existence of a compound, called whiskey, considerably more certain in its effects. Charley D _____attending a dance one evening, feeling in firstrate spirits, got his keg pretty full of "ardent," and finally retired to the privacy of an arm-chair, where he

DYING FOR HIS COUNTRY BY PROXY .- When Col. C--- was a candidate for Congress in one of the north-western States, he was op-posed to a gentleman who had distinguished himself in the war of 1812. Discovering, in the course of the canvass, that his opponent's military reputation was operating strongly to his prejudice, he concluded to let the people know that he was not unknown to fame, as a soldier, himself; and accordingly, in his next speech, he expatiated on his achievements in the tented field as follows : "My competitor has told you of the services he rendered the country in the last war. Let me tell you that I, too, acted an humble part in that memorable contest. When the tocsin of war summoned the chivalry of the west to rally to the defence of the national honor. ECONOMIST, that a state of things combining a great and diversified supply, with low prices, must bring about a "consummation devautly to be wished" in making the POOR MAN RICH, and the rich man optical.

And although we may digress, yet permit us to add that nothing would afford a better ground work for a summer evening's entertainment, than for the kind mother who is presumed to have examined our stock, to gather her little flock around her, and tell them of BRIGHT & SON's beattiff goods, the handsome Silks from France and Italy, the Ribbous and Laces from Lyons, the Merinos from France, the prints from Manchester, the Licens and Lawns from Glasgow and Dublin, and a thousand things of great beauty and utility. But to be a little more practical, we will state for the good of the country, the rising generation, and the full grown, more in detail, the goods we retail, in very large of smaller slices, at very greatly reduced prices! and though we may regret we said it, we'll sell our goods on six months credit, at the end of which the people "flush," will come and pay us with a rush, for none can feel so unconcerned about a delt so fully carned, as to be guilty of procrastination, to the hazard of their raputation.
