# The Sunbury American. IT B. MASSER, Editor & Proprietor. SUNBURY. PA. SATURDAY, NOVEMBER 24, 1866.

SURRIFF BECKLEY, the new Sheriff. assumed the duties of his office on Monday last. The short vacation between the November and January Courts, necessarily imposes onerous duties on the new Sheriff, when there is much business. The new deputies appointed by Sheriff Beckley are John A. Hoffman, of Rush, and Martin E-Bucher, of Sunbury. The arrangement, for the division of labor, between the two deputies, is, that Mr. Bucher, who has had some experience, as constable, &c., is to attend to the business in and around Sun-bine while the business in and around Sun-to on one hand and heavy as well as unequal bury, whilst Mr. Hoffman, who has had fifteen years experience as a Justice of the Peace, will attend, generally, to the business throughout the county. We have no doubt that under the adminstration of Mr. Beckley, who has always been an obliging and attentive officer, the duties of the office will be faithfully performed.

MEGRO SUFFRAGE .- It is a singular fact that the ablest and most influential organs of the Democratic party, such as the Chicago Times, Boston Post, and New York robbery it is-the money being lost, at any World, are out in favor of negro suffrage. They contend that universal suffrage is not only democratic, but its adoption alone can save the democratic party from utter annibilation. Eyen the rebel organs of the army; but the war ended nearly two years chivalry, at Charleston and other southern cities, are beginning to favor this measure. The leading organs of the cops, in Pennsylvania, are noncommittal, and say nothing on the subject. They are evidently feeling their way, and not yet ready to express their sentiments. Whenever they do so, the rank and file of the county Press will follow in their wakes, with that spirit of obedience to the party and the party lash, which a long course of instruction has taught them. Should the principle of negro suffrage be adopted, for the purpose of restoring the party, we shall find our negro-hating cotemporaries, not only ready to "swallow the nigger," but throw him up again, "redeemed, regenerated and disenthralled," with whom they will march to the polls, arm in arm, provided he will "vote the ticket and nothing but the ticket." Such are the muta-tions of party and party tacting caused by obtained for five dollars. Whose income tions of party and party tactics, caused by has trebled in proportion ? the thirst for office and official patronage.

THE STOCK MARKET .- The Pitts burgh Gazette, of the 15th, says the stock market has been dull and declining, and purchasers for the East lost heavily. That those who shipped stock from there to New York and Philadelphia last week "got their fingers burned" pretty badly, and, as a matter of course, these men will not buy very largely now unless they can do so at a material re. duction. Prime to extra fat cattle, suitable for retailing in the castern markets, sold at 7 to 71-one drove of choice bringing 71 Good to medium cattle may be quoted at 6 to 01. and inferior to common at 41 to 5.

In hogs the prices have declined. Last week, good to prime heavy averages sold at adopting this principle.

HIGH PRICE OF LIVING. "Very little business doing" is the general port from the wholesale and retail dealers throughout the country. It was expected that, on the return from the country, to which (or to the watering places) so many persons migrated for the summer and early autumn months, there would be the great expenditure of former years. Not so, how-ever-the price of bare living has so much advanced that people look, not twice, but a dozen times at a five-dollar greenback before they change it. Food, in all its varieties, is sufficiently abundant. The harvest, after some misgivings on that score, turns out to be more abundant than usual. But the par-ties who speculate in provisions of all kinda, and the retailers who loath to surrender the great profits which they received during the

taxation on the other, it is harder to live, in this great land, than ever it was before ; and as the last straw to break the camel's back rents have nearly doubled. The Irish clamor for "tenant rights :"-we have as just grounds here to complain. When \$800 to \$900 per annum is exacted for a house which let for \$400 five years ago, and was highpriced at that, it is clear there is cause to murmur. Property-owners may protest that they "cannot help to rise,"-but, saying so, they insist on it, and pocket the money. One might as well be plundered on the highway as robbed in this manner-for downright

rate. When necessary articles ran up in the retail price, we protested against it. The price of butchers' meat was trebled during the war, owing to the demand for it to feed the since, and the great army was disbandednevertheless, the price of meat has only slightly gone down, and that within the last ten days. Why should we pay seven-teen to eighteen dollars for a barrel of flour, which was considered dear, six years ago at seven to eight dollars? On what ground can the charge of seventy cents for a pound of butter (Philadelphia market price on Saturday) be exacted by the farmers or by the forestallers why buy up the produce? Milk, which used to be four cents a quart in Philadelphia, now is sold for ten-including the water used to dilute it, the chalk to whiten and the calves' brains to thicken the dilution-and will probably go higher, see-ing that in New York the price has just been raised to twelve cents a quart for a miserable thin fluid. In the same way, vegetables are nearly thrice as costly as they used to be, and as they ought to be. The result is, whoever has to market for a housemuch attention. hold finds that it takes twelve to fifteen dollars, at present prices of food, and that

GETTYSBURG, Nov. 20.

