EF PENNSYLVANIA AND NEW YORK CITY, -The State of Pennsylvania appropriation bills average about five millions of dollars. Of this sum about two millions is required to pay the interest on the State debt, leaving three millions as the annual sum necessary ever, that the action of Sartiges was not in to keep the machinery of government in motion. In the report of the Controller of New York we find that nearly \$15,000,000 has been received and expended in governing that city for one year-five times as much as the whole State of Pennsylvania costs; and sulted in the election of three Lecomptonites this sum does not include the taxes paid by citizens of New York for State purposes. Some of the items of expenditure will show what it costs to govern a great city. The item of lamps and gas costs 496,000; police, nearly one million of dollars; salaries of various officials, nearly half a million; common schools, over a million; paper and printing, half a million; almshouse, more than six which we can show you by the official draw hundred thousand; cleaning and paving streets, half a million; redemption of bonds, five millions. #### OUR DEFEAT AND ITS CAUSES.

The result of the recent election in this State has taken many by surprise, yet to re. flecting men and sound statesmen there was nothing perhaps very extraordinary. When labor is abundant and well paid prosperity is always sure to follow, while the reverse is al ways sure to produce the opposite effect. It has been evident for years past that our manufactures were struggling to maintain themselves under difficulties that must in the end result in rain and disaster, if the general government, to which they had a right to look for encouragement, did not protect them.

From the democratic party, they certainly had some reason to expect it, inasmuch as the great body of that party, was made up from the laboring population. But our politicians when they get to Washington, soon forget the necessities of the people and in that whirlpool of extravagance and dissipation "give up to party what was meant for mankind." There are some, however, who have battled for the great interests of Pennsylva. nia, from first to last, without regard to party movement. Among these we may properly mention the name of Gen. Cameron, who has always contended for the interests of the manufacturers and laborers of his native State. Perhaps it may not be out of place to refer to his speech in the United States gress elected, by which it will be seen that Senate last session, on the presentation of the opposition have elected 18, the Antilaborers of Pennsylvania. That speech was Democrats 2. truly prophetic and has been verified, almost to the letter. We have only room for the

following extracts: "The laboring men of this country are powerful for good always. They do control when they think proper, and I think the time is coming when they will control the politics of this country. I tell them that before they can get proper protection, they must change pant of the White House, who is the dispenser of the power which controls the legislation of this country. In place of gentlemen who sneer when we talk about protection, they been perfectly delightful. The sky has the must send men here who know something of the wants, something of the interests, something of the usefulness of the laboring men. Hitherto they have not acted as if they cares for their own interests; while they talked about a tariff which would guard their labor from competition with the pauper labor of Europe, they would go to the elections under some ward leader and vote for men to represent them here and elsewhere who cared only for party drill, and who had no interest above party success. This system they must change if they hope for success. I think the lab ing men of Pennsylvania, at least, are now beginning to put their own shoulder to the wheel, and I believe they will make such a noise in next October as will slarm the gentlemen all over the country who laugh at

The opposition are now organized and sustained by men like Gen. Cameron who have been schooled in the ranks of the democratic party, and these men, it may as well be saidwere among the ablest of our party, because they united to ability and capacity, independence and an honest desire to promote the interests of the State and country. That they should turn to account the blunders as weil as the follies (to use a mild expression,) of the general administration was both natural and proper.

There is, then, nothing very astonishing in the result of the late election. It is simply THE OFFICIAL VOTE FOR CONGRESS IN an expression of the people against the acts rms District .- It will be seen that Mr. of their own representatives and officers of Campbell's vete is nearly equal to that of the General Government, whose subservency his two opponents. Cameron, will build up an organization that cannot fail to prove a powerful competitor of the democratic party for public favor. #### REMONATION OF JUDGE PORTER.

PHILADELPHIA Oct. 16, 1858. His Excellency William F. Packer, Governor of Pennsylvania - Dear Sir :- On the first ved from your hand a commission as a Judge of the Supreme Court of Pennsylvania. The event then considered possible, perhaps I should say probable, has just been realized. I have little to say of the means which produced it. On receiving the appointment, I thought that being a Judge, actually sitting on the bench and deciding on the rights of men of all shades of political opinion, I ought not to write a political letter, nor to make a political speech. In the first place, I was not willing to hide my claims to the effice, however small, in the shadow of a mere polit-ical question. In the next place, I was and I am thoroughly convinced, by reading and reflection, that whenever a Judge can be elected by reason of his sentiments on any gold and silver coin manufactured in this vi question of politics, that moment the real cinity. The close resemblance it bears to the power of the judicial office will disappear.— genuine currency is almost startling, and to Possibly this may be a very erropeous doc- detect the false coin from the true requires a trine, very inopportunely expressed, but I precise eye and great care. abated. The reverse which has occurred to the party is of less consequence than we are apt to suppose. The Democratic party is coeval with the Government itself, and it will exist Fla., on the lat instant, and announced their so long as the Republic endures. Within its intention to settle, live in peace and be govthere only to do with more success the work disorganization. The party itself though depressed, is not destroyed. The point of its lowest depression in that from which it will, of necessity, begin to rise. At this mo-ment, I solemnly believe it to be the best and strongest political organization which has ever existed for preserving the inferests of

the whole country.

