Caution, Caution.

Caution, Caution.

Take Notice,—The public in general, but especially those who saffered by the swinding operations of a set of scamps who, during the Soring and Summer of 1853 were industrimenty engaged in youting up so called—Lightning Rods. A new phase or mode of swinding has been adopted by the same gang of operators. It is this. Theyare traveling about the City as well as the Country, selling what they represent to be my unquestic points, or something still better. In some instances they have successed in guilling the anametering by taking off the Pewter Point and placing one of their volunile and highly improved points in its place. But strange to say, on examination the new point proved to be similar to those taken down. They are made of Pewter, 'Lead. Copper, Cast and Wrought Iron. Some of Bruss with zine basis. There may be many more kinds effect to the public, but the above I have been called on to examine, and I promounce them worthless, and worse than none at ull. There as smeching strange about these fellows: they know nothing of the former company, and yet the points they carry fit the tops of the rold exactly, and even the thread of the screw is the same. I have conversed with two of these gantry within a few days, and I know them to be the some men that put up the same kind of rods last season, only in a different section, and under different names. Some of these gentlemen carry rods with them, and will sell either role, points or both. To prevent further fraud, I GIVE NOTICE to all whom it may concern, that all my spents carry with them regular printed forms of agency, duly signed by me, and acknowledged by alderman Simpson of this city. All orders wholesale or retail seat to his factory will be attended to at the shortest antice, and at the lowest reak prices. Weathervanet, Halls, Sercia, Spirrods, &c., &c., constantly on hand and made to order.
