Sarsaparilla FOR PURIFYING THE BLOOD.

Pimples, Pusteles, Blotches, Bolls, Blains, and all Skin Diseases.

Oagrand, Ind., 6th June, 1859.

J. C. Aver & Co. Gents: I feel it my driy to acknowledge what your sursuparilla has done for me. Having inherited a Serolious infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulerts on my bunds and sems; sometimes it turned inward and distressed neat the stomach. Two years ago it broke out on my head and severed my scalp and ears with one sero, which was pointin and bathsome beyond description. I trad many modelness and several physicians, but without much rollef from any thing. In last, the disorded grew weres. At length it was rejoiced to read in the Gospel Messenger that you had prepared an alternative (Sarsaparilla), for I knew from your rejutation that any thing you made must be good. I sent to Cincinnatian dget it, and used it till it cared me. I took it, as you advise, in small doses of a tempeonal over a menth, and used almost three battless. New and leastley skin scon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the discusse has jone from my system. You can well believe that I feel what I am saving when I tell you, that I hold you to be one of the aposites of the age, and remain ever gratefully.

no symptom of the disease tenuins."

Sphills and Bercurial Disease.

New Ontaxa, 25th August, 1852.

De. J. C. Avent Sir. I sheerfully comply with the request of your agent, and report to you some of the effects. I have cured with it, in my prestice, most of the complaints for which it is recommended, and have found its effects truly wondorful in the cure of Veneral and Morning the particular disease. One of my patients had Syphillite ulcers in his threat, which were consuming his palate and the ope of his month. Your Earspaulilla, steadily taken, cuted him in five weets. Another was attacked by secondary symptoms in his near, and the alternative headers away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the disarder would soon reach his brain and bill him. But it yielded to my administration of your Sarsaparilla; the ulcars healed, and he is well again, not of equies without some disalgeration to his face. A woman who had been treated for the same disarder by mercury was suffering from this poisen in her bones. They had become so sensitive to the weather that on a damp day she suffered excremining pain in her joints and hones. She, too, was cared entirely by your resongarilla in a new weeks. It know from its ferminis, which your again gave me, that this Preparation from your laboratory thust be a great remedy; consequently, these truly remarkable results with it have not supprised me.

Fraternally yours.

Mzssns. Evass & Warnay. Gentlemen: —The simplifies No. 1 Salamander Safe which I purchased from your agent, Mr. Adam B. Barr, in Lancester City, on July 20th, 1855, has been subjected to a very severe test, which it withstood in a most satisfactory mainter. This Sufe, extraining all my books, together with valuable papers belonging to myself and some to my neighbors and friends, and representing a value of over Twenty Thomand Dollars, (\$20,000) was in my Mill, which was destroyed on the night fo the 27th of July, 1860, and passed through the fiely ordeal macathed. The Safe was on the second fior, and fell to the basement of the Mill, and was subjected for six burrs to an intense heatamong the ruins, which was greatly increased by the combustion of a large quantity of grain confined within the brick walls. After the fire the Safe was opened and the books and papers taken out in a state of perfect preservation, the paper not even being discussived. This fact was however, to many lystanders, a better recommendation of your Safes than could be expressed in any olier waveds from me.

Yours, respectfully, SAMUEL RANCK.
