IMPORTANT FROM WASHINGTON. WASHINGTON, June 2, 1961. The steamers Freeborn and Anacostia, with steamings Resolute and Reliance, arrived here to-day.

The President Visits Them, The President drove down to the Navy Yard at six o'clock this evening, and went on board the Prechorn, and Captain Ward showed him over the boat, pointing out where the shot struck.

The Injury to the Freeborn. One shell went through the railing, in the fore part of the boat, and struck a man on the leg, but without injuring him. It did not explode, and was sent to the Navy De-partment. One ball struck the paddle-box of the steamer, and went through, carrying

The Anacostia and Tugs Uninjured. The Anacostia and the steamings were not injured in the engagement.

No one Hurt. The Pawner has several shots in her bull, and is still off the mouth of Acquia Creek. None of the men on board of the vessels were wounded. The loss of the Rebels is supposed to be very great.

Particulars of the Engagement on Suturday. The Pawnee reached Nanganoy on Saturday morning, and the flotilla was placed under the command of Captain Ward. Yankee arrived soon after, and at thirty minutes past cleven o'clock, stood close in shore, until the light draught vessels had

arrived within two thousand yards.

The fire was then opened from the Freeborn and the Pawnee followed with shell, with marked effect upon the batteries. The rebels answered by firing rifled cannon, which had been removed on the night before from the battery on the Bluff to the wharf, no rifled cannon having been used from the lower batteries during the engagement on Friday. The Pawnee used shot and shell alternately. One shell exploded in the Passenger Depot and set it on fire. The flotilla then kept up an incessant fire. Hundred of persons were observed leaving

the town, and standing on the bill sides look ing at the engagement. A great consterna-tion during the entire engagement prevailed all the time among the Rebeis at the Batter. ies, caused by the explosion of the shells. So rapid was the fire from the flotilla, that when the Depot was burning no one tried to

extinguish the flames. The Anacostia took a prominent position, manned by members of the New York Seventy first Regiment, under command of Lieutenant Pendergrast, and a number of shots from her guns told with great execution. After the firing had been kept up for about an bour, the Freeborn steamed within three quarters of a mile of the shore, and, backed by the Paumee, opened a terrific fire upon the Rebels, who retured rapidly from their batteries but seemed to fire at random.

The flotilla was rapidly gaining ground, ond the fire of the Rebels in a few minutes slackened until one of our guns returned fire, and then at very long intervals. Several of the shells from the Freeborn

were fired with great precision, and fell into the buildings and battery. Men were distinctly seen carrying out bodies and laying them upon the ground under the trees. The Freeborn fired over one hundred half shells; the Anacostia about forty, and the Pawnee over three hundred. The Yankee fired four and then left for Fortress Monroe,

with despatches to General Butler. The Freeborn's bow gun is a ten inch columbiad, and was fired during the engagement by Captain Ward. All the officers and crew acted with great bravery and coolness. At six o'clock Saturday evening, when the four vessels arrived at Washington left the creek, the Paunes was still there. The others came to this city to get more ammunition and receive instructions

The Monticello. The Monticelle, which had six or sever holes clear through her, the resu to of a previous engagement, has been repaired, and wil be sapplied with rifled cannon.

It is believed that a land movement could now annihilate the Rebels at the creek, as their batteries are all on the water's edge. Eleventh Pennsylvania Regiment.

FIGHT AT FAIRFAX COURT HOUSE. Five Rebels Captured-Two United States

Dragoons Missing and Two Wounded. Washington, June 1 .- An engagement certainly occurred in the vicinity of Fairfax Court House, in which four of the United States troops were killed, and twenty seven of the rebels killed and wounded, according | theless. to the official report. OFFICIAL REPORT OF FIGHT AT FAIRFAX COURT

House. The following is the official report of General McDowell to Gen. Scott, of the fight at Fairfax Court House. Lieutenant Tompkins, who commanded the company, was severely wounded, so much so that he was unable to make his report :-

manded by Lieutenant Tompkins, the commanding officer being too unwell to report in person.
It appears that a company of the Second

Cavalry, commanded by Lieutenant Tompkins, aggregate number seventy five, left their camp at half-past ten b'clock last night, on a scouting expedition. They reached Fairfax Court House at three in the morning, where they found several hundred men stationed, Captain Ewell, late of the United States Dragoous, said to be in command.— A skirmish then took place, in which a number of the enemy were killed-how many the Sergeant does not know. Many bodies were seen on the ground, and several were carried is to the Court House, and seen there by one of our Cavalry, who was a prisoner in the Court House for a short time, but afterwards

made his escape.

