#### THE VILLAGE PASTOR.

There in his allotted home Abides, from year to year, a genuine Pricet, The shepherd of his flock ; or, as a king Is styled when most effectionately praised, The father of his people. Such is he, And rich and poor, and young and old, rejoice Under his spiritual sway. He bath vouchsafed To me some portion of a kind regard; And something also of his inner mind Hath he imparted,-but I speak of him As he is known to all. [Wontswonth.

2,500 Acres Timber Land House FOR SALE. SEVERAL VALUABLE TRACTS OF TIMBER LAND, compassing about 2,500 acres, part of which is situated on Tobyhanna miles of Lehigh River, in Penn forest township, Carbon County, one of the great Coal Counties

of Pennsylvania, can be had at a bargain, if application be made soon. These lands are thickly covered with the best timber of that region. While it is believed that 75,000 feet of lumber to the acre, can be cut from a large portion of the land, the balance will average not much less than this figure. The kinds of timber found on the land are Hemlock, Spruce or White Cedar, White Oak, White Pine and

Chestnut—but principally made up of White Pine and Hemlock, The Tobyhanna and Muddy Creeks are large and rapid streams, yielding a vast amount of water power, and are capable of driving a large number of saw mills. They empty into the Lebigh which stream, with the Lehigh Canal affords an outlet to the most desirable hunber markets.-There is, too, under contemplation, leading to the cities of New York and Philadelphia which runs within one mile and three quarters of the land. Through these avenues lumber can be delivered in either of the cities named, for about \$7 per thousand feet-thus enabling persons engaged in the trade to derive greater profits than attend investments generally.

In addition to the timber, convertible into every shape of lumber, there is much that will answer for spors of vessels—a sort of timber that saip-builders have been obliged to purchase in Maine, or at other distant points. Unlike most of the lands on the Lehigh there has, as yet, been no culling of the timber on this property. It stands undisturbed by the wood-man's axe. It is, therefore, the more valuable, The lumber trade of the Lehigh has been carried on to such an extent for years past, that a scarcity of good timber is beginning to be felt. Every season necessarily increases this difficulty. consequence must be an enchancement of the value of timber lands. Those un-called tracts

with the advantage of avenues to market, such as the lands offered for sale, possess, cannot fail a he the sources of supply hereafter.

But the land is not alone valuable for the tim ber it contains. It is of good quality for farming, searly every acre being susceptible of a high state of cultivation.
Capitalists desiring to make investments, would do well to turn their attention to these lands. For
