FROM THE ARCTIC REGIONS-SUPPOSED TRA

Captain Penny, Commander of the ship Lady Franklio, has returned with her to Aberdeen, from the Arctic Regions, and reports that when he was in Hogarth's Sound, he was told by the Esquimaux that some of heir companions had seen, a long way off in a northwesterly direction, a circular white tent erected on the ice. The Esquimaux had taken from it on their first visit some bright metal, and on their second visit some more. Afterwards they had seen two white men in the tent.

It was reported among the natives that these and other white men had perished from hunger. So far as Captain Penny can judge, he thinks that this may refer to the same party from whom Dr. Rae obtained the silver spoons, &c., which identified the white men with Sir John Franklin and his party. NEW MODE OF CATCHING WHALES-POWDER INSTEAD OF STEEL.

Among the numerous arrivals to our harbor from all parts of the world, it is seldom that the flag of an American whaleship floats opposite Queenstown. A whale fishing brig, called the W. F. Stafford, 172 tons, belonging to New York, arrived at Queenstown on Friday last, from Nova Zembla. On her voyage, which was merely an experimental trip, she captured three whales, from which nearly eight tons of oil have been obtained. A new system has been introduced, by which it would seem that this valuable animal is more surely, safely and speedily destroyed that by the old means; and we understand that the credit of introducing the present mode belongs to the captain of the W. S. formerly-a course that was both dangerous at present merely engaged in an experinental trip, and his ship is at present in tork harbor for the purpose of enabling him to judge of its suitability as a place of depatch for the fishing grounds. It is his tention in the summer months to fish in he North Seas, and in the winter to visit he coast of Patagonia, and he is anxious to iscertain whether this harbor would suit him as an intermediate port at which he might refit and replenish bis stores. It has been istly said that that country prospers most here labor commands the greatest reward c is best paid. Labor, after all, is the basis of all wealth, and should therefor be proteted. In this county the miner, the labore and mechanic, is left almost wholly at the sercy of the employer, and when one of thee mammoth corporations or large operationsfail, these persons who are least able to beg it—are those who have to suffer most. Seh has been the bitter experience of many a this county. At the last session of the Legislature a law

was introduced for the protection of laborers, and was up on second reading, ready for the action of the Assembly when as can be seen by reference to the Journal, page 603, the members (including our own) adjourned at 5 o'clock, without taking a vote upon the bill, and it was never looked after by them again, although they remained in Session four weeks afterwards, creating all kinds of corporations.

What redress then can we expect from our late member who has given unmistakable evidence that he is not on the side of the mechanic and labor, but who seems to be a special favorite with the mamnoth corpora-We would suggest to our fellow laborers the propriety of getting up petitions, asking

FELLOW CITIZENS :-The undersigned desires to be elected District Attornet, and respectfully solicits your votes at the approaching October elect tion

I am not the candidate of any political party, because I believe that political affinities alone, should not secure an office into which partisan feelings ought never to enter. The DISTRICT ATTORNEY is the servant of the law; it is not more his duty to convict guilt by legal evidence, than it is to guard the innocent and falsely accused. He is an agent selected by the people to do justice between the Commonwealth and those who break her laws. He should not therefore, be subjected to the necessity of courting popularity in the ranks of any one destinctive party but feel that, in the minds of the people, as well as in his own conscience, he is acquitted of all political partialities and obligations which might misdirect, or, be supposed unduly to control his action. He is required to possess due knowledge of, and experience in the science and practice of the law, because public interests, with the reference of science. public interests, with the safety of societyare, in a large degree, committed to his pro-tection. In his official character he should be a Lawyer, not a partisan—independent.

LIBERTY OF CONSCIENCE ABROAD. Mr. CASS. Mr. President, I have been requested to present the petition which I now send to the Clerk's table, from the Maryland Baptist Union Association, and to move its reference to the appropriate committee. I do this with pleasure, not only out of regard to the motives and position of those who make this application, but also because I entirely concur with them in the importance of the object they seek to obtain, and in the propriety of calling the attention of the Government to it-an object dear to us, and in its consequences to the world now and bereafter.