The following is the report by the Sergeaut of our loss :-Killed.

THE CAVALRY AND THEIR TROPHIES. The cavalry company that made the at-

tack censisted of dragoons lately returned from Texas. They have seen years of hard Indian fighting on the frontier, and are headed by Lieutenants Tompkins and Gordon .-The Federal loss was caused by the firing from the windows of a tavern and the Court House. The troopers rode up to the windows, and discharged their Sharp's rifles and revolvers at their assailants. The Federal cavalry being bailed, just before entering the village, Lieut. Tompkins rode up to the rebels and replied, "Cavalry," to the challenge. The sentinel then asking "What Cavalry?" the Lieutenant sang out, "United States

Cavalry," simultaneously bringing the rebel tothe ground by a shot from his revolver. The trophies won by the troopers were seven prisoners, two rifles and five ravolvers. Two of the prisoners, made previous to the charge on the rebels, attempted to escape, but were fired at and killed. One of the rifles had a filint lock, showing that the rebels are

ANOTHER DARING FEAT. WASHINGTON, May 2 .- A gentleman, direct from the neighborhold of Fairfax Court House, states that during last night word was received at the camp by the New York Twenty-eighth Regiment that the two dragoons missing from Company B, which made the rally on Fairfax Court House, on Saturday morning, were captured by the rebels, and were to be hung this morning. Company B was immediately eummoned from their quarters, and, mounting, rode up to the Court House, and having by some means ascertained the precise locality of their imprisoned comrades, made a dash through the village and released the two men, whom they bro't

back in triumph to the camp at daybreak. The five rebel prisoners brought away from the Court House, ere in this city. One of them, a son of the late Maj Washington, of the Army, said that he did not want to fight against the United States, and made amends by taking the oath of allegiance. SUGGESTIVE TO COMPANIES ABOUT UNI-FORMING .- It would appear from numerous observations made by military writers, that soldiers are bit during battle according to the color of their dress, in the following order: Red, the most fatal color; the least fatal, Austrian Gray. The proportions are: Red, 12; rifle green, 7; brown, 6; Austrian blush grey, 5.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Biotches, Boils, Blains, and all Skin Diseases. Blains, and all Skin Discusses.

Ordinand, Ridd, 6th June, 1850.

J. C. Afrik & Co. Gents: I feel it my duty to asknowledge what your Earsaparilla has done for me. Having sherited a Servintons infection, I have suffered from it is various ways for years. Scintimes it burst out in Ulsers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was panifed and louthsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoined to read in the Gospel Messenger that you had prepared an atterative (Sarsaparilla), for I know from your reputation that any thing you made must be good. I sant to Cincionali and got it, and used a fittle turned me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now clear, and I knew by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I toll you, that I hold you to be one of the apsettles of the age, and remain ever gratefully.

Dr. J. C. Aver: Sir, I cheerfully comply with the request of your agent, and report to you seem of the effects I have realized with your Sarsaparilla.

I have oured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venerori and Mercurial Disease. One of my patients had Syphilite uters in his throat, which were consuming his palate and the top of his month. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by seendary symptoms in his ness, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers heated, and he is well again, not of course without come disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become as sensitive to the weather that on a dump day she suffered excured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

PATENT SPRING HORSES 478 BROADWAY, NEW WORK. Should be in every family, School, Gymnasi-um, Asylum, and Hospital in the land. Ara not DANGEROUS, like the common Rocking Horse. Stands firm on its Pedestal, will not wear CARPETS, and has no Rockers to injure

FROM THE "HOME JOURNAL." "Of all the child-furniture we have ever seen o article combines so much of those two important things—health and happiness—as the Ad-justable Patent Steel Spring Saddle-Horse, in-vented by Jesse A. Crandall, It is not dangerous, like a comman rocking-horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live herse that the child never wearies of it. This satest of child novelties is exceedingly elegant and artistic in design; and so adjustable, substantial, and durable, that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made large and strong mough to sustain grown persons. As a pedestal

"Every Orphan Asylum and Institution where children are congregated, should be furnished with a number of these beautiful articles. They are fitted with side-saddles when required." DIRECTIONS FOR ADJUSTING -Oven the after part of the base sufficiently to allow the
