A HUMAN LIFE SAVED! Downsiac, Mich., March II, 1856,

J. A. RHODES, Esq.: Dear Sir—I took your medicine to sell on consignment, "no cure no pay," I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their their training is a fair specimen of all! have received:

W. S. Corsells took me—"I had taken miss bottles of Christic's Agus Balsam, and continually run down while using it until my longs and liver were Congested to that degree that blood discharged from my mouth and bowels, so that all thought it impossible for me to live through another chill. The doctors too did all they could for me, but thought I must the. Nothing did ize any good until I got Rhode's Fever end Ague Care, which at once relieve me of the distress and mauses at my stomach and pain or my head and bowels, and produced a permanent cure in a chort time."

H. M. CONKLIN says: "I had been taking medicin H. M. the kind in the world.

This is one of the largest and most elaborate works of the kind in the world.

Rural Architecture forms one of the principal features. Each number contains from two to four engravings of model cottages from designs by eminent and skillful architects. Space is also assigned to the tasteful art of Landesape Gardening; engraved plans of gardens in every style, and sciapted to the peculiarities of different orders of architecture, beautify the work.

Engravings of new fruits, new flowers, new vegetables, &c., ore illustrated and described as soon their respective qualities can be determined, forming the most complete and elegant Manual of Rural Husbandry ever attempted. An experienced corps of practical writers, seven in number, are engaged to fill its columns.

It contains sevenary large pages, and is printed on the finest peat-issuifaced paper, manufactured expressly.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

FAMILY PHYSIC.

Thene has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This n'been prepared to meet that demand, and an exten sive trial of its virtues has conclusively shown with what success it accomplishes the purpose design. It is easy to make a physical pill, but not easy make the best of all pills—one which should have none of the objections, but all the advantages of every other. This has been attempted here, with what success we would respectfully submit it the public decision. It has been unfortunente for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Billous Headache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an apprient, they afford prompt and sure relief in Costiveness, Piles, Celic, Dysentery, Humors, Scrotula and Scurvy, Colds with soreness of the body. Ulcers and inspurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back. Stomach, and Side. They should be freely taken in the spri

CONSUMPTION.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, the it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHILDBERS IT is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout CONSUMPTION. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it even has been, and that the genuine article is sold by—
