Truth is Mighty, and Must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, February 27, 1857.

READING, March 4. The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a fur-nace, viz: The Safe inuse by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Parrels & Herring, and the Safe in use by H. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely

The fire was started at 81 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chesnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened, and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examined and marked by the Committee. The books and papers taken from the Safe manufactured by Farrels & Herring were in our judgment, damaged fully fifteen per cent. more than those

taken from Evans & Watson's Safe. We believe the above to have been a fair and impartial trial of the respective qualities of both

JACOB H. DYSHER. DANIEL S. HUNTER. Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Sales

FOR A MARVELLOUS AGE!! HOLLOWAY'S OINTMENT

THE GRAND EXTEREALTREMEDY. THE GRAND EXTEREAL REMEDY.

By the set of a microscodic, we see millions of little openings on the surface of our bodies. Through these this Ointment, when robbed on the skin, is carried to any organ or inward port. Diseases of the Kidneys, disorders of the Liver, affections of the heart, Inflammation of the Langs, Asthmas, Coughs and Colds, are by its means effectually certed. Every house-wife knows that soft passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the hyding lody, carring the most dangerous inward complaints, that cannot be reached by other means.

The inventor has travelled over many parts of globe, visiting the principal hospitals, dispensing this Ontment, glving advice as to its application, and has thus been the means of restoring countiess numbers to health.
