

DESTRUCTION OF THE POPE'S OFFERING TO THE WASHINGTON MONUMENT.

About 12 o'clock last night the sentinel near the Monument became conscious of the rubbing of something against the side of his watch box, he at first thought it was his faithful dog, but on attempting to open the door, he found it secured by a rope, which had been drawn tightly around the box.

Immediately after, he perceived that some persons were passing paper over the windows. He called to them, and asked what was meant, and was told to hush. He asked if they intended to injure him and received the same reply as he did to all other questions.

He then heated an iron poker in his stove, and pressing it through the door, burned the rope in two, and made his way out. He soon found that his dog had been poisoned, and was dead, and on examining the ground carefully, he discovered that the beautiful pieces of marble that had been presented to the Monument Association by the Pope, had been broken into a thousand fragments.

We have no information of whom suspicion rests upon in connection with this deed. We are informed that a very large number of persons visited the Monument yesterday, and not one-third of them registered their names. We have no doubt a large reward will be offered for the apprehension and conviction of the high-handed predators.

The attention of our readers is called to Professor Holloway's Advertisement in another part of our columns. The world wide renown of his Pills and Ointment are too well known to require much comment from us; but they are, without doubt, the most efficacious remedies for all the ills which flesh is heir to. Many of our readers have derived immense benefit from the Pills in cases of bile, and general derangement of the stomach and bowels, and no cutaneous disease can resist the curative powers of the Ointment, the effect of which on the human frame is certainly astonishing.
