FROM THE "HOME JOURNAL." "Of all the child-furniture we have ever seen no article combines so much of those two impor tant things—health and happiness—as the Ad-justable Patent Steel Spring Saddle-Horse, in-vented by Iesse A. Crandall. It is not dangerous, like a common rocking-horse, to children's feet, cannot be upset, does not wear carpets, but stands firm on its base, and its action is so like the gallop of a live horse that the child never wearies of it. This atest of child novelties is exceedingly elegant and artistic in design; and so adjustable, substantial, and durable, that it will last a lifetime. It is indispensable in every family where there are children. It should be in every primary school and gymnasium in the country, as it can be made large and strong meabuilt in sustain grown persons.
