Earsoparilla as the last resort before cutting, and it proved effectual. After taking your remody eight weeks no symptom of the disease remains." Syphilis and Biercurial Disease.

New Onteans, 2ath August, 1852.

Dr. J. C. Aver: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Saraparilla.

I have cured with it, in any practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of theorem indeed and the facility of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of theorem indeed in the straint process. One of my patients had Syphilitic inters in his throat, which were coronaxing his painte and the top of his month. Your Saraparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the elevation laid atten away a considerable part of it, so that I believe the assorder would soon reach his lorain and kill him. But it yielded to my administration of your Saraparilia; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by necronry was suffering from this poison in her bower. They had become so sensitive to the weather that on a damp day she suffered exceeding pain in her joints and bones. She, it o, was cared entirely by your Saraparilla in a low weeks. I know from its formula, which your agent gave me, that this Preparation from your inhoratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours. G. V. LARIMER, M. D. Rheumatism, Gont, Liver Complaint. . Syphilis and Mercurial Disease.

Rheumatism, Gont, Liver Complaint. INDEPENDENCE, Proston Co., Va., 6th July, 1859.
Dr. J. C. Arrait Sir, I have been afflicted with a painful chronic Rheumatian for a long time, which builted the skill of physicians, and stack to me in spite of all the remedies I could find, until I tried your Sanaparilla. One lattle cared me in two weeks, and restored my general health so much that I am far better than below I was attacked. I think it a wonderful needlines. J. FREAM.

Like V. Gotchell of St. Leaven, which is the lattle care. Attacked. I think it a wonderful modi-ine. J. EREAM.

Jules Y. Getchell, of St. Louis, writers: "I have been afflicted for years with an affection of the Lacer, which destroyed my health. I tried every thing, and every thing stilled to relieve me; and I have been a broken-down man for some years from no other rause than decongenent of the Licer. My beloved pastor, the Rev. Mr. Espy, advisad me to try your Sansparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cored me, and has so portified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Carics and Exfoliation of the Bones. A great variety of cases have been reported to us where corrs of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Abanuae, which the agents below named are pleased to formish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into eigerous action, and thus exerciones disorders which would be supposed beyond its peach. Such a remody has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Of the Discuse.

This is a trineity so universally known to surpass any other for the cure of threat and lung complaints, that it is useless how to publish the cylidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary discuss, have made it known throughout the civilized nations of the earth. It was not some personal experience of its effects—some living trophy in their midst of its victory over the salede and dangerour disorders of the threat and lungs. As all know the dreadful fatality of these disorders, and as they know, two, the effects of this remedy, we need not do more than to assume them that it has now all the virtues that it did have when mading the cures which have won as strongly upon the confidence of mankind. "Of all the child forniture we have ever seen no article combines so much of those two important things-health and happiness-as the Adjustable Patent Steel Spring Saddle Horse, in-vented by lesse A. Crandall, It is not dangeris, like a common rocking-barse, to children's feet cannot be upset, does not wear carpets, but stands from our its base, and its action is so like the gallop of a live horse that the child never wearies of it. This atest of child novelties is exceedingly elegant and artistic in design; and so adjustable, substantial, and durable, that it will last a bietime It is indispensable in every tainly where there are children. It should be in every primary school and gymnusium in the country, as it can be made large and strong ough to sustain grown persons. As a pedestal for photographic pictures, nothing is more beauti-
