To Professor Holloway,
Sin,—At the age of 18 my wife (who is now 61) cought a visitent cold, which settled in her legs, and ever since that time they have been more or less size, and greatly inflamed. Her agonies were distincting, and for months together she was deprived entirely of rest and sleep.—Every remesly that medical men advised was tried, hat without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements, and advised her to my your Pilis and Guitment; and, in a last renource, after every other ramely that proved ungless, she consented to do so. She recommend six weeks ago, and, attinge to relate, is nevy in good health. Her been are pandess, without scam or rear, and her sleep. weeks ago, nich, stringe his relate, is new in good heatin.
Her bein are pandess, without seem or soar, and her seep sound and undisturbed. Could you have witnessed the sufferings of my wife during the hast 49 years, and contrast them with her present enjayment of health, you would indeed feel delightful in having been the means of so greatly alleviating the sufferings of a fellow-creature. I take it for grant M that every person will do all in their power, to save the lives of their children, and that swery person will endeaver to promote their own health st all sacrifices. I feel it to be my duty to solormly assure you that WORMS, according to the opinion of the most opletrated Physicians, are the primary causes of a large insignity of diseases to which children and adults are liable if you have an appetite continually changeable from one kind of food to another.
