

Foreign News.

ARRIVAL OF THE ASIA. THREE DAYS LATER FROM EUROPE.

The Cunard steamship Asia arrived at New York yesterday, with Liverpool dates to the 29th ult.

The steamer Borussia arrived at Bremen on the 20th ult.

The fleet charged with the laying down of the Atlantic cable was expected to sail on the experimental trip the day the Asia sailed.

The House of Commons re-assembled on Friday. Lord John Russell condemned a brilliant speech which he delivered during the recess making to him an imputation on the late Government, and said that the country was within a few hours of war when the present ministry took office.

Mr. Disraeli, defending his position. The Duke of Argyll is spoken of as a possible successor in Cuba.

The Turks are leading large forces at Bagdad. The returns of the British exports since April 28 show a falling off of one-half a million pounds sterling as compared with last year.

The recipient of the Victoria medal of the Geographical Society, is Alexander Dallas Bache, of the United States.

A letter from Plymouth states that the Marquis and Agamemnon are lying within two hundred yards of each other. The cable on each ship is connected, and telegraph messages are sent through the whole length of the Atlantic cable in the most perfect manner.

It is stated that a conference between the Lords and Commons has ended in the former agreeing to the principal of the right of Jews to seats in parliament, and the result will be that Rothschild will take his seat in the House of Commons.

The newspaper accounts assert that Lord Egin had declared himself ready to employ force to penetrate to Yekin.

The journals express hopes that Weinstein would be days taken.

ARRIVAL OF THE STAR OF THE WEST. LATER FROM CALIFORNIA.

The U. S. mail steamship Star of the West, A. G. Gray, Esq., commander, from Apia, arrived at New York on Saturday.

The Frazer river emigration continues. The steamer Commodore, Capt. Staples, sailed on the 11th of May, with 500 passengers, making in all 1,625 who have left this State for the North.

There is every assurance of one of the greatest grain crops this year ever yet harvested in California.

Mr. H. E. Doyle has shown us a fine specimen of coarse placer gold taken from a new belt in the mountains of California, south of the Pismo Villages. He also informs us that at the Canada D'Oro, eight miles from Tucson, old coyote diggings have been recently explored more than 150 feet into the mountains, and more than 40 cents to the pan of dirt was obtained, but that the miners were compelled to desist from the greater number of rattlesnakes with which the holes were filled. Gold fields have also been discovered 50 miles east of Tucson.

Government of Washington is putting up smelting furnaces near San Javier, and reports good prospects.

There was quite an excitement in town on Sunday evening last, on the occasion of the arrival from the Golden Purchase, of six eight-mile teams loaded with silver ore, from the Heintzelman mine. This is the first cargo. They have out at the mine some 70 tons, averaging \$1000 per ton, and about 18 tons, worth from three to four thousand dollars per ton, is now lying at Fort Yuma, waiting shipment.

THE EUROPA AT HALIFAX. THREE DAYS LATER FROM EUROPE.

Return of the Telegraph Fleet—Success of the Experiments.

HALIFAX, June 15. The Royal Mail steamship Europa, Capt. Leitch, from Liverpool, at 10 o'clock of the afternoon of the 5th inst., arrived here at half-past 12 o'clock this afternoon.

GREAT BRITAIN. On the 23d, in the House of Commons, the Atlantic Telegraph Company's bill was read a third time and passed, as was also the Property Qualification bill.

Mr. Keobuck gave notice that he should shortly call attention to the whole subject of the Hudson Bay Company.

Mr. Horsfall asked whether the Government had any intention of the arrest of Capt. Jenkins of the Persia, at New York.

Mr. Wilson also asked whether there were any objections to lay on the table the correspondence between the British Government and that of the United States respecting the slave trade.

Mr. Seymour Fitzgerald replied—That the government had received no official information of the arrest of Capt. Jenkins.

With regard to the other question, the American Government had made good explanation of the British officers, but no official explanation had been received from those officers.

He could only say that, if occurrences such as those complained of had occurred, they would be viewed with the deepest regret by the government, and an ample explanation given. The fullest information should be laid before Parliament as early as possible.

In the meantime, he had only to add, that orders had been sent out to the officers in command of the squadrons in the United States, to make every inquiry into the subject, and that the greatest caution and forbearance should be exercised towards vessels bearing the American flag.

