NIGHT AND DAY.

Married, at St. Martin's-in-the Fields London, Valentine Knight, Esq., of Bentinck well known in literary circles, and to all readers of fashionable novels.

"Extremes will meet," the poets say, And darkness is absorbed by light, But now the young and smiling Day Is swallowed up by endless Knight."

humor of their wives. "Ah !" said one, with a sorrowful expression, "mine is a Tartar !" "Well," replied the other, "mine is worse ALSO A LARGE ASSORTMENT than all that-mine is the Cream of Tartar !13 Charles H. Mason, Esq., Secretary of the

BUTTER should always be churned in a room or apartment, the temperature of which is between thirty and sixty degrees. At sixty degrees, butter is obtained in the greatest quantity.

NAILS GROWING IN THE FLESH .- A late writer of the Ohio Cultivator gives the following remedy:-

"Cut a notch in the middle of the nail evcry time the nail is pared. The disposition to close the notch draws the nail from the sides. It cured mine after I had suffered weeks with its festerings."

A mathematician being asked by a stout fellow, "If 2 pigs weigh 20 pounds, how much will a large hog weigh ?" he replied, "Jump into the scales, and I will tell you

A MAN NINE FEET HIGH .-- A giant, nearly nine feet in height, is shortly expected to arrive in Madrid. He is a native of Lachar in the province of Grenada, and is only twenty- pressing my entire approval of the selection and three years of age. He eats as much as five men, walks with extreme rapidity, and has been twice married, but both his wives are dead. His object in visiting Madrid, is to demand the hand of a female of great beauty, who keeps a coffee house. He is described as so great a coward, that he will allow a child to ill treat him.

A SINGULAR CASE .- The Exeter News Letter states, that a gentleman residing in that town, owns a cow which he dare not let out to pasture or into the street, such is her ma. licious disposition and perfect hatred of the human species and especially of women and children. The owner of the cow also has a cat upon his premises, and although the gentlest treatment and all the blandishments of the dairy have been proffered it, no person law-office, in Sunbury, the most has been able to lay hands upon it or even to lure it into the house. Strange as it may seem, these two wild animals have the best understanding between themselves, and appear to be perfectly happy in each other's company. While few persons dare approach the head of the cow, the cat sleeps in her manger, or upon the cow's back, eating with the cow from one pail, and receiving the kindest treatment from her.

ANIMALGULES IN WATER -The idea entertained by most persons, that all water, whether found in springs, wells, brooks ponds or cisterns, or even that fresh rain water, is filled with living creatures, is, as far as the microscope enables us to ascertain without foundation. Water is a compound of two gasses-hydrogen and oxygen-and the existence of animalcules in it is altogether dependant on certain causes, principally on its contact with vegetable matter; thus, if you take a bowl of water, and place a handful of hay or other vegetable matter in it, in a few days the top will be covered with a scum, which, by putting a small quantity under the Microscope, will be found to be a mass of animalcules, but still only of the lower order, most of them being the monads: the smallest of this class being so minute that 80,000,000 can swim about in one drop.

DEEP WELL.-The deepest artesian well in America is now in progress at the sugar refinery works of Belcher & Brother, at St. Louis, where it has reached the extraordinary depth of 1750 feet, far below the level of a great portion of the bottom of the Mexican Gulf. The borneg is to be continued until good water is reached, which is expected to be at the depth of about 2000 feet, and this w... be the deepest well in the world. The work thus far has cost \$10,000, and the only result has been streams of salt and sulphur water. The hole, which is 31 inches in di amules, is bored with an augur driven by a veam eppine, the instrument penetrating beat four feet daily. The rods measure 33!

CP \$500 CHALLENGE.

WHATEVER concerns the health and happiness of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to mave the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solernly assure you that WOHMS, according to the opinion of the most occurred Physicians, are the primary causes of a large majority of diseases to which children and adults are linible; if you have an appetite continually changeable from one kind of food to masher, Bad Brenth, Pain in the Stometh, Picking at the Nose, Hardness and Foliness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote WORMS, and you should at once apply the remedy:—

HOBENSACK'S WORM SYRUP. An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect, where Bowel Complaints and Diarrhean have made them weak and debulisted the Tonic properties of my Worm Syrup are such, that it stands without an equal in the enalogue of medicines, in g ving tone and strength to the Stomach, which makes it an Infallible remedy for those afflicted with Dyspepsin, the automaking cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficiency over all others.

THE TAPE WORM!

This is the most difficult Worm to destroy of all that infest the human system, it grows to an almost Indefinite length becoming so coiled and fastened in the Intestines and Stomach effecting the health so sadly as to cause St. Vitus Dance, Fits, &c., that those afflicted seldom if ever suspect that it is Tape Worm Instenies them to an early grave. In order to destroy this Worm, a very emergetic treatment must be pursued, it would therefore be proper to take 6 to 8 of my liver Pills so as to remove all obstructions, that the Worm Syrup may not direct upon the Worm, which must be taken in doses of 2 Tublespectually 3 times a day these directions followed have never been known to full in curing the most obstimate case of Tape Worm. THE TAPE WORM!

No part of the system is more liable to disease than the LIVER, it serving as a filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver effects the other important parts of the system, and results variously, in Laver Complaint, Jamidice, Dympepsis, &c. We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of ROOTS & PLANTS furnished by nature to trait the sick! Namely, 1st, An EXPECTORANT, which augments the secretion from the Pulmouary mucus membrane, or promotes the discharge of secreted matter. 2nd, An ALTERATIVE, which changes in some inexplicable and insensible manner the certain matid action of the system. 3rd, A TONIC which gives tom and strength to the across system, renewing health and vigor to all parts of the body. 4th A CATHARTIC, which meta in perfect harmony with the other ingredients, and operating on the Bawels, and expeding the Whole mass of corrupt and vitinet matter, and purifying the Blood, which destroys disease and restores health. HOBENSACK'S LIVER PILLS.

TO FEMALES. You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions ei-ther total or partiat, they have been found of inestimable benefit, restoring their functional arrangements to a heal-thy action, puriving the blood and other futils so effects ally to put to flight all complaints which may arrise from fermale irregulatities, as healerbe, eddiness digness of

thy action, purifying the blood and other fluids as effectingly to put to flight all complaints which may arise from fermale irregularities, as headache, giddliness, dimness of sight, pam in the side, back, &c.
