

THE ST. LOUIS CALAMITY.
The escape of a family from the burning of the Pacific Hotel... (From the Pittsburgh Dispatch).
Below we give part of a private letter from Mrs. W. W. White, part-lawyer of Robert Hill, Esq., of the Ninth ward of this city giving the particulars of the awful scene at the fire in St. Louis, with a full account of the escape of the family from the burning of the Pacific Hotel. We have had intimate acquaintance for some years with a family (Mrs. W.) who seems to be a reliable source of information, and we are glad to be able to give you the particulars of the escape of the family from the burning of the Pacific Hotel. A NOTABLE CHANGE.—Perhaps few newspapers at present... (The Philadelphia Record).
A French engineer named Duterte is said to have invented an apparatus which is destined to effect a complete revolution in the construction of locomotives, and to save fifty per cent in the amount of combustible at present consumed.

WE STILL SURVIVE THE CRISIS.
NOTWITHSTANDING the astonishing loss of City of Goods that I brought into town last Spring, I succeeded in selling them all out—except what I gave away, and had to hurry to the city for a new lot, in order that my customers might not be put to the inconvenience of buying at other stores, where they would be charged killing prices. Suffering by past experience, I have just brought on...
Twice as Many Goods, and have now the largest and CHEAPEST ASSORTMENT ever offered within hearing of this place. I am bound to sell...
CHEAPER THAN EVER.
I need not say cheaper than my neighbors for that; no longer a disputed fact. I am now ready to deal out goods twenty-four hours of twenty-four—Sundays excepted—lower prices than any person dare ask. Just call for any thing you want. I am determined to do it.

HOLDING COURSE.—The first Artesian well in California, says the San Francisco Californian, was begun flowing last of December, 1858, and still continuing the same volume of water.
