The Sunbury American. H. B. MASSER, Editor & Proprietor. SUNBURY, PA. SATURDAY, JUNE, 9, 1866. FOR GOVERNOR. Gen. JOHN W. GEARY. Of Cumberland County.

Dur neighbor of the Democrat stig. matizes as "a sepsation lie" the statement that the name of Gen. R. E. Lee had been placed at the head of the columns of the Mobile Register, as a candidate for the Presidency in 1868. The statement may not be true, although there is nothing improbable in it, as we have heard persons in the north during the rebellion express a preference, even in favor of Jeff Davis, over Abraham Lincoln. We heard a clergyman at Easton, Pa., who resided near New York about a year since, declare that he would rather support Jeff. Davis than Lincoln. Yet he had complained, a few minutes before, that he had been insulted and charged with disloyalty, although he had never said or done anything to warrant such a charge, We could even point out newspapers in the north that expressed similar preferences. We are pleased to see our neighbor growing more sensitive on this subject. Treason should be made odious everywhere.

#27 Hon. Geo. F. Miller visited our place of the Academy. His remains will be in-last week, during a brief absence from Con- terred in the West Point Cemetery. 197 Hon, Geo. F. Miller visited our place gress, on professional business. Mr. Miller has endeavored to represent his district fairly and faithfully, and his views in regard to reconstruction, are those of a liberal minded Union man-views that will be P. M. adopted by a large majority of the Union party in Congress. The idle clamor of partizan editors who persist in asserting that the Union party is led by such extreme men as Thaddeus Stevens and Sumner, can only mislead the ignorant. The best commentary on this charge is the fact that Mr. Stevens amendment to confer the right of suffrage on negroes, only received thirty votes.

The Harrisburg Telegraph was published on Monday evening in an enlarged form and greatly improved appearance. The first number of the Telegraph was issued on the 7th of October, 1856, and since that time has been gradually increasing in prosperity until it now enjoys a circulation, which, to use its own language, "is second sections to no other journal published in the State west of the commercial metropolis."

The Democrat says that Gen. Geary "endorses Thaddeus Stevens in every thing, ermon and opposes Johnson in every thing." Now Massach Rhode I this is mere assertion. While the Democrat can show no act of hostility on the part of iew Je Gen. Geary towards President Johnson, al-Pennsyl Delawa though- he may differ with him on some points of policy, we can show, by the re. Total cords, that no man in the State has more violently assailed the character of President Johnson than Mr. Ciymer. "How then." we might say, "can true Union men, who support Johnson, at the same time support Clymer."

Yesterday, May 4, the writer was on the train bound North from New-Orleans. The cars were crowded with ministers returning from the inte General Conference of the M. E. Church Bouth. At one of the stations, in the adventue of despendence come E. Church Bouth. At one of the second second second the train. They were drunk, heavily armed, and were bent upon mischief. They supposed the preachers on board were Yankees, and said they would "clean them are "They supposed the preachers with "they would "clean them the second se out !" They drank more whisky, with which they were well supplied, insulted-the ministers, began mutilating the cars by breaking the window blinds, and swearing vehemently. The conductor interfered, when pistols were drawn and two shots fired, but fortunately no one was hurt. The gang was led by an ex-Rebel Colonel. One of the

preachers, Mr. Rosser of Virginin, knew the Colonel, and soon succeeded in convincing him that the preachers were not Yankees, but goot Rebels, and his friends, whereupon the Colonel and his gang became quieted, and at the next station left the train. The telegraph had announced that a load of extra dinner to be in readiness. These "roughs" had heard of it, and took them to be Northern preachers ; and, had they been

Yankees, there is no doubt that some one, and, perhaps several, would have been killed. Last Thursday night at Meridian, three men went to the office of Major Knox, in WEST POINT, May 29.-The funeral of Lieutenant-General Scott will take place at place, broke down the door, and fired two shots at the Major, when he returned the fire, and they fled. The next day the Major received a letter stating that if he did not eave the place immediately be would be

killed. The troops at Meridian have been mustered out, which explains the assault. I have just seen a letter from a Union man at Columbus, Miss., written April 26, and among other things it contains the following:

Boston, May 20.—All the church bells of this city were tolled, by telegraph, this after-noon, striking eighty times, for the death of iter the departure of the treone. In order To give an idea of the prevailing feelings of the municipal authorities, the Government barracks, left in charge of the Agent of the Freedmen's Bureau, were torn to the ground,

and on the third day the teachers of the colored schools received a polite note, in-

"The colored people have determined to support their teachers, and they now guard their premises at night. Last night two men They were halted by the colored citizens on

guard. The men broke and ran off, when they were fired upon by the sentinel. It is supposed they were attempting to burn the school-house. There is some excitement

about it to-day. This is something new for East Mississippi, and we are led to ask what does it mean? Was their former kindness put on fcr effect? On last Monday, in Grenada, the Rev. Mr.

Bardwell, agent of the American Missionary Association, and Superintendent of the Freedmen's schools, of that Society for this (Miss.) Department, was brutally assaulted well, and he showed me the wounds upon his ear and the side of his head where he

was struck with the cane. He is a man well in years and of feeble Balance in United States Treasury 9,390,105 Certainly it would be impossible to indite

troops. Were we not right when we coun-seled the Government to be careful how it withdrew the army from the South ? Will we now be left without protection ? It is a very significant fact that in all of the six cases above specified, in which 17 persons were accessories, there has not been, up to this date, so far as known, a single arrest! The alderman was fined informally, and without arrest or trtal. The mad multitude boast that this is but the beginning of what they have in store for officers of the Bureau schoolmarms, and missionaries. They say ing the teaching of freed people, believes it good for them and good for the State. He says the teachers shall be protected in their we must "quit the State, bite the dust or hang up to dry." We shall see about that. Meanwhile we will endeavor to trust in God and keep our powder dry. Let the church duties, and that the prejudice against them and their occupation is disappearing. pray for us.
