SATURDAY, OCTOBER 20, 1865.

HON, GEORGE F. MILLER.

The Congressional return judges of the Fourteenth District met at Lewisburg, on Monday last. The vote for the district foots up as follows : 14,190 Miller, R., 12,675 Bower, D.,

1.515

Miller's majority,

Mr. Miller's majority in this district in 1864 was between five and six hundred. This largely increased majority shows very conclusively not only that Mr Miller's course guiled us through the sufferings and death was acceptable to the electors of this district, but that the policy of Congress, which Mr. Miller supported, meets with the approbation of his constituents. If it were otherwise. we should have but little hope of the permanency of our Republican institutions. It was simply a contest whether the judgement of one man, and he the Executive, should overrule the judgment of 160 men, (many of them his superiors,) who are supposed to represent the wishes of the people. If the and granite foundation we shall now proceed Johnson policy was right, then is Democracy to fortify against the inronds of time and and a representative government a farce.

the recent election, 525 votes, which, the people, and for the people, shall not THE Borough of Shamokin polled, at Herald thinks, entitles it to rank as the largest as well as the youngest borough in the county. Shamokin certainly did well, but the vote of Sunbury ran up to 542, while the capable of self-government, they rejected register shows that there are not less than the heresy of human Slavery, and pledged 630 votes in the borough. Milton polled equal political rights to all their successors. 429, and Northumberland 342, the latter a the State and National Legislature must be handsome increase. Sunbury, it will be seen, clothed with the rights of citizenship. polled the largest vote in the county, and intends to keep at the head of the list. If any of our neighbors design to take the lead, they will have to be unusually smart. Sha-in the South against the savage persecutions in the South against the savage persecutions of Rebels who are still so impenitent and Republican majority, which is 281, in defiant that even Andrew Johnson fears to Sunbury, 140, Milton, 143.

Some one having observed the lengthened visage of our neighbor of the Democrat, the other day, inquired into the cause, and found that he had not been supplied with a free pass for Salt River. Won't some considerate Republican send neighbor Purdy a ticket? He only asks for one for himself. His nigger, he says, has become too large and unmanageable to take along, besides being demoralized by the Republicans. He intends, therefore, before his departure, to box him up and send him to Judge Kelley, of Philadelphia.

EF JOHN VAN BUREN, ESQ.-The New York papers announce the death of this gifted, but somewhat eccentric politician, who died on his way from England, on board the steamer, aged about 56 years. During the Presidency of his father, he visited England, and received marked attention at the Court of Queen Victoria, from which circumstance he was called Prince John. He was a polished gentleman of superior abilities, with a vast fund of wit and humor. We never listened to a more entertaining speaker, in a promiscuous assembly, than John Van Buren. Some of the Cops complain bitterly of Johnson's policy, but especially of his speeches on his Chicago tour, which, they now allege, were not only foolish and undignified, but disgraceful, and had ruined the party. Some of the prominent Johnson men, on the other hand, denounce the Copperheads, and say the late victory was not an endorsement of the radical policy of Congress, but a blow which will crush the Copperheads forever. These sentiments are freely expressed since the election, by the Cops and Johnson men.

high places serve to arouse popular indignation, and to strengthen popular convictions. No tyrant in any age-not even that of Nero, whose infamy is written in the immortal pages of Seutonius, ever descended so low in his efforts to debauch or reached so high in his efforts to destroy, as Andrew Johnson. Strong in the stolen power of a betrayed people, he stretched forth his arm, paralyzng where he could not purchase, and scourging where he could not subdue. Our State was converted into a market-place, where the offices of the people were profiered to themselves as the price of their own degradation, and where honest opinion was ostracized and craven sycophancy disgustingly rewarded. But this attempt to restore the traitors of the South and to revive the Copperhead of the North has proved to be a galvanism so brief that his failure has consigned both to a

such brutalities may well claim the proud title of being the fortress of American freedom. But as I speak to you I feel that we plete the triumvirate as they compete for the palm. Let us share it with them as those who won the immortal battles against re-

bellion shared equally the dangers and the honors of the conflict. Now that we have done our duty, it will be easy for others to follow-easy, let us hope, for Maryland to hold the position so bravely and so bloodily won during the war, and now sought to be torn from her by returned rebels and pensioned mercenaries; easy for Tennessee to retain and rivet the splendid post-she has captured from a double treason; easy for Delaware to cut loose from the prejudices under which she has groaned so long; easy for Missouri to add another page to her crimsoned yet immortal record ; and, above all, easy for the patriots of the South to compel obedience to the last generous proffer of the American people in the new amend-ment of the National Constitution.

DISTRIBUTIONS.

We would call attention to the opinion of on the leading papers of Canada on this subject :

Most of our readers have, no doubt, read some of the numerous advertisements of Giff Enterprises, Giff Concerts, &c., which appear from time to time in the public prints, offering most tempting bargains to those who will patronize them. In most cases these are genuine humbugs. But there are a few respectable firms who do business in this manner, and they do it as a means of increasing their whole-sale business, and not to make money. From such firms, it is true, handsome and valuable articles are procured for a very small sum, and what is more important, no one is ever etheated. Every person gets good value for hisdollar; because, as we have stated, it is intended to act as an advertisement to increase their ordinary business. We have seen numbers of prises sent out in this way by Suzmana, Warson & Courany, of Nassau Street, N. Y., and there is no doubt that some of the articles are worth eight or ten times the money paid for them, while we have not seen or heard of a single article whole was not fully worth the dollar which it could be a substantiate the money for the substantiants of the substantiants of the substantiants of the substantiants of the substants of the substants of the substant of a single article which was not fully worth the dollar which it could be the substant of the substants of the substa Most of our readers have, no doubt, read some

We have quite a lively time here, on account of the rapid progress of the North-western Railroad.
