CONSUMPTION.

CONSUMPTION. This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evi-dences of its virtues in any community where it has been employed. So wide is the field of its use-fulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too appar-ent to escape observation, and where its virtues are known, the public no longer hesitate what antidots to employ for the distressing and dangerous affec-tions of the pulmonary organs which are in-ident to our climate. And not only in formidable at-tacks upor, the lungs, but for the milder varieties of COLDS, COUDES, HOABERNESS, &c.; and for CHILDERN it is the pleasantest and safest medicine that can be obtained.