Now to the point. I am not weak enough to suppose that the enclosed commission has seventy-three pounds; and yet she is in a had much to do in causing the present political excitement. Nevertheless it is plain that the people of Pennsylvania prefer snother person as a Judge of their Supreme Court .-In these circumstances, it seems to me a simple dictate of delicacy and propriety to retire from the office. In addition to this, I ought to state that there are several important causes pending, in which I wish to take part as counsel, and these require immediate attention 1, therefore, enclose my resignation .-The office was tendered by you very kindly without solicitation on my part. I resign it gratefully, and without, as I hope, having brought upon it a stain of dishonor. Less was accomplished than I could have wished, not meet the approval of my own sense of du-To yourself personally, and to those friends who are sending me their sympathy, I beg to say, in a word, that there is no cause for regret. I return to a profession which I was conscious of abandoning too soon, and to a position at the bar as honorable as that which is now relinquished, and so much more remunerative that comparison is out of the question. Certainly I ought to regard it no hardship to exchange for the comfort of home that wandering life which the law of Pennsylvania compels her Judges to lead. If I have any regret it is in parting with those pure and apright men who will remain to discharge

their arduous and unrequited work. Wishing you a prosperous administration of public affairs, I am Very respectfully and truly, yours, Wm. A. Ponten.

Thus "Occasional," the Washington correspondent of Formey's Press, referring to the approaching session of Congress and the

picture of Greeley : "Our crotchety neighbor has a genius for the whimsical, and all the world knows it. It was a born original. It has spent its lifeime in distilling moon beams from encumbers, shearing pigs for their wool, milking he-goats in sloves, teaching cows to dance, ploughing with foxes on a sandy shore, flayng sels at the wrong end, setting carts before norses, pitching nets to catch the wind, cutting blocks with a razor, making chalk choese, weshing black-a-moors white, and guarding the moon from walves. There is not a draft scheme it has not, in its dey, tried its hand at; hardly a boutade or a whim-wham that has not, sometime or other, floated out of the watery ventricles of its brain. ALARM IN A RAILROAD CAR.-We learn that the passengers in one of the cars of the Northern Central railroad, last week, were thrown into great alarm for their safety, and indeed were nearly sufficeated, by a strange occurrence that took place. One of the inmates, it appears, had a bottle of phosphorus, or some other combustible matter used for making friction matches in his pocket, this was broken and not only set his coat on fire, but in the struggle of the man to get the garment off, set the cer on fire too. For a time the utmost confusion and consternation prevailed. SCHUYLKILL COUNTY .- Curious Discovery A correspondent of the Pottsville Record writes that as a Mr. James was sinking a slope at Steenersville, Schuylkill county through a bed of sand, and when at the depth of eighteen feet from the surface, be dug up some things resembling large systems in shape. The shell seemed to be a mere covering of clay, and the only apparent nourishment of the crabs was the small quantity of water in the shell with them.

A Coase Remover .- Womanhood everywhere is experiencing the evil effects of the curse inflected on her rex by Eve's disobed-ence in the garden of Eden. Ever since our ancient mother's first effort to hide her shame for violating the expressed will of her Creator. by sewing together and wearing fig les es, her daughters have been doomed to "statch away their lives," in obedience to the exorbi tent demands of fashion, in the modern adorn ments of her sex. The only relief they can ever expect from the drudgery of hand sowing must be found in the introduction of a Gro

Hollowov's Cintment and Pills - All erup tions, sores and tumors are fed by irritating stomachie in existence. They act specifically regulating and invigorating every function.

Tunsan Chows .- The son of a highly respectable gentleman in Kentucky has taken to the ring as a clown. The plebald adornments of the borse harlequin have more at-traction for him than the guise of respectability. The applance of the witless growd is of more value than the good opinion of friends. The odor of stale tan, and the flicker of tallow dips, are pleasanters in his nestrils than the atmosphere of the drawing-room. Bar-room mirth, and coarse, dirty fun, are honceforth his enjoyments, and he will no more have a taste for such true joys as spring from wear ing such garments as are made at the Brown Stone Clothing Hall of Rockhill & Wilson. Nos. 603 and 605 Chesnut Street, above 6th. There is no accounting for tastes.
