SELECT POETRY.

A LADY'S HAT.

O, it cost a hundred dollars, And was just the sweetest thing ; Perched above a queen of collars, Tied with vast expanse of string.

And the fringe weiged twenty ounces Round her mant'e, short and cool; And her silk brocade, with flour.ces, Filled the pew superbly full,

Dainty gloves, and kerchief broidered, In her psalm book kept the stops;
All the things she were were ordered
From the first Parisian shops.

But that hundred dollar bonnet-That's the gem I wish to paint; Such a shower of things were on it, Quite enough to craze a saint.

O. I could not hear a word of What the pious paster said, For the shapes and shines unheard of That were floating round her head.

Bands, and plumes, and flowers, and laces, Fancies more than you could name; And they say Miss Dorsey's cases Boast a dozen just the same.

How I wonder who will wear them ;--If the pastor seeks to teach By his texts, he well may spare them; 'Tis the milliners that preach.

All our eyes such sights are drinking, Counting o'er their cost anew; And we break the Sabbath, thinking, What if we could wear them too!

A Chrilling Sketch.

From "Events in Indian History." ADAM POE. About the middle of July, 1782, seven Wyandots crossed the Ohio, a few miles above Wheeling, and committed great depredations upon the southern shore, killing an old man whom they found alone in his cabin, and spreading terror throughout the neighborhood. Within a few hours after their retreat, eight men assembled from different parts of the settlement, and pursued the enemy with great expedition .-Among the most active and efficient of the party, were two brothers, Adam and Andrew Poe. Adam was particularly popular. In strength, action and hardihood, he had but few equals-being finely formed ter Closets; also, all kinds of Brass Cocks for and inured to all the perils of the woods. water and steam. Brass Oil Cups, and Giobes They had not followed the trail far, before for Engines. All kinds of Copper Work and they became satisfied that the depredators were conducted by Big Foot, a renowned chief of the Wyandot tribe, who derived his name from the immense size of his feet. His height considerably exceeded six feet, and his strength was represented as Herculean. He had also five brothers, but little interior to himself in size and courage, and CONFIDENCE can be placed, to the foliest extent, in the use of the Supporting of Mrs. Berrs of Phila-CONFIDENCE can be placed, to the folicat extent, in the use of the Supporters of Mis Berts of Philadelphia. So many thousand cases are known of entire telled of Ladies from the most intense pain of besty and anxiety of mind, orising from the most intense pain of besty and anxiety of mind, orising from the most intense pain of besty and anxiety of mind, orising from the use of other applications of no reputation whatever. Phila., October 1, 1853—46. point at which the whites as well as the Indians were in the habit of crossing, it suddenly diverged from the stream, and stretched along a rocky ridge, forming an obtuse angle with its former direction .-Here Adam halted for a moment, and direcfed his brother and the other young men to follow the trail with proper caution, while he himself still adhered to the river path, which led through clusters of willows directly to the point where he supposed the enemy to lie. Having examined the priming of his gun, he crept cautiously through the bushes, until he had a view of the point of embarkation. Here lay two canoes, empty and apparently deserted .-Being satisfied however that the Indians were close at hand, he relaxed nothing of his vigilance, and quickly gained a jutting cliff, which hung immediately over the canoes. Hearing a low murmur below, he peered cautiously over, and beheld the obect of his search. The gigantic Big Foot lay below him in the shade of a willow, and was talking in a deep low tone to another warrior, who seemed a mere pigmy by his side. Adam cautiously drew back and cocked his gun. The mark was fair -the distance did not exceed twenty feet, and his aim was unerring. Raising his dy aim at Big Foot's breast, and drew the trigger. . His gun flashed. Both Indians sprang to their feet with a deep interjection of surprise, and for a single second they all however, was soon over. Adam was too much hampered by the bushes to retreat, and setting his life upon the cast of the die, he sprung over the bush which had sheltered him, and summoning all his powers, leaped boldly down the precipice, and alighted upon the breast of Big Foot with a shock that bore him to the earth. At the moment of contact, Adam had also thrown his arm around the neck of the smaller Indian, so that all three came to the earth together. At that moment a had succeeded in reaching the deep water sharp firing was heard among the bushes before he expired, and his body was born above, announcing that the other party was off by the waves, without being stripped of

of the small Indian, who sprang to his feet. the country.

