Messus, Evans & Watrow, —Geatherns:—The small size No. I Sulamender Safe which I purchased from your agent, Mr. Adam R. Barr, in Laucaster Cy, on July 20th, 1838, has been subjected to a very severe test, which it writistood in a most satisfactory manner. This Safe, contaming all my books, together with valuable papers belonging to myself and same to my neighbors and friends, and representing a value of over Twenty Thomsand Dollars, (\$20,000) was in my Mill, which was destroyed on the night fo the 27th of July, 1800, and passed through the fiery orderld uniscathed. The Safe was on the second theor, and fell to the basement of the Mill, and was subjected for six hours to an intense heat among the ratios, which was greatly increased by the combustion of a large quantity of grain confined within the brick walls. After the fire the Safe was contained within the brick walls, After the fire the Safe was consequent and the books and papers laken out in a state of perfect preservation, the paper not even being discolored. This fact was, invover, its many bystanders, a better recommendation of your Safes than could be expressed in ony other words from me.
