PROM ALEXANDRIA

ALEXANDRIA, June 30. This morning, at day break, fourteen Rebel acouts attacked three pickets of the Fourth Pennsylvania Regiment, belonging to Com-Captain Amer, stationed on Shooter's Hill. The pickets were four miles from Alexandria. The fire of the Rebnis wounded Leweityn Ramor, of Blas Rell, and killed Thomas Murray, of Norristown.

The pickets returned the fire, killing two

Rebels, and wounding a third. One of the billed was a Sergeant of the Letcher Guard. The aremy best a hasty retreat. The firing having been beard by the Federal troops, a detachment of Zonaves and spother of the Pourth Pennsylvania Regiment reinforced the pickets, and followed the trail of the enemy for some distance, finding four rifles and three revolvers, which the Rebels had thrown away in their hasty flight. One of the revolvers was a very valuable weapon, and marked with the name of John Johnson. a farmer living in that vicinity, who is a noted Secessionist. The Perusylvanians behaved with great spirit, and with the coolness of veterans, boldly holding their position, though wounded, in the hope of reinforcements ar riving. The body of Murray has been brought to Washington, and will be forwarded to

Norristown.

The Federal troops express themselves eadly disappointed at not taking or killing to the control of the control o Johnson, he he has been very troublesome to the Uniquists, by reason of his thorough knowledge of the localities thereabouts.

LETTER FROM THE EDITOR, DATED

WASHINGTON House, Philadelphia, July 2, 1861. The war of the great rebellion is the all absorbing subject here, and everything else made subservient to this. Although all classes, even in the rural districts, suffer more or less from its where most of the population is engaged in commerce and manufactures, that the greatest loss and suffering is evident. There are hundreds who, baying been thrown out of employment, have no means to secure the necessaries of life, and many of them are already suffering from the pangs of hunger and statuation. They ask for employment, and have, through public meetings, petitioned the City Councils to in augurate some public improvement, to afford them the means of subsistence. Yet these people are among the most loyal of our citizens, and do not complain or question the policy of the war, or

Though the ten Regiments raised here are now in service, the city still wears a decided military aspect. Officers and privates are constantly seen on Chesnut street. (Signed) "CHARLES WORTHINGTON." BALTIMORR, July 1 .- The seizure of the steamer St. Nicholas, from this port, proves to have been a bold piratical expedition. When the steamer left bere, on Friday evening, she had on board about fifty Seces-Mon passengers, most of whom were disguised as mechanics, going to points on the Maryland shore of the Potomae. Among the number was Captain Hollins, late of the United States ship Susquehanna, who was disguised, some accounts say, as a woman and that he retired to his berth immediately on going on

board the steamer. After the boat had left Point Lookout, Captain Hollins threw off his disguise, and with the aid of the passengers seized the boat which was immediately put across to Coney river, on the Virginia side. Here the rest of the passengers, not parties to the plot, were landed, including the Captain of he boat who was placed under a guard. The steamer then went on a piratical Irishman, named Mooney, who left from this towards the Rappalauncek river, capturing place for the army, was shot a few days ago, three vessels on the way, laden with ice, coal and coffee, with all of which Captain Hollies made his way to Fredericksburg. AFFAIRS.

The London Times, in an article speculating upon the probable course of events in America, says :- "With whichever side victory may rest the battle is likely to be a hard one, and though the main effort of the Washington Government may be postponed till the close of the year, it is probable that much blood will be shed within the limits of the old State which is now to be the battle field of democratic civil war," In the same article

there appears the following : "The energy the Free States have displayed, the great number of men they have raised, and the good material of which their army is composed, are beyond all praise. It is easy to see that a great deal of their irritability towards England arises from a feeling that justice has not been done to their patriotic spirit by public opinion here. Looking, as every American does, to the opinion of England, they have been mortified in finding that an effort which they feel to be worthy of admiration, has been received by us with coolness, forgetful as they are, that we are bound to refrain from enthusiasm for their military ardor, when the object of it is to crush those with whom we are as much in relation as with themselves,"

Mr. Rusell, the correspondent of the London Times, writing from New Orleans on the 24th of May, says it is impossible to resist the conviction that the Southern Confederacy can only be conquered by means as irresistible as those by which Poland was subjugated. There is a determination evinced to resist the North as long as they can command a man or a dellar.

A large proportion of this costly suffering might be averted by attention to diet, cleanli-ness, and above all, by the proper use of the right remedy in the right season. When a 25 cent box of Ayer's Pills will avert an attack of illness which it would take several days to recover from, or a dollar bottle of Ager's Sarsaparille, will expel a lurking disorder that would bring the sufferer to his back for weeks or months, does it take any figures to show the good economy of the investment?-When Fever and Ague is rankling in your veins, and sheking your life out of you, is it worth the dollar it costs for his AGUE CORN to have the villainous disorder expelled, which it does surely and quickly? When you have taken a cold is it prodent to wait till it has settled on the longs, when days or weeks or months must be spent in trying to care it, even if it can be cured at all, or is it cheaper to take Ayer's Cherry Pectoral, costing a few shillings, and remove the trouble before it becomes serious? It takes no wisdom to de-

GUITA PERCHA CEMENT ROOFING .- We invite the attention of our readers to the advertisement of Messrs. JOANS & CROS-LEY, New York, in another column.

The numerous experiments made for the last few years, to produce a substitute for tin. slate and shingle roofs, have at last led to a erfect triumph in the GUTTA PERCHA Cement

Roofing offered by these gentlemen.
Possessing in a great degree, the features of elasticity, (which is a qualification of a Cement Roofing actually necessary and long after.) durability and cheapness, combined with the fact that it is weather and fire proof, its general adoption cannot be too earnestly urged. Their Gutta Percha Cement for coating and repairing Metal Roofs of all kinds and for preserving all metals from rust and corrosion-from its great durability and cheapness, is fast superceding points of every description heretofors used for such purposes

These materials (for which the First Preniums have been awarded by the American Institute and many of the principal State Fairs throughout the country,) are recemued in the highest terms by the New York & Erie R. R. Co., and many of the principal Railroads North and South, and also by the officers of the leading Insurance Companies throughout the country.

THE MILITARY CLOTHING DEPOT -- Rock hill & Wilson's Brown Stone Clothing Hall, appears to be the leading bouse for the manufacture of military clothing. In the upper stories they employ some twenty cutters, and about seven hundred hands are constantly engaged in making up the work. Over three thousand coats were made up by this firm in ten days, for the State, besides full suits for several companies of Home Guards, and for officers of the army and navy. The location of this well-known establishment is Nos. 603 and 605 Chestnut street, above Sixth, Phila-
