THE HAIR OF THE PRESIDENTS.

In the Patent Office at Washington, there are nany objects of interest, connected with the fairs in times gone by. While examinit g some as follows:
of these objects of curiosty, when in Washington Resolved, in December last, there was nothing that struck as so forcibly as the samples, or small locks of hair, taken from the heads of different chief magistrates, from Washington down to President Pierce, secured in a frame, covered with glass. GOV. PACKER AND GEN. JACKMAN. We find the following, which relates to the esemblance of Gen. Jackman, of Clinton county, to Gov. Packer, in the Harrisburg correspondence of a Philadelphia paper. The resemblance of Gen. Jackman to the Governor is such that many mistook one for the other, on the day of the inauguration, both being in the same carriage. An Irishman day he came back to Harrisburg to press his claim, and, meeting Jackman, early in the morning in the rotunds, he took him by the hand and shook it most heartily. Give them a salary, increasing with the term of service, beginning with \$4,000 per annum. In this way, the editor thinks, we should have a bench equally divided in politics. But suppose there should be three or more parties-what then? If Jackman is not only a fine looking man, but parties are to be consulted it would be well enough to provide for every contingency. CONFESSION OF THE MANHEIM MURDER

(From the Lancaster Express, Pel. 1.) It will be recollected that it was in evidence in the trial of Anderson and Richards, that a butcher knife was seen in the possession of Richards at the "Spook House," but which was not in the their possession when arrested, and that Mr. Garber testified to baving missed two butcher knives from his house on the day of the murder. On Monday last, Mr. Locher, keeper of the prison, asked Richards what they had done with the knives they murdered the women with. He replied that one of them was thrown into a field below " Groffstown," and that the other was stuck inside of the fence below the Groffstown

quarry.
Mr. Locher and some friends then went in search of the knives, but their search was unsuccessful. Several persons passed while they were looking for them, and inquired the object of their search. After telling them the murderers had confessed to biding the knives there, further search at that time was abandoned; but yesterday morning Mr. Michael Gibson called at the Prison and handed Mr. Locher two butcher knives, which he said he found below the quarry, wrapped up in an old handkerchief, and sticking in the fence.— They were shown to Anderson and Richards. who were asked which of the knives they used in committing the the awful butchery. They designated the small one, which still retains the spots of blood of the poor victims. They also said that " the woman" had used the larger knife to cut the bread she gave them, and that both knives were lying on the table when they (the murderers) went into the kitchen.

Thus has the only imperfect link in the chain of circumstantial testimony which fastened the guilt of this double murder upon the miserable negroes been completed. The knives, which we have examined, are two common butcher knives, one about an inch longer than the other. The small one still bears the distinct marks of blood upon it and the edge is slightly "wired," showing that it was very sharp at the time it was used, and that the edge came in contact with the bone of the neck. This agrees with the testimony of Dr. Atlee, who said that the wounds must have been made with a free-cutting instrument.

the Triegraphic Cable. NEW YORK, Jan. 31.

A letter from George Steward, Esq., Secetary of the Atlantic Telegraph Company, dated at Lendon, January 15, says :- "Our arrangements here for the completion of the work we have in hand are progressing satisfactorily and I trust and believe that our next attempt will be crowned with success The machinery is being overhauled, under the directions of British and American engineers and experiments will be carefully tried before sailing next time, with a view to meet every known or anticipated difficulty. The English Government has again granted us the use of sips, and the manufacture of new cable to supply the place of that which was lost is going on satisfactorily. It is at present intended to take out 2800 miles of cable, being 300 miles more than was thought sufficient

The ship was loaded with Coolies, who succeeded in getting possession of the lower deck and setting fire three different times be fore they were finally overpowered and subdued by the officers. The Captain of the ship was confined to his bed at the time, and outbreak.

From Washington.

WASHINGTON, Feb. 2.

I have a seen a letter just received by an influential gentleman here, from a "Free State Democrat" in Kansas, saying, among other things, that Jack Henderson had been apprehended, and, at the date of the letter, was in custody, at Lawrence, charged with having falsified the return from Deleware Crossing, by altering the ballots in favor of the Democrats. On being arrested he turned State's evidence, and said that he and Calhoun aftered the returns together at a planter's house at Leavenworth. Officers mmediately set out to arrest Calhoun, but he was already beyond the Territory.
