FURTHER FROM UTAH Col. Kane, the Peace Negotiator-Governey Cumming in Salt Lake City.

Sr. Louis, May 17 .- The following addi-tional particulars from Utah have been deby the Republican from Mr. Garish rived who left Camp Scott April 12th. While his information does not fully corroborate the news already given, it loaves no room to question the fact that Governor Cumming

had entered Salt Lake City. Col. Thomas L. Kane, who was sent out as Peace Commissioner via. California, arrived at Salt Lake on the 25th of February, and remained there eight days. He then pro ceeded to Camp Scott, and while there frequently passed from the Camp to a place of conference with the leading Mormons outside, In pursuance of the negotiations there entered into, Governor Comming left Camp Scott on the oth of April and was met by a gentleman on the 9th, when two days travel from the city. He was accompanied by Col. Kane, and was escorted by Messrs. Forter, Rock-well, Egan and others, Mormons. The arrival of the Governor at the city was anticipated on the 11th, and handsome apartments had been provided for his reception.

A gentleman who is well informed in relation to the Mormons, and who had just arrived from Salt Lake, told the Republican informant, that the general feeling in the city was in favor of peace, and only a portion of the leaders were advocating resistance. The scouting party in charge of B. F. F. Fickling, about whose safety apprehensions had been felt, had returned to camp.

The Provision trains for Camp Scott left Fort Laramie on the 24th of April, and Col.

Hoffman was to leave the next day. Captain Maury, with his train of horses and mules, and aboat 3000 sheep, was heard from on the Cherokee trail, 200 miles south of Fort Laramie. He had not been joined by the troops detailed by General Garland, but was waiting their arrival. When heard from his progress was very slow, but he would reach Camp Scott, by the 20th of

clancholy tidings of the overflows on the Mississippi river. The inundations of the Nile have always

been a blessing to the dwellers in its vicinity as they fertalize the soil and enable the cultivators to rear crops which, otherwise they could not. The overflows of the Mississippi are, on the contrary, regarded as a devasta ting evil. Many sugar and cotton plantations

are ruined by by them, houses are swept away cattle, hogs, and other live stock are drowned, and crops are destroyed. The most fearful danger of all lies in the probable breeding of malarious disease. Whenever the spring freshets bring such terrible crevasses as at present, the people feel lively apprehensions that upon their subsidence the pestilential marsh left behind in the overflowed districts will induce an aggravation of the usual sum-

mer epidemical diseases. They have had such awful experience of yellow fever in New Orleans, that they are keenly alive to the possibilities of its return or aggravation in any emergency that happens to arise. It is true that opinions differ among the medical authorities of that city as to whether the epidemic is fostered or produced by the influence

of the swampy regions, yet the popular mind regards with suspicious dread the inundations and oven couples them with probable yellow

The following is a condensed statement of the facts from the Reading Gazette.

Square. George F. Goodwin, a barber, in the employ of R. Dollard, in Chestnut street, opposite the State House, who had been living for seme time with a woman named Lizzie Marshall, attempted to murder the latter by shooting her with a pistol. He then turned the weapon upon himself, and discharged a fatal shot through his heart. making the sum total of their subscriptions ollars (\$22,518.) Where is there a town of equal size that would have done more than this? Where is the place, all things considered, to equal even what has here been pledged for the establishment and support of these institutions? We point, therefore, with no ordinary degree of satisfaction, to Selinsgrove as an example of educational appropri-

ation and liberality that is seldom equalled and scarcely ever excelled. A board of managers has been appointed for the college, and preparations are on foot

to open the college soon. Measures have been taken to secure a college charter at an early period, and the enterprise will be advanced as rapidly as practicability will allow. At a meeting of the board of Directors last week it was on motion unanimously resolved that the name and title of this institu-

tion shall be "The Susquehanna Female Col lage of the Econgelical Lutheran Church." It was at the same time resolved to open a correspondence with a distinguished gentleman whose name was proposed by a leading member of the board, with a view of securing him as the principal of the college. It is understood that there is a probability of his accepting the position offered him, and if so, the citizens of the Susquehanna valley as well as the citizens of Selinsgrove, may con-

gratulate themselves upon so important an vent, for this gentleman is second to none in the United States in the profession to which he has devoted his talents. An experience of years in teaching, both in colleges for males and females, having during this period acquired a high reputation for effi-

ciency, gives us every assurance that the Susquehanna Female College, under his direction and control, will soon take a high rank among the kindred institutions of the

country. But, Mr. Editor, lest I should be too of their superiority over all others, lengthy in this communication, I will close for the present.
