DR. SCHENK'S OWN CASE. WHILE LABORING UNDER CONSUMPTION And how his Pulmonic Syrup, Scawced Tonic, and Mandrake Pills act on the System in Curing that

Distrate, and the Great Success Attending It!

The above is a correct likeness of Dr. Schenk taken many years ago, after he had recovered from Consumption; by a course of his "Schenk's Pulmonie Syrup. ' The likeness, although it does not represent him anything like as bad as he was at the worst. yet it is in strong contract with the halo and vigorous looks of the Portrait below, which is the true likeness of him at present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia. who will recognise both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my rooms, 32 Hond street and wished me to call and see her. He said I could husband called upon me at my rooms, 32 Hond street and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cares I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavitles had formed, her cough was very severe, the spit-box was half full of thick pus. Pulse 140, leg swalten very much; and worse than all, she had chronic diarrhea. Her bowels had been moved eleven times that day, told her that she had lungs anough to be cured, but that this diarrhea had been of long standing, and her stomach was in such a ulcerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her observing that she could not last long in the ron-lition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the tonic and Syrap freely.—That was on Tuesday, and by the next sunday the diarrhea was carried off, her appetite had returned and she could sit up in bed and eat her dinner. She is now well, and gave a long certificate, certified to by the Rev. Dr. Downing.

> offenive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was heating up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and the is a hearty and robust a women as you will find are now healed, and have been for about a year, and she is a hearty and robust a woman as you will find in a days walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her ease, and tries to get them to come and see me. The next case is Miss Scafield, from Stamford, Count. Mrs. Barthelomew got her down to see me, and she has been ever since ather house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirameter, and in all my practice never found one with one lung so far gone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonisment the Pulmonie Syrup, Seaweed Tonic, and found one with one lung so far gone and the other lung so sound. I could not give much encourage ment. These Bonds are issued under the Act of Congress of March 8th, 1254, which provides that all Bonds assed under this Act shall be EXEMPT FROM TAXATION by or under any state or enunicipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period nor less than ten nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COLN, on Bonds of notover one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each

Subscribers will receive either Registered or Couyou bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Tressurer. and can be transferred only on the owner s order .-Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, udding fifty per cent for premium.) or receive them draw ing interest from the date of subscription and deposit As these Bonds are

per annum, seconding to the rate of tax levies in various parts of the country. At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a per

manent or temporary investment. It is believed that no securities offer so great in ducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies

only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin. These Bonds may be subscribed for in sums from \$50 up to any magitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted

into money at any amount, and the holder will have the benefit of the interest. It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the PHOTOGRAPH ALBUMS.

rate of over \$100,000,000 per annum It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annua. Instructions to the National Banks acting as lonagents were not issued from the United State Treasurv until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK

PUTNAM CLOTHES-WRINGER. The ONLY reliable self-Adjusting Wringer.
The frame being of Iron, thoroughly galvanized, all danger from rust is removed, and the finbility to shrink, swell, split, &c., so unavoidable in wooden machines is prevented.

No thumb-screws or complicated festenings to wear out or get out of order; it can be fastened finally to the tub in a single second.

WARRANTED WITH OR WITHOUT COG-MILELS.

It took the First Premium at Fifty-Soven State
and County Pairs in 1863, and is, without an exception, the best Wringer ever made.

Instead of believing the statements of parties interested in the sale of other Wringers.

TRY IT, AND JUDGE FOR YOURSELF. Test it Thoroughly with any and all others, and if not entirely satisfactory, return it. It will wring from a thread to a bed quilt without

alteration.
Fatcuted in the United States, England, Conads, and Australia. Agents wanted in every town.

It mow performs all of its functions as well as it did the first time it was used. functions as well as it did the first time it was used, and has become an indispensable article with us. I have closely observed several other kinds of clothes-wringers, the modus operandi being different, trying to produce the same results as the Putnam Wringer, but in my judgment they have failed. The Putnam Wringer is as mear perfect as possible, and I can cheerfully recommend it to be the best in use.

Respectfully Yours.
