

A T the burning of the Artizan A Buildings, April 10th, and in the GREAT FIRE in Market St. May 1st. 1856, the granine Herring Safe preserved the Jewelry of Geo. W. Simmons & Bro., Hords, Papers, &e., of Fisher & Bio. and Edward Semans & Co., after remaining exposed in the burning trains for jearly Forty Hours, and proving conclusively what we have always claimed for them, their great superiority over all securities

now known.

In these fire', the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per cent, more fite than Herring's," came loth the secknowledged vicus, not only preserving their contents and through another ordeal, while the boasted 'Schannide s' of through another ordeal, while the boasted 'Schannide s' of through another ordeal, while the boasted 'Schannide s' of through another ordeal, while the boasted 'Schannide s' of through another ordeal, while the boasted 'Schannide s' of through another ordeal, while the boasted 'Schannide s' of through enter the same in the protect of the same cases their entire contents completely destroyed.

To the public we would simply say, that, during the 14 years the Herring's Safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would, therefore, cantion purchasers against the misrepresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarnite it to resin more than double the amount of heat of any other Safe now known.
