

RETRIALS.—The Democrat, of last week, in its account of the late attack of some of the returning soldiers of the Shannock company, upon that office, publishes and endorses a vile article from the Philadelphia "Age," under the head of "Reprints." This article commends the suggestion of that contemptible traitor, Vallandigham, who advises those who have suffered from the lawless conduct of soldiers, and others committing acts of violence, to retaliate, by committing similar acts of violence and injury upon innocent individuals who do not belong to their party.

THE BOUNTIES.—The proclamation of the President, just issued, calling for the service of the navy, and a reserve corps of 200,000 more troops, extends the period for which the present heavy bounties for volunteering will be paid to the 15th, instead of the 1st of April. A number of the States have already completed their quotas under former calls, and doubtless it has been determined by the Government to make this extension, the better to avail of the machinery now in use for recruiting, so that as many as possible may be added to the army up to the new period, (15th April), and all surplus enlistments to fill up previous quotas will then be allowed towards the new call.

THE MONEY RAISED.—The cash raised by the Treasury of the United States, during the first six months of the year, has been one of our most enterprising men, and has put up, besides a foundry and machine shop, quite a number of buildings during the past six years, which pay well as an investment.

VALLANDIGHAM ONCE MORE.—The Ohio papers publish a letter from Vallandigham, dated in Canada. The banished traitor, true to his natural instincts, from his safe retreat in Victoria's dominions, recommends to his Copperhead friends in the States to resort to violence and ample "reprisals, instant and summary, upon the persons and property" of the Union men in the vicinity of those places where soldiers have been guilty of any attacks upon the sympathizers with rebellion.
