They remore the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of dan-gerous diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish free to all inquiring. TIVER COMPLAINT, JAUNDICE, and ell Billons Affections arise from some decangement – either torpidity, congestion, or obstructions of the Liver. Torpidity and congestion vitiate the bile and render it unfit for digestion. This is disastrons to the health, and the constitution is frequently under-nimed by no other cause. Indigestion is the symp-tom. Obstruction of the duct which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaumdice, with a long and dangerous train of evils. Costiveness, or alternately costiveness and diarrhwa, prevails. Feverish symptoms, langung, low spirits, weariness, restiessness, and melancholy, with sometimes in-ability to sleep, and sometimes great drowsiness, and the white of the eyes become a greenish yellow the stomach acid; the bowels sore to the touch the whole system irritable, with a tendency to five which may turn to bilious fever, bilious cole, bilious diarrhwa, dyscutery, &c. A medium dose of three or four Fills taken at night, followed by two or three in the morning, and repeated a few days, will remove LIVER COMPLAINT, JAUNDICE, and all Bilious or four Fills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these trombles. It is which of to suffer such pains when you can cure them for 25 cents. REEUMATISM, GOUT, and all Informatory Fr-ters are rapidly cured by the purifying effects of these Fills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild dases, to move the howels gently, but freely. As a DINNER PILE, this is both agreeable and useful. No Fill can be made more placeable and useful. No Fill can be made more clocula to the purpose for which a dinner pill is employed. FREPARED BY .copies 30 PREPARED BY DR. J. C.
