, and reach Sunbury. by way of Harrisburg, after midnight. This additional facilty for traveling to the Susque hanna, at the junction of the north and west branches of that river, will doubtless be gratifying news to your numerous city friends who have occasion to visit that delightful section of the State, either on busines or a

About 100 houses are under contract this vicinity, by the Locust Mountain Coal and Iron Co., and by the Coal Run Improvement and Railroad Company. Of the former, John Anspach Jr., of your city, an enterprising and wealthy merchant, is the President: and of the latter, C. A. Walbern, Esq., an active member of your City Councils, is the presiding officer. The first named Company, the Locust Mountain is a Coal and Iron Company, with 6250 acres of the best of the coal land of this region, all underlaid with coal, and having four district coal basins, with a run of five and a half miles in length upon all the veins, some of which, to wit, the mammoth and jugular, are respectively 30 an Improvement and Railroad Company, very handsome style. having about 200 acres of the same quality coal land with the Locust Mountain, and a railroad, when completed, of about 12 miles in length.

Both of these Companies are making extensive arrangements, that coal may be sent from their lands the ensuing fall. The Locust Mountain is opening three collieries, and the Coal Run two, to be leased to tenants.

MURDER BY A BAPTIST PREACHER.-The following is copied from the Raleigh (N. C.) Register, a secular Journal. It is a horrible transaction. Letters were received here last week from Hyde, Tyrell and Beaufort counties, stating that Washington Carroway, a citizen of Hyde county, some fifty years of age, and many years a Baptist preacher, lately, on some frivolous pretext, knocked man named Lassiter who was boarding in assortment of Drugs, &c. the house interfered to prevent her being murdered. Whereupon Carroway took his gun to shoot Lassiter; but he disarmed him and left the house. A few days afterwards Lassiter chanced to go by the house, which stood near the public road, when Carroway, seeing him pass, took his gun and ran through his field to cut him off, and overtaking him in the Savannah, shot him dead; then took his victim and carried him some half mile into the swamp, threw him, face down, into the mud, and stamped him below the surface of the mud, covered him over with brush, then ron off, made his escape from been married three times, and has children by each marriage, and horrible to tell, circumstances have now come out which strongly indicate that both of his deceased wives come to their deaths by his hands.

RAIL ROAD TO NEW YORK.

In this age of rail road progress, it is sometimes difficult to keep ourselves posted up with the various improvements projected and in contemplation.

One of our most important improvements, from Sunbury, extending about ten miles through our finest coal region, over almost level ground, to its intersection with the Cattawissa road, eighteen miles from Tamaqua, making the distance from this place to New York 160 miles. The object is to supply New York with a superior Anthracite coal, from the inexhaustible mines of the Shamokin coal region. It will also become a pleasant route for passengers, travelling to New York.

SAFETY OF RAILROAD TRAINS,-In a letter n the Cincinnati Gazette; Josiah Kirby, who says he has given several years attention to the subject, suggests the following as a means of stopping the locomotives to prevent railroad accidents:

The arrangement is simply to place steam cylinder under the locomotive, and connect the brake rods with the piston, in such a manner as to operate upon the several politicians, merit seldom meets its reward, brakes of the train at the same time. This plan gives the engineer the entire control of the brakes, and enables him to stop the wheels of the cars at pleasure. ANOTHER HEAVY VERDICT FOR RAILROAD DAMAGES. - On Thursday, we recorded a verdict rendered to the Circuit Court of the United States, of \$6,583 33 damages against the Portland, Saco and Portsmouth Railroad Company, in favor of Earl E. Rider, for injuries sustained in consequence of an accident on that road in September, 1851. Yesterday, referees in a similar case, (and for injuries occasioned by the same accident) against the same Company, and in favor of Benjamin F. Williams, returned their award into the Circuit Court of \$7,000 damages, and all the costs. The facts in these two cases were, that on the 12th of September, 1851, a bridge about twenty-five feet wide had been taker, up on the defendant's road for repairs, and the regular train from Portland for this city, with about one hundred passengers on board, ran at great speed directly into the chasm. The engineer and fireman were instantly killed, and many of the passengers seriously injured. Among the latter was the plaintiff, who received a severe blow on his head, causing a concussion of the brain, and whose entire recovery, according to the testimony of several experienced physicians, is extremely doubtful.

SPECIAL AUDITORS' REPORT

To the Hon. Alexander Jordan, Esquire, President, and his Associate Judges of the Court of Common Pleas for the County of Northumberland.

We, the subscribers, auditors appointed by said Court, to open, re-audit, settle and adjust the accounts of William Gulick, Jesse M. Simpson, and George B. Youngman, as former Treasurers of said county, report,

That we, in pursuance of said appointment, met at the Commissioners' Office, in the borough of Sunbury, on the 29th day of November last, and after subscribing the oath and affirmation prescribed by the Act of Assembly, directed notice to be given to Ann Gulick, Exe'rx of William Gulick, deceased, Jesse M. Simpson, and George B. Youngman of the time and place of meeting of said Anditors:—that we continued in session from days of the said Anditors:—that we continued in session from days of the said Anditors:—that we continued in session from days of the said Anditors:—that we continued in session from days of the said Anditors:—that we continued in session from days of the said Anditors. Exerrx of William Gulick, deceased, Jesse M. Simpson, and George B. Foungman of the time and place of meeting of said Auditors;—that we continued in session from day to day until the 18th day of December then ensuing, and by an adjournment met the 27th day of said month, and continued in session until January the first, 1853; then by an adjournment met the 14th day of February ensuing;—that upon the 30th day of November last Geo. B. Youngman appeared before the Auditors and waved notice of time and place of meeting;

--that Jesse M. Simpson, on the 1st of December last, appeared before the Auditors and

waved notice of time and place of meeting, and on the 7th of December last, John B. Packer, as Attorney for said Ann Gulick, appeared and waved notice of fime and place of meeting

as Attorney for said Ann Gulick, appeared and waved notice of time and place of meeting.

