DR. J. H. SCHENCK,

Dr. Schenck, I will now make my statement to you, as follows: — About depthern mother so I was attacked with a revere cough, and it actions and it was a tracked with a revere cough, and it actions and it was a tracked with a revere cough, and it actions. The country of the sum of the country of t to nothing for me, and at that time I was nothing but skin and bones. I then was in the western part of Missouri. In June last we left there for the bast, and in Angust last we came to New York, and I was so reduced that I could only walk a little with my husband's help. After I had been here a short time it was the force made me feel much better for a time and then I had again to call a physician for aid. We had four of the best physicians of New York on the diseases of the langs, and doctors of all kinds, but of no aveil. They said I was past cure, and the my langs were too far gone for any one to cure me. But at this time I was on my feel about the house, not able to do much of mything. In November last I grew worse, and the consumption distributed it was all lasted about eight weeks. We had tried all and everything that I could grasp at like a dying persen for my disease—consumption and liver comperson for my diseases -consumption and fiver com-

percent for my diseases—consumption and fiver constituent—but of me avail.

In Jeanary, 1858, I was brought down again on my bed, and was not expected to live the night out.

My hisband stayed at my side, and other friends, and they all give me up so die. At this time every one who saw the did not think I would leave my bed a living woman. The first night I was attacked with spasms, and was deranged most of the time. A livend, Mrs. tharris, came to see me the last of factorists, and brought the Sanday Mercury. In the same to see me the last of factorists, and brought the Sanday Mercury. In the same to see me the last of factorists, and brought the Sanday Mercury. In the same and brought the Sanday Mercury. In the same are constituted in the same and it was so much like my own disease that I asked in ay husband to go, and see him for me. At this time I had given up all hopes of ever getting well again, and made my peace with God, to be ready when He called for me.

one.
On the 27th of January, 1835, my husband called on Dr. Schenck, 32 Bond street New York, and sated to him my case, with a request for him to call and see me, which he did, and examined me with consisted to him my case, which he did, and examined me with he resparometor. When he was about to go I asked in if he could cure me? His reply was: "I can not tell, both lungs are diseased, and the bronchial ubes are affected on both sides.' And yet he comed to think there were lungs enough left to often act in the diarrhea could be stopped. He said in order to do this, he would have to give Mannake Fills in small doses at first, to carry off the corbid matter, and then, with astringents, he hoped a check it, which he did, but the constant coughing, the case of the corbid matter, and then, with astringents, he hoped a check it, which he did, but the constant coughing, the case of the corbid matter, and then, with astringents, he hoped a check it, which he did, but the constant coughing, the case of the corbid matter, and then, with astringents, he hoped a check it, which he did, but the constant coughing. eet a cure if the diarrhea could have to give Manrake Pills in small doses at first to carry off the

HAPPINESS

NOT A FEW Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the disequal in effect HELMBOLD'S COMPOUND EXTRACT
OF SARSAPARILLA. It cleaners and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to

the sick that it has virtues surpassing anything they have Two tablespoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and

one bettle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made. The above Extracts are prepared on purely scientific principles-in Vicus-and embody the full strength of the ingredients entering into their composition. A ready and conclusive test will be a comparison of their properties with those set forth in the U. S. Dispensatory.
