British Periodicals

EARLY COPIES SECURED.

Premiums to New Substribere !!! LEGOARD SCOTT & CO., New York, continue to republish the following British Periodicals, viz :

THE NORTH BRITISH REVIEW (Free Ch.) THE WESTMINSTER REVIEW (Liberal.) BLACKWOOD'S EDINBURG MAGAZINE

The present critical state of European affairs will reside these publications unlevally interesting during the forth-coining year. They will occupy a middle ground between the massly writen news items, critic appendiations and flying rammer of the father historian, written after the living interest and ascelerant of the great political events of the father historian, written after the living interest and ascelerant of the great political events of the time shall have passed away. It is to thuse Periodicals that readers must look for the only really intelligible and reliable history of current events, and as each, in addition to their well-constilled literary scientific, and theologies character, we argarise a good the consideration of the reading public.

If Arrangements are now permanently made for the receipt of Early Shretz from the British Publishers, by which we are enabled to place all our Reprints in the hands of subscribers, about as so on as they can be furnished with the foreign copies. Although this anvilves a very large outley on our part, we shall continue to furnish the Periodicial at the same low rate as hereforce, togetse with the following Premiums to new Subscribers.

LEONARD SCOTT & CO.. 54 GOLD STREET, NEW YORK.

N. B.—L. S. & Co. have recently published, and have ow for sale, the "FARMER'S GEDE," by Heary Stephens, of Edinbargh, and Prof. Norton, of Yale College, New Haven, complete in two vois, to plectative, constaining 1600 pages, 14 steel and 600 wood engravings. Price in music bioding, 86. 13 This work is not the old "Book of the Farm," tely nursers are and thrown upon the Market New York, December 23, 1854.

FOR ALL THE PURPOSES OF A FAMILY. PHYSIC.

Then has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This is been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose design. It is easy to make a physical pill, but not easy as make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, with what success we would respectfully submit is No. 9 and 10 South Wharves, Philadelphia. IF Farmers can load on two private alleys. with what success we would respectfully submit is the public decision. It has been unfortunate for the patient hitherto that almost every pargative, medicine is acrimonious and irritating to the bow-els. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These yells produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely regetable, no harm can arise from their use in any regetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judicionsly. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedly cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languar and Loss of Appetite, Listicesness, Irritability, Billions Headache, Billions Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an apprient, they siffed prempt and sure relief in Cosand Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic. Dependency, Humons, Scroftella and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a nurgative is required.

They have also produced name singularly surcessful cures in Rheumatism, Gout, Dropsy, Craysl, Erysipelas, Palpitation of the Heart, Paris in the Back, Stornach, and Side. They should be firely taken in the spring of the year, to parify the blood and prepare the system for the change of scanons. An occasional dose atimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renevate the strength of the body, and restore the wasted or discassed energies of the whole organism. Hence an organism deserts a divantageous, even though no serious derangement crists; but unnecessary dosing should never be carried to far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be extensed here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto heen available to mankind. When their

body; and it is confidently believed this nill will answer a better purpose than any thing which has hitherto been available to mankhol. When their rittues are once known, the public will no longer doubt what remedy to employ when in need of a eathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vogetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

PERCARED BY

JAMES C.-AYER, Practical and Analytical Chemist, LOWELL, MASS. Price 85 Cents per Box. Five Boxes for \$1. AYER'S

CHERRY PECTORAL,

COUGHS, COLUS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such notoriety from its carres of every variety of pulmenary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country absencing in persons publicly known, who have been realised from alarming and even desperate of entered from alarming and even desperate of entered from alarming and even desperate of entered from the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparant to excape observation, and where its virtues are known, the public no longer liestiate what autidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colda, Coutars, Hoansannes, &c., and for Cultabries it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the gennine article is sold by
