IMPORTANT INVALIDS!

IRON IN THERLOOD. It is well known to the medical profession that 1RON is the vital Principle or Life Element of the blood. This is derived chiefly from the food we eat; but if the food is not properly digested, or if, from any cause whetever, the necessary quantity of iron is not taken into the circulation, or becomes reduced the whole system auffers. The bad blood will irritate the heart, will clog up the larges, will stangely the brain, will obstruct the liver, and will send its disease producing elements to all parts, of the system, and every one will suffer in whatever organical and every one will suffer in whatever organical. tem, and every one will suffer in whatever organ may be predisposed to disease.

Iron as a Medicine. Is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr. Hays, Massachusotis State Chemist, has been at tained in the Peruvian Syrup, by combination in a way before unknown.

The Peruvian Syrup. Is a Protected solution of the Protoxide of Iron.

From the Rev. Levi G. Beck, Paster of the Raptist Church, Pemberton, N. J., formerly of the North Baptist Church, Philadelphia. I have known Hooffand's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to maeffects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and suffing the attention of those efflicted with the disease for warch they recommended, to these Bitters, knowing from experience that my recommendation will be scattained. I do this more cheerfully as Houland's Litters is intended to benefit the afflicted, and is 'not a run drink.'
