"Dr. Mannocy's now, on Inhabation as one of the few which have been issued from the English press on this subject. Its re-publication in this country, with the judicious Notes of Dr. Greene, will add to the medical interature of the United States, and, it is hoped, excite some interest in the medical Profession on the subject of Inhabation, as a means of treating pulmonary affections. With the addition of modern discoveries in Physiology, this mode of treating these discases should have a fair trial and some assuement made for the long neglect which Inhabation has suffered at the hands of medical mea.

DR. GREENE will treat DISEASES OF THE LUNGS and AIR-PASSAGES, agreeably to the mode so successfully adopted in the practice of Dr. A. R. Maddock, and other eminent physicians of Europe. Ly this mode of treatment the diseased surface of the Bronchi and Lungs are directly acted upon, the various medicated vapor being carried to the most minute ramifications of the Lungs, producing healthy action; where a complete disorganization has not taken place the best results always attend this feature of Practice; in fact, with suitable adjuncts, it is the only reliable form of treating diseases of the Respiratory Organs. He intends devoting his sole attention to this particular branch of his profession. Those destrous of committing him can do so by letter addressed to

Prothonotary's Office,

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which coeld be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have mone of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrotula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in

CONSUMPTION.

Turs remedy has won for itself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colles, Coughs, Hoarseness, &c.; and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout CONSUMPTION.

CHILDREN I's the package of the constant use throughout that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—Weiser & Braner, Sunhary; Bird & John, Shamokin; W.