Big Foot then ordered him to run for his tomahawk, which lay within ten steps, and lived many years after this memorable congled manfully to extricate himself from Big Foot. the folds of the giant, but in vain. The lesser Indian approached with his uplifted tomahawk, but Adam watched him closely, and as he was about to strike, gave him a kick so sudden and violent, as to knock the tomahawk from his hand, and send him staggering back into the water. Big Foot uttered a deep exclamation in a tone of deep contempt at the failure of his companion, and raising his voice to the highest derstand, but supposed to be a direction for ever, that he managed to receive the tomaate effort to free himself from the arms of inces bordering on the Austrian dominions, upon his hip, pitched him in the air as he himself would have pitched a child .--Adam fell upon his back at the edge of the water, but before his antagonist could spring upon him, he was again upon his with you, marches off to India an army of feet, and stong with rage at the idea of being handled so easily, he attacked his an- Russia is nothing, and a hundred thousand tagonist with a fury which for a time com- Canaille, Cossacks and others, and England pensated for inferiority of strength. [This touching ballad is from the German,

A herring loved an oyster, An oyster in the south ; And all the herring longed for Was a kiss from her pearly mouth.

But the oyster she was scornful. And ever staved at home, Shut up in her hard shell castle, Where never a kiss could come.

'Twas on a summer evening. Her shell she opened wide To see her charms reflected On the silver-gleaming tide.

Quick came the love-lorn berring, Like lightning flew his fin; "And now," thought he, "or never, Sweet love, my kiss I'll win.' But as towards the oyster,

Too far his head he leaned. Snap came the shells together, And he was guillotined. All in the glowing sunset

He floated from the shore. And from his neck came gurgling-"I'll ne'er love oysters more.

AUTHORSHIP OF THE BIBLE.

There are in all, sixty-six books which comprise the volume of Holy Writ which are attributed to more than thirty different authors or writers of the whole. Hall of the New Testament was composed by St. Paul, and the next largest writer is the gentle and beloved St. John With the single exception of Paul, neither history nor tradition has tes-MILKING BEARS .- The Freeman's Journal tified that those powerful thinkers and writers ever enjoyed the benefits of education, or that they were trained to scholarship and Deacon had observed the custom of reading learning; yet how ably have they written, bor then by salts, senna, castor oil, or the. daily a chapter from the sacred scripture to what eminent characters have been chronithe family, and of making a running extem- cled by them; and what great events record-

NEW ENGLAND WINE

We find that in many localities in Connec tient, wine of excellent quality had been made from native grape within a few years, on a small scale, but in sufficient quantities to test the question, whether good wine can be made from the native grape of this State. In every instance a superior article has been produced. A gentleman of Andover made two barrels a few years since, and the physicians in his neighborhood ordered it to be used in sickness, as a much better article than the imported. He readily sold it for \$2,50 a gallon. Two gentlemen of this city each made a barrel last fall, from grapes purchased at \$1 a bushel in the market. Six or eight bushels will make a barrel. We find on our desk a bottle from Mr. A. G. Graham, of New Britain, and suppose from the word left with it, that it is from the native grape. We are satisfied that wine can be produced in Connecticut in large quantities, and at a great profit to the produ-

Nonie Legislation .- The School bill has of children of Scholastic age. this will give

Pirrisaung -There are in Pittsburg and The superior (upper) molar teeth have vicinity, it is said, 17 large rolling mills; 12 shops; 5 large cotton factories; 4 large flouror two united, so as to have the appearance is estimated that there are more than 100 vicinity, besides those above named.

A WORD TO LITTLE BOYS Who is respected ! It is the boy who con-

ducts himself well, who is honest, diligent, and commends itself in its moral to all lovers and obedient in all things. It is the boy who is making an effort continually to respect his father, and to obey him in whatever he may direct to be done. It is the boy who is kind to other little boys, who respects age, and who never gets into difficulties and quarrels with his companions. It is the boy who leaves to effort untried to improve himself in knowledge and wisdom every day-who is busy and active in endeavoring to do good towards others. Show me a boy who obeys his parents, who is diligent, who has respect for age, who always has a friendly disposition, and who applies himself diligently to get wisdom, and to do good towards others, and if he is not respected and beloved by everybody, then there is no such thing as truth in this world. Remember this, little boys, and you will be respected by others, and you will grow up and become useful

> UNDERGROUND TELEGRAPH. - During the cold weather experienced in Paris in the latter part of December and in the begining of the present year, the electro-magnetic telegraphs were much interrupted from snow and ice, while the submarine telegraph rendered uninterrupted service. To avoid these difficulties, the administration have determined to place the wires between this and London under ground. The submarine line continues to work well.

> To Keep Well, people must take either medicine or exercise. As a general thing, pills are only substitutes for a saw and buck. Disease must be "worked" off; if not by la-

Punch defines a Court House sa the place Jeremiah is sorrewfol; Isaiah sublime; where a penny's worth of justice is jurchas-Coming to that part of the Bible which says David poetical; Daniel sagacions; Habak- ed with a shilling's worth of lar. There is 'Now these seven did Milcha bear unto Na- kuk and Haggai terrible and denunciatory; only one thing less profitable than speing people, and that is going their seemily.
