Washington, Oct. 5 .- Attorney General Black, in a recent decision, says that a person who claims land in California under a grant from Mexico, is entitled to have a putent for it, issued out of the General Land Office, whenever he shows his claim has been finally confirmed by the Commissioner of the Dis-trict Court, or by the Supreme Court, if he at the same time accompanies that proof with a survey, certified and approved by the Surveyor General of California. The Attor-ney General has certain supervisory control over the investigation of these California land claims, while the contest upon them is be-tween the United States and Mexican grantees. LETTER FROM THE EDITOR, DATED PHILADELPHIA, Oct. 5, 1857. It is not more than a month since, when the money panic commenced in New York. made, with certainty, as to the ressult of the at which time our Philadelphia cotemporaries were exulting that their merchants and their Banks were firm, and could not be shaken, How differently the result has proved, the events of the past week has fully shown.

Philadelphia was the first to suspend in 1837 and is again the first to suspend in 1857. But the present is not a parallel case with the former suspension. Then gold coin was not in circulation among the people as a currency, now it forms a great portion of the daily circulation. Then our resources were limited, and our indebtedness great, Such is not now the case, and had those who controlled the Banks and the finances, in Philadelphia, managed matters with more judgment and unanimity, there would have been no suspension in the city, and consequently none in the country. What the Legislature will do it is hard to conjecture. I have heard various remedies suggested, one of which was to compel the Banks to resume in 30 days on their notes, and give them one year on their deposits. But this would only give the Philadelphia Banks privileges over the country Banks, whose liabilities are

mostly in circulation. The State Agricultural Exhibition was not what it should have been, and what its friends expected. The display was meagre as compared with some previous exhibitions. down of the first instant says that nearly a The time for State Fairs, in my opinion, has passed, and more attention will, hereafter, be paid to County Exhibitions. We do not know that the farmers or others will lose by this change,

To-day (Monday.) was a great day in Philadelphia. The firemens' parade absorbed everything. It was certainly a grand display, but in my opinion a foolish one, especially at this time, when consternation and expected

In Philadelphia it was the opinion as well as the desire, that the New merchants of this city was held at the Ex- York Banks would suspend specie payments. as that would compel the Boston Banks, and most probably all the Banks in the Union to suspend, thus placing all on an equality. But this hope is fallacious. The Banks in this present circumstances .- Montour American city cannot suspend without going into liqui dation. No act of the Legislature can relieve them. Besides New York is the great centre of commerce as well as of finance, and it is her policy to sustain her credit, and

attract both. Should the Philadelphia Banks and if it be wanting to any considerable continue in a state of suspension the result will be most disastrous to her trade and commerce. With her money at a discount, varying from five to ten per cent., produce will naturally seek other markets, where the currency is not depreciated.

But this revulsion will not be without its good effects. It will teach those who will only learn in the school of bitter experience that extravagance and recklessness must even tually end in ruin and disaster. It will teach the followers of Robert J. Walker, that the country to keep the wheels of business in motion, and thereby enable honest industry nations, like individuals, cannot long flourish when their outgoes are larger than their incomes, or when our imports are larger than this winter among those who would labor but our exports. A proper tariff on rail road can find no employment, will be largely iron alone, would have saved one bundred millions that have been sent abroad for iron that could have been made at home.

THE ELECTION takes place on next Tuesday, but there is very little excitement concerning it. In fact the opposite party admit that Gen. PACKER, our candidate for Governor, and the whole State ticket will be elected by a large majority. Our State Everything on Change is going down rapidly ticket is certain of success, and the men composing it are worthy of our support. New COUNTERFEITS.

The following now counterfeits have made to defend a seemly accordingly you have been called together to take into consideration and adopt such measure of relief, as the present exigencies may seem, in your wisdom, to demand. A sudden and severe financial revulsion has occurred, inducing a suspension of specie payments by the Banks of this Commoswealth and in some of our sister States. This was unavoidable, having become, from the operation of causes unnecessary pow to be numerated, a stern necessity. Thus circumstanced, the community are suffering from the want of a currency, the destruction of confidence, and the numerous evils consequent on financial embarrassment. Every depart ment of industry has felt and been disastrously affected by the shock; trade and commerce have been paralyzed; the merchant, the manufacturer, the mechanic, have seen their

bright prospects suddenly blasted, and many have been involved in a ruin which no ordi-

pary sagacity or foresight could avert. Many of our furnaces, rolling mills and factories have been closed, extensive and valuable coal operations have been suspended or abandoned, and thousands of workmen are out of employment—oppressed with doubt and anxiety, and alarmed with gloomy apprehensions of the future. It is not my intention to discuss in this communication the cause of the present financial difficulties and commercial embarrassment. The evil is upon us, troubles surround us; and to relieve the community, restore confidence, and bring back the prosperity lately enjoyed, and which, it is hoped, is but temporarily interrupted, prompt and harmonicus action, wise and gen erous legislation will be required. The present exigency requires, and every considera-tion of present and future interest to the Commonwealth and the people would seem to demand, that the banks should be released from the penalties and forfeitures incurred and a suspension should be authorized for such reasonable period as will enable them safely to resume the payment of their liabili-

ties in specie.