—That we proceeded to ascertain the amount coming to the Commonwealth during the term of said Treasurers respectively, and have stated their accounts herewith amexed marked A, B, C, exhibiting the results.

The report of the County Auditors for 1845, shows that the Commonwealth was fully paid all taxes assessed for that year, including Tavern licenses and other sources. By there was still outstanding part of the taxes for previous years, which outstanding has was fully paid to Gulick, Simpson, and Youngman. The portion received by each one is charged in said accounts; and the whole amount of State tax assessed, and other sums do the Commonwealth, as far as we could ascertain them, (and we believe them correctly stated) and charged upon one side of said accounts, and the proper credits on the other.

Those accounts were prepated for the purpose of determining what amount the Commonwealth. Those accounts were prepared for the purpose of determining what amount the Common wealth is entitled to receive from all the outstanding taxes on the first of January, 183

the expiration of Youngman's term By account "A" it appears that accounting to the Commonwealth for the amount receive by Gulick of the taxes previous to 1845, and all taxes assessed in '46 and '47, and a moneys received for the State from unscated lands, and making allowance for the prop moneys received for the State from unseated lands, and making allowance for the properedits, the State was overpaid on State tax the sum of \$766.07; and the Commonweak was overpaid for Tavern licenses, and Retailers licenses, and Pamphlet Laws for 1847 but there were balances in favor of the Commonwealth for Retailers licenses of '46, & milin fines of '46 & '47. Those balances set off against each other exhibit an overpayment to the Commonwealth, in the years '46 & '47, of \$697.20. We therefore report that, after pagin in full to the Commonwealth all taxes and dues for '46 & '47, there is coming to the Count from the Commonwealth \$697 20. The account "B" exhibits in the same manner a state ment for the years '48 and '49, during Simpson's term, and discloses a balance due of Commonwealth (1997) and (1 commonwealth, from all sources for those years, the sum of \$1,302 03. port that for those years there is due the Commonwealth, subject to the balances in of the county, for the years '46 and '47, the sum of \$1,302 03 from the outstanding to those years. And by statement "B," which in like manner accounts to the Commo for all her dues for the years '50 and '51, it appears there is a balance due the wealth from the outstanding taxes for those years of \$2,983 094; and we therefore repo that balance is due the Commonwealth from outstanding taxes. Those balances put tog ther exhibit that the Commonwealth is yet entitled to receive from all the outstand

taxes the sum of \$3,587 924, as per the following statement: Due the Commonwealth for 1848 and '49, '50 and '51. 4.285 121 Deduct due the county for '46 and '47,

Balance the Commonwealth is entitle to receive from outstandreport that on the payment to the Commonwealth of the said sum of \$3,58

921, all taxes and other dues, except outstanding militia fines, will be fully paid and a counted for to her to the 1st January, 1852

The report of the County Auditors for 1851, states the amount of outstanding taxes for previous years at the sum of \$5,940.78\frac{1}{2}, and appears to represent that the whole of that due the Commonwealth. But the foregoing statement it appear that only the sum of \$3.50.92\frac{1}{2}\$ is due the Commonwealth, being a difference in favor of the country of \$2.352.86. That the Commonwealth is not entitled to all the State tax outstanding on the 1st of Jan 1852, is accounted for by the facts exhibited by the statements herewith a nexed, that Gulick's term nearly \$1,600 more than was received from the State tax and other Sta dues, were paid to the Commonwealth from county funds; and also by the fact that Gulick's and Simpson's terms money was borrowed from the Bank of Northumberland, a applied in payment of the State tax, before the same was collected. During the terms

mpson and Youngman less of the Commonwealth money was paid to her than was ceived from her taxes and other dues, but part was used for county purposes, as may seen by the annexed statement. During those last two terms, part of the money paid for county funds and borrowed from the Bank, was replaced, but not all, and the Comme wealth is not entitled to all of the taxes outstanding on January 1st, 1852. The balan of \$3,587 924 above stated as due the Commonwealth from the outstanding taxes does r include the outstanding militia fines. We report that the sum of \$1,578 54 is all the o standing militia fines on the 1st of January, 1852, and, subject to all exonerations and of predits, is due the Commonwealth.

From the statements marked D, E, F, and G, H, l, it will appear that there are balance

in the hands of the above named Treasurers. In case those balances are paid it mal little difference whether paid to State or County, for the State being entitled to receiss, 587 925 from all her sources of revenue in the county, in full satisfaction thereof (excounts and only in the state of the paid to the paid to the county, in full satisfaction thereof (excounts and only in the paid to the paid those balances, that sum due the Commonwealth would be diminished that amount. in the event of loss, it may become important. We have therefore prepared the accounnying statements, marked D, E, F, G, H, I, so as to exhibit the amounts received in co and expended in cash for the State and county respectively, from which statements it pears, that the State received for 1846 and '47 more of an was received by the Treastrer her funds. We therefore report the balance in the hands of Wm. Gulick as properly longing to the county, and payable for county purposes. But for '48 and '49, '50 and the amounts received from State funds were not all paid over to her. We report that balances in the hands of Simpson and Youngman properly belong to the State, and paya for State purposes.
