

Foreign News.

ARRIVAL OF THE ADRIATIC. THREE DAYS LATER FROM EUROPE. Important from Sicily—The Aid of the Northern Powers Demanded by Naples—The Great Eastern to leave England June 9th, for New York.

The London Herald May 9th, has a despatch from Rome, stating that, notwithstanding the statements of the Neapolitan journals that the French troops have entirely evacuated the Papal States before the end of June, it is certain that the Duke de Gramont, in accordance with the instructions received from Paris, has declared to the Holy See that the French Garrison will not leave the Papal territory until the sovereign Pontiff himself shall have acknowledged that the departure of the French troops could take place without any danger to the tranquility and safety of his States.

One thousand Irishmen had left Trieste for Ancona, in order to be enrolled in the Pontifical army.

IMPORTANT FROM SICILY. Garibaldi's Expedition to Sicily—Mazzini's Appeal to the Sicilians. The Paris Patrie of Tuesday evening, the 8th inst., says: Gen Garibaldi's departure for Sicily has been fully confirmed. He left during the night from the 5th to the 6th inst. The Piedmontese Government had ordered all arms and ammunition which had been deposited in Palermo, to be seized, and had also given orders for the port of Genoa to be watched.

ENGLAND. The Great Eastern is advertised to sail from Southampton, for New York, on the 9th of June. FRANCE. PARIS May 5.—The Patrie believes itself correct in stating that no decision has yet been taken relative to the evacuation of Rome.

AUSTRIA. The Demand for Assistance from Naples. VIENNA, May 7, 1860.—The King of Naples is alarmed, and, being very anxious for the future, he has applied to the Northern courts for their counsel, and, probably, for their moral support. The Austrian government is likely to advise his Majesty to begin his reforms by breaking the arbitrary power of the police and by expelling the lawless band, but such a course would hardly be of avail as the feeble monarch is completely in the hands of the designing persons who are around him. The Queen Teresa, who is in unintermitted correspondence with her relatives at this Court, is believed to be the principal supporter of the despotic system. That she is the protector of the Jesuit party, in the Kingdom of Naples is a fact that admits of no denial.

THE LATEST. By Telegraph from London to Southampton, FRANCE. The London Herald's Paris correspondent says:—"With whom are we going to war next?" is the general question to which the Parisian circles are endeavoring to give an answer. It is generally expected that the army will consist of cavalry, infantry and artillery complete, amounting to 40,000 men, under Marshal McMahon, and will in reality be in the center of an army of observation for forming along the Rhine frontier, the right wing being stationed from Bielefeld to Strasbourg, and the left wing from Metz to Lunéville, the whole force amounting to 90,000 men, to be under the command in chief of the Emperor. The writer says, the last year's events prove the source of this information to be reliable.

SANDERS TO BUCHANAN. The following is an exact copy of the famous despatch of George Sanders to the President, which created such an excitement in the White House:—"CHARLESTON, 27th April, 1860. Sdellid and Bright are here trying to break up the government. The occasion may arrive to-day for you to act. Northern delegates, with exception of a few from Pennsylvania, New-Jersey, Massachusetts, Oregon, and California, in concert with half the delegates from Alabama, two from Florida, five from Tennessee, half Kentucky, half North Carolina, half Maryland, half Missouri, a few from Georgia and Arkansas, agreed to the following addition to the Cincinnati Platform, which will be offered this morning as an amendment to the Slave code proposed by the majority. (Here was inserted the minority platform.) The amendment will receive one hundred and seventy-five to ninety votes. Alabama, Mississippi, and Louisiana will probably withdraw from the Convention. Tonight will receive decision on first ballot, and on second or third will approximate to two-thirds. It is believed that the Collectors of Boston, Philadelphia, and New-Orleans will make factious opposition, but the Douglas majority will not be intimidated by saying that the minority can do. And I hope that there will be patriotism enough left in the country to be brought to bear on the factious minority to prevent any departure from that excellent two-thirds rule by the majority. I rely on your patriotic and your generous support. Do not let the Cincinnati platform alone you could have been nominated, should be followed by every competitor. Send for Douglas as soon as the telegraph announces to you that he has a decided majority of the Convention and offer him your support, and all that you can do. You cannot afford to be the last President of the United States.

"A friend that has never deceived you, however often he may have gone in opposition to your views and wishes." SANDERS. "To President Buchanan, Washington."

A FISH STORY.—In the State Board of Agriculture's Rooms, in the State House, in a glass box or vessel, a certain fish was kept, and specimens of it were shown to a fisherman, about six inches in length. The secretary recently caught a common horse-leech and placed it in the water with the fish. A contest immediately began between the sunfish and the leech, involving life or death to the worm, which was watched with much interest and curiosity. The sunfish attempted to swallow the leech head foremost, but the latter fastened himself to the under jaws of the fish and obstinately refused to be swallowed. The next thing was for the fish to leave the leech out of its mouth, and to this end various ingenious manoeuvres were resorted to without effect. At last the fish, raising his mouth above the surface of the water, blew the bloodsucker from his position. Again the fish attempted to swallow the leech, this time tail first, but the worm fastened to the inside of his esophagus, and had to be dislodged by a repetition of the blowing dodge. The struggle lasted for more than a week, and at last the fish succeeded in getting the leech down, where he manifested his satisfaction by a series of irregular convulsions, and by the evaporation of a certain quantity of champagne, and if the cork comes out once and a while, with a bang which does not depreciate the value of his goods.
