The above is a correct likeness of Dr. Schenk taken many years ago, after he had recovered from Con. sumption ; by a course of his "Schenk's Pulmonic Syrup." The likeness, although it does not represent him anything like as had as he wasnt the worst. vot it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true like ness of him at present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognize both portrnits to be true representations. When the first was taken he weighed 187 pounds ; at the present time his weight is \$20 ponte

before. She kept graduatly importing, and in house two is out is also came to iny rooms very much fright-ened, mying that the tumor had nearly stopped running, and was beating up, and that every doctor had told her that if it ever headed it would cause her death. I told her that the disease had all loft her system, and reture would head the ulter up. They are now headed and have been for alsonia year and are now healed, and have been for about a year and are now heated, and have been for about a year and the is a bearty and robust a woman as you will find in a days walk. She is glind for any one to call on her, and takes great pains to visit any one that she hears has mything like her case, and triks to get them to come and see me. The next case is Miss Scofield, from Stamford, Conn., Mrs. Bartholomew got her down to see me, and she has been ever since ather house. When she first came to my froms, she was much associated with a distance come on the

at her house. When she first came to my rooms, she was much emaciated with a distressing cough, split-ting targe quantities of blood. I examined her langs with the respirometer, and in all my practice never found one with one lang so far gone and the other lung so sound. I could not give much encourage-ment. I thought she would die - but to my asten-ishment the Pulmonic Serus, Seaweed Tonia, and Mandrake Fills all scened to go right 16 work, the lang is a handrake puls on the range may as the Mandrake Fills all scened to go right to work, the lung is all headed over leaving neavily as large as a goose egg; good appetite, fine spirits, and has gained some tharty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are num crous in New York ; but the above three all differ from each other; and if my inclicities are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured. DENTAL CREAM, For Cleansing, Whitening and Preserving the TEETH !

Preserving the TEETH: This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterious to the teeth or guns. Some of our most eminent Dental Surgeons have given their sanction to, and cheerful-ly recommend it as a preparation of "uperior quali-ties for cleansing, whitening and preserving the TEETH. It cleans them readily, readering them benatifully white and pearly, without the lightest injary to the samed. It is healing to the guns where they are alcorated and sore. It is also an ex-cellent disinfector for old decayed teeth, which are often exceedingly offensive. It gives a rich creancy often exceedingly offensive. It gives a rich creatny taste to the mouth cleansing it thoroughly, and im-parting a delightful imprance to the breath. TREPARED ONLY BY

A. II A W L E Y & C O., W. Cor. 10th., & Lembard Sts., Philadelphia. And sold by all Druggists. PRICE 25 CENTS.

And sold by all proggests. PLACE IS CENTS. TESTIMONIALS. The following opinion of Dr. White, as to the high estocia in which he holds the Dental Cream, must be sufficient excilence of its value ; to quote other test, moniads in detail is needless, contenting ourselves by simply giving the names and addresses of persons who speak of its excellency for the test. Philadelphia, April 15th, 1865. Itaving carefully eramined A. Ilawley's "Solidi-fied Dental Cream," I hereby cheerfully recom-mend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the atmost con-fidence, as its properties are perfectly barmlers. Be-sides preserving the teeth, it promotes a healthy action to the gume, and inparts a plusantness to the break. Mr W E WHITE 1201 Arab St.

Thirty years ago I was in the last stages of Pul Thirty years ago I was in the last stages of Pul-menary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this eity, ordered me to Morestown, N. J., a distance of nine miles which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my af-fare. It had seen all my father in his last illness.

liver complaint, dyspersis, enhard, canker, ulcerated threat, unless the liver and stommch are made heat-thy. In New England this canker chronic catarrh, ulcerated throat, clongation of uvula, is more preva-lent than in any other section of the country. This is frequently caused by a foul stommch. You may barn it out with causita time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal ap themselves. Used nutrition is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the sto-mach in the condition to digest food and make new blood to take the place of diseased matter. This is the only way to heal any times the stomach and liver and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it esmost be purified, it is diseased the same as the diseased matter in the system , bat get the apparatus in or-der, the liver and stomach, and give it plenty of nourishing food it will anke new blood, which will take the place of that which is diseased.