The London Times, in a leader on the objections against the policy of maintaining a squadron which has proven so ineffectual for the end in view. It says, "Whatever the right of the case, and however far Americans may be ready to go at present in compliance for peace's sake, we cannot but look forward to a day when it will more disagreeable, and at the time more necessary for the Americans to submit, and a still greater let down for our own pride to give way."

After passing some censures upon the apathy of the American Government in the suppression of the slave trade, it concludes as follows: "We do not compel her to the virtue she has not; before very long the more attempt must bring on a fearful war. Is there not such thing as giving up a crusade, which began with being optional, and is found to be ineffectual? Is the loss to be surrendered, except after the loss of 30,000 lives on both sides and thirty millions of money? To which no other use, equally benevolent, to which we could put the half million and valuable lives annually sunk in these squadrons?"

In the city article of the Times, some reflections are made on the same subject, and it is asked whether, supposing America up to the slave trade, we might not look for an agreement for one or two American officers to be received as permanent guests on board British vessels, while serving on such duties, and all seasons might not be conducted under the auspices of such American officers.

The Daily News' editorial on the same subject, regards the affair as a disagreeable one; but thinks it premature to jump at conclusions without hearing both sides of the question. It discredits the reports made by some of the American captives.

The same paper draws a contrast between the self-emancipation policy of Russia and the slave policy of America, and incidentally reviews the career of Toussaint and Edward

SELECT SUMMER GOODS. LARGE ASSORTMENT!

WE have received our NEW GOODS for the summer trade, and respectfully invite all the world to the great market to CALL AND SEE THEM.

People who would economize and save their money will do well to call and see how very cheap to purchase from us, they will be more conversant as to the actual value of all kinds of goods.

There are a great many reasons why people should choose to buy from us, and while it is clearly demonstrated that the "obvious meaning and import" of this multitude of reasons refers directly to the BEAUTY OF TEXTURE, and cheapness of price of goods, it will at the same time strike the mind of the observing.

ECONOMIST. That a state of things combining a great and diversified supply, with low prices, must bring about a "consumption demand" to be wished in making the POOR MAN RICH, and the rich man opulent.

And although we may disagree, yet permit us to add that nothing would afford a better ground work for a summer evening's entertainment, than for the kind mother who is presumed to have examined our goods, to give a little flock around her, and tell them of BRIGHT & SON'S beautiful goods, the handsome Silks from France and Italy, the Ribbons and Laces from Lyons, the Merinos from France, the prints from Manchester, the Linens and Lawns from Glasgow, and Dublin, and a thousand things of great beauty and utility. But to be a little more practical, we will state for the good of the country, the rising generation, and the full grown, more in detail, the goods we retail, in very large and smaller sizes, as very greatly reduced in price, and we may regret we said it, we'll sell our goods on six months credit, at the end of which the people "flush" will come and pay us with a rush, for none can feel so unconcerned about a debt so fully earned, as to be guilty of procrastination, to the hazard of their reputation.

Then Gentlemen and Ladies fair, hearken, if you've the time to spare, and hear of New Goods rich and rare, received and being opened.

OF CLOTHES. There's a brown, and black and blue, Yea Cloths of almost every hue.

OF CASSIMERES. We've got just what you need, of mixed and striped first rate. These, if you are a gentleman named as such, we've Cassimeres both strong and thick! for those who by fashion think to win, we have the beautiful French Dressin' an article, we do expect, sir, can't be excelled in point of texture.

OF VESTINGS. Silks and good black and blue, of every variety of patterns, for weddings, parties, or the street, for gentlemen married, or less discreet, whom we will furnish from Hat to Boot, with a cheap and charming wedding suit.

But Ladies! pardon this detraction, and do not deem this all a fiction, for we have, for you, bound to say, we love to turn from grave to gay, from dull old bachelors, dreadful dross, whom fashionable etiquette disowns, who, in a word, suggest lights, in human happiness, neophytes. Gentlemen, we bid you, at this time and place you may attend if you think proper.

JAMES VANDYKE, Sheriff. Sunbury, June 15th, 1858.

NOTICE. All persons indebted to James Beard, late Proprietor of Northumberland County, for fees, &c., are requested to make immediate payment, and save cost and further trouble, as all accounts remaining unpaid will be placed in the hands of a Justice for collection.
