Subscribers will receive cither Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner sorder -Coupen Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of Eaving their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent for premium,) or receive them drawing interest from the date of subscription and deposit. As these Bonds are Exempt from Municipal or State

Toxation, there value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a per-

manent or temporary investment. It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bondr. In all other forms of indebtedness, the faith or ability of private parties or stock companies only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$30 up to any magitude, on the same terms, and are this made equally available to the smallest lender and the largest capitalist. They can be converted into money at any amount, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Punded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768.985.000. The interest on this debt for the coming fiscal year will be \$45,937,128, while the customs revenue in gold for the current fiscat year, ending June 20th, 1864, has been so far at the rate of over \$100,000,000 per annum

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United State Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the Pirst National Bank of Philadelphia, Pa. Second National Bank of Philadelphia, Pa. Third National Bank of Philadelphia, Pa. First National Bank of Danville, Pa. And by all National Banks

The above is a correct likeness of Dr. Schenk taken uany years ago, after he had recovered from Consumption; by a course of his "Schenk's Pulmonic Syrup." The likeness, although it does not reprement. I thought she would die; but to my asten ishment the Pulmonic Syrup, Seaweel Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, having a cavity as large as a goose egg; good appetite, fine spirits, and has gened come thrity-five pounds in weight. She has some cough yet, which I do not taink will love her before June. I should think it would be of great interest to some unprejudiced physician to visit there cases, particularly Absociated for any of them who have been cared by my menteines. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognise both portraits to be true representations. When the first was taken be weighed 107

New York, Wednesday, March 50, 1864. TO THE PUBLIC.

Thirty years ago I was in the last stages of Pul-monary Consumption, and given up to die. I resided in Pulladetphia, and Dr. Joseph Parrish, then of this city, ordered me to Morestown, N. J., a distance of nine miles which took me two days to get there. On my arrival I was put to bed, and there laid for many my arrival I was put to bed, and there had for many weeks. This was my nettive place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last filness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the reme dies I now offer to the public, which cured mo. It seemed to me that I could feel them penetrating my whole extent.

seconed to me that I could feel them penetrating my whole system.

They soon recened the matter on my lungs, and I would spit of more than a pint of offcusive yellow moster every morning. As soon as that began to subside my cough, fever, pain, night sweats—all hegan to leave me, and my appetits become so great that it was with difficulty I could beep from cating too much. I seen gamed my strength and I have been growing in flesh ever since. For many years I have enjoyed aminterrupted good health, Ecoping the liver and stometh healthy with the Seaweed Tonic and Mondrake Pills, as I am of a difficult emperament. My weight is two hundred and twenty pounds. On my resovery people would send for me far and near, it see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was carried of consumption by them. To make new lungs is imposisumption by them. To make new lungs is imposi-ble; instearities in the lungs and chronic ubser-tions of the broad-int tables can be breaked.
