SELECT POETRY. THE CONTENTED MAN. FROM THE DERRAN OF JOHANN MILLER. Why need 1 strive or sigh for wealth ? It is enough for me That Heaven hath sent me strength and health, A spirit glad and free ; Grateful these blessings to receive, I sing my hymn at morn and eve. In some, what floods of tiches flow ! House, herds and gold have they ; Yet life's best joys they never know, But fret their hours away. The more they have, they seek increase ; Complaints and cravings never cease. A vale of tears this world they call, To me it seems so fair : It countles pleasure hath for all, And none denied a share. The little birds, on new-fledged wing, And insects revel in the spring, For love of us, hill, woods and plains, In beauteous hues are clad ; And birds sing far and near sweet strains, Caught up by echoes glad. "Rise," sings the lark, "your tasks to ply; The nightingale sings "inflaby." And when the golden sun goes forth, And all like gold appears, Gloom o'erspread the glowing earth, And fields have ripcomg cars, think these glorious that I see, My kind creator made for me. Then loud I thank the Lord above, And say, in joytul mood, His love, indeed, is Father's love, Has will to all men good. Then let me ever grateful live, Enjoying all He designs to give. Dictures of Married Life. From Arthur's Home Gazette. THE THREE WIVES. BY P. H. COOKE. Mr. Jedothun Spike was an eccentric bachelor of fifty. His mother died in giving him birth, and it would seem that his mother-heart died with her, for from that hour the hapless Jeduthun seemed to have no perception of feminine excellence, and diverted himself with ridiculuing the toibles of the sex, whose true character was to im a despised enigma. The feat of jamping from a balloon, the jumper suspended by an India tubber tope, was duly performed on Thorsday. It was the most studendous exhibition of daring and address that the Parisians have yet been permitted to witness. From one side of the car of the balloon hung the India-rubber cord, for Mrs. Henry Spike was recognized as descending 150 feet, and then returning and being fastened to the other side of the car. "I thought," said the uncle, drily, "that it thus formed a strong loop.