To force the banks into a too early liquidation would compel them to require immediate payment from their debtors, and would entail upon the community the miseries of wide spread bankruptcy and ruin; while, on the other hand, an unreasonable extension of the unnatural state of suspension, would greatly increase the evils of an irredeemable paper currency. The resumption of specie payments should not be postponed longer than is clearly necessary and the best interests of the

community may require.
The general embarrassment and depression of trade and commerce, and the consequent depreciation of the value of real and personal property, if permitted to continue, will seriously affect the revenue of the Commonwealth the credit of the State, now so well sustained and so honorable to her character, may be endangered, not by any inability to pay, from the difficulty if not the impossibility of procuring a mediam in which payment can be

The faith of the State must be preserved intact. I therefore recommend that the Banks which may be relieved from the penalties upon such suspension by existing shall be required to make a satisfactory arrangement with the State Treasurer, by which it will be enabled to convert the current fund in the Treasury and balances standing to his credit in any of the solvent Banks of the Commonwealth into specie, as soon as the same shall become necessary for the payment of the interest on the funded debt.

And as a further relief to the community, and as a condition of the release of the penalties and forfeitures incurred, it is respectfully recommended that the solvent Banks of the Commonwealth, which paid specie for all their liabilities, immediately prior to their late general suspension, shall be required (under such limitations and restrictions as may be deemed expedient) to receive the notes of each other, continuing solvent, at par, in payment of all debts due, or to become due to them respectively during their suspension; the bank or banks resuming specie payments to be relieved from this condition.

For the relief of the debtors provision

should be made for an extension of the time in which executions on judgments may issue and the period now provided by law, for the stay of executions.

The issue of relief or bank notes of a less denomination than five dollars should not now be authorized, nor should the Banks, during their suspension be permitted to declare dividends exceeding six per cent. per annum.

The moneyed institutions of the Common-wealth, it is believed, are generally in a sound and solvent condition, and if the measures suggested be adopted, the banks will be ena-bled to meet all their liabilities, supply a currei cy adequate to the demands of legitimate trade and the ordinary business of life, regain public confidence, aid and revive every branch of industry, and save their creditors and the community from the bankruptcy and ruin, inevitably consequent on the intense pressure

of the present financial crisis. The questions submitted for your determi nation are important and numerous. They rise far above all partison or political consid erations or calculations. A suffering commu nity, in the hour of their auxiety and peril expect at your hands prompt and patriotic action for their relief.

Influenced by no other consideration than the public good, prompted by no other than honest and honorable convictions of a public and private duty, may be the result of your deliberations meet the expectations, relieve the wants, and harmonize with the true inter ests of the people.

McEWENSVILLE, Oct. 6th, 1857. Mr. EDITOR :- On Tuesday evening last, Tavern," (now kept by Mr. Thomas Barr.) was destroyed by fire. The building was entirely consumed, as well as most of the furniture and contents of the bouse. That the building or furniture was insured we are

not aware. Our merchants are receiving and opening out a new supply of goods, which are quite respectable, notwithstanding the stringency is the money market. The pressure of the present crisis, however, is very sensibly felt throughout this, as well as other neighborhoods. We hope that the present state of affairs will truch as that economy is the best policy, and to live within our means, and not to engage in business beyond our capital. Were we a more frugal people we would be

still more presperous.

Politics is a secondary matter here—the financial panic being the all-absorbing topic. But an occasional thought is bestowed upon our country's welfare, and it is generally supposed that at least some of the Democratic ticket will come out minus a great number of votes on the second Tuesday of October. and of this number we have set down our neighbor, Henry J. Mr. EDITOR: Can Henry J. Reader's democracy be genuine, or is it what might be termed office fever democracy? For certainly one who has opposed the ticket so repeatedly cannot be a consistent democrat. Wm. But now he asks us to elect him Sheriff and calls on every demorrat to support him, but he cannot recive my vote, for I do not consider him a good democrat, and I do not think he was fairly nominated, certainly there were other candidates who had greater claims for our support. but by considerable twisting and managing among some of your Sunbury men, Reader was non inated, or at least they "counted up" the greatest number of votes for him.
