Dear Sirs:—ilaving realized in my family impor-tant benefits from the use of your valuable prepara-tion—Wistar's Balsom of Wild Cherry—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her rocovery were enter-tained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case made frequent use of your valuable medicine, and have always been benefitted by it.

Scrofula, or King's Evil.

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, the and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; conse-quently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the treams, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we hast renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Buch a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady to be boned from the floor accesse remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enurriva and Skin Diskases, Sr. Anthony's Fire. Rose, or Envirence, Pineles, Postules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUNATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEUSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED ON INFURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S Ague Cure, FOR THE SPEEDY CURE OF

Intermittent Fever, og Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headhche, or Bilious Headache, and Bilious Fevers, indeed for the whole class of dischass originat-ing in biliary derangement, caused by the Malaria of Miasmatic Countries.

for the whole class of dischaes originating in billary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to effer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure," expels the miasmatic poison of Faven Ann Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar larings it within the reach of every body; and in bilious districts, where Yeven and Ague prevails, every body should have it and use if freely both for cure and protection. Agreat superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that; contains no Quinism or other injurious effects whatever upon the constitution. Those cured by it age left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatle poison. A great variety of disorders arise from its irritation, among which are Neuralyia, Rheumatism, Gent, Headache, Blindness, Toothache, Eurache, Caturth, Asthmo, Palpitation, Painful Affection of the Sphen, Hysterics, Pain in the Baools, Calie, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Curn" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few mill ever suffer from

and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready when He called for me.

On the 27th of January, 1863, my husband called on Dr. Schenck, 32 Bond street, New York, and stated to him my twic, with a request for him to call and see me, which he did, and examined me with the respirometor. When he was about to go I asked him if he could oure me? His reply wis: "I can not tell, both lungs are diseased, and the broothial tubes are affected on both sides." And yet he seemed to think there were lungs enough left to effect a cure if the diarrhea could he stopped. He said in order to do this, he would have to give Mandrake Fills in small doses at first, to carry off the morbid matter, and then, with astringents, he hoped to check it, which he did, but the constant coughing, night sweats, and duarrhen had prostrated me so that he was afraid my vital powers were too much prostrated ever to railly, and yet his methed to think if I could live to get enough Pulmonic Syrup through my system to cause expectafulin, there were lungs enough left for me to recover. He wished me to try the Pulmonic Syrup and Seaweed Tonic at once, saying it would do me no harm, if Itdid me to good. The first week it seemed to give me any more medicine. But the doctor had warned him of this, and when the medicine was clearing out the system it made them feel somewhat resiless, and to persevere, and he insisted on my taking it; and I new feel the benefit of it. For after eight days I began to gain strength, and, with the exception of a cold that Jam mow going about, and set in you would here say to the afflicted with emanumption or liver couplaint, that Dr. Schenck is no humbur. You can rely on what he says. Delay not; it is dangerous to triffe with these diseases. If you would he cured, go at once, and any one withing to know the facts as herein stated cur call at my residence, Hi West Houston street, New York city.
