

THE RECENT TRAGEDY IN PHILADELPHIA

A startling rumor reached here by telegraph on Friday last, that Mr. Richard Carter, President of the Anthracite Barre of Tamaqua, had been killed by a pistol shot in Philadelphia.

The first business connection between the deceased and the father of Mrs. Smith was the partnership of Carter, McCauley & Co. in the Anthracite Iron Furnace near Wilkes-Barre in the fall of 1854.

At the Wilmington School for children where she was taught, Mr. McCauley had satisfied that she would be safe and sound in the immediate charge of teachers.

Notwithstanding the father's consent was not given, the marriage took place in December, 1855, just about a year ago.

In some of the papers it is stated that Miss McCauley frequently left school to meet Mr. Carter, and even traveled to Niagara with him.

Some explanation is certainly due to the friends of Miss McCauley, and to the public who support this College.

SHAKEN BY AN EXTRAORDINARY FACT

An intelligent correspondent at Philadelphia informs us that a strange coincidence of a black snake imprinted upon its person.

When a circumstance transpired of an exact character, which would in the last degree disturb the child's spirits, the snake, lying with all the peculiar marks of a real snake, was seen.

Whenever it went excited the most unbounded amazement; this "snake of nature" was examined by physicians, both of celebrity and ability.

The case will be made in the next Congress, whether State banks have the constitutional power to issue circulating "promises to pay."

There will be a large party to take the negative of the argument who will not be so clearly in his celebrated paper on the subject.

The Albany Standard has recommended this week, The Renassance Works, which employ three hundred and fifty men.

The thirty-two factories in North and South Lee, Mass., are all in working condition, although short time equal to 4 or 4 1/2 days per week.

THE CAUSE OF THE DISTRESS

The annexed contains facts and figures of interest. With distress in the country, our factories and mills closed; and thousands of workmen out of employment.

To the Editor of the New York Times:—The Free Trade journals are beginning and pleading the factories in New England to discharge their workmen; in other words, after preaching Free Trade for a series of years, and bringing the whole factory business into utter ruin, they are now begging the owners of our factories to retain those "hands" which they have not already been compelled to discharge.

The law of 1842 received its death blow in 1846 the year that Free Trade was proclaimed in the United States.

That since 1846 the export trade from England to the United States had increased 116 per cent.

That in the last six years from wrought and unwrought, exported to the United States, cotton goods had increased \$2 per cent.

THE DEATH OF CHILDREN

There is no object in the world more pleasant to look upon than a beautiful child.

Even the crustiest of old hacheliers must acknowledge this in his heart, however disappointed he may have been in his temper.

Unfortunately, however the freshness and natural bloom of childhood are often marred by disgusting disorders.