From Gettysburg.

Gettysburg, fameus forever in the annals of American history, has to-day witnessed another interesting ceremony, which is a fit-ting sequence to those which have taken place before in commemoration of the great struggle which, on this field, in 1863, scaled the fate of the rebellion. We have already had the consecration of the national ceme-tery, then the laying of the corner-store of the great monument, and this been anora the great monument, and this been appro-priately followed by the inauguration of the Orphans' Home, for the care of the children of the beroes of the Republic who gave up their lives for the maintenance of the Union COMMENCEMENT OF THE EXERCISES.

By two o'clock a large concourse of peo-ple had assembled, numbering several thousand persons, when the procession was form-ed, composed of officers of the court, the clergy, professors and students of Pennsylva-nia College and the seminary, the various Sabbath schools, citizens, and visitors, and proceeded to the Orphans' Home, on Cemetery Hill.

THE OPENING ADDRESS.

Rev. Dr. Mears, of Philadelphia, made the ppening address. He ably and eloquently urged the obligations of the nation to the soldiers of the war for the Union, and especisilly the failen heroes; an obligation that could only be partly met by the most ample provision for the support and care of their hundred and sixty acres. rphan children. ADDRESS OF DR. HAT.

Rev. Dr. Hay, of Gettysburg, followed, and in the course of his address, made an elo-quent allusion to the pledges made by Gov.

Curtin to the different Pennsylvania regiments as they marched to the field, that the State would care for the dear ones left at nome, and provide for the widows and or- ished. It has occupied 20 years. phans of those who should fail in the struggle. Pennsylvania is fully redeeming these pledges, and is presenting a noble example to her sister Commonwealths.

THE ODE. The Sabbath School children united in inging the national hymn, "America," while a select choir gave an ode written by Mrs. Isabella James, of Philadelphia, for the occasion. The exercises at the Home being concluded, the large concourse was dismissed, THE EVENING EXERCISES.

At night a large congregation assembled in the College church, and the exercises were to the ton to the ton. The mer being delivered by Rev. Dr. Mears, Rev. Mr.

Newton and Rev. J. R. Warner. Some thirty orphau boys and girls, already inmates of the Home, neatly and comfortably clad, were on the staging with the distinguished invited guests, and attracted

Governor Worth's message yesterday to The cattle-disease which caused such loss in Europe by its ravages, and especially in England, did not affect this country. ANDREW JOHNsingle word. The South would have acquiesced ; the North would have sustained him, and before this time there would have been peace and a complete restoration of all railroad. This drew up in rear of the jail at ten o'clock, and the men were safely the States. But he thought he could use the prejudice against the negro to secure his election. For that purpose he threw him-self into the arms of Copperheads, and gave traitors the controle at the South. And now twenty men. The prisoners received a good supper at the railroad station before starting, it may take time to undo the mischief caushis treachery. It may take years to bade good bye to their escort, giving three hearty cheers for the sheriff, governor of the secure to loyal men at the South that full protection in all their rights that the Constitution grants. It may take years to secure | jail and the jail officers. at the South and at the North absolute equality before the law-equality of civil rights and impartial suffrage. Or, if the South and the Democratic party of the North are wise they may stop all this agitation, take the negro question forever out of poli-tics, and restore every Southern State to the Union within one year. The advice of the Times is good. True, its motives is not the best-to secure a party ascendancy. But its reasoning is sound. So long as these ques-tions remain unsettled, the Radical party will grow stronger with every election. It can be got out of the way only by yielding in good faith to the supremacy of its ideas.

EXPLOSION OF A BOILER .- Eight Boys Kill

ed.—The Pottsville Miners' Journal says. "On Saturday morning last, just before the hour to commence work had arrived, a breaker boiler, one of three at the colliery of Wm. Keer & Co., Mine Hill Gap, ex-ploded with terrific violence, blowing every-thing in its immediete vicinity to atoms, killing eight boys, slate-pickers, whose ages ranged from 12 to 18 years, and seriously wounding the engineer, named Good, and several boys. The cause of the explosion is unknown. The names of the boys killed are George H. Clemens, William Edwards, Richard Welsh, Michael Welsh, James Ryan, E. Lawler and John Welsh. The

name of a boy who was wounded and died subsequently, we have not learned. It is thought that several others who were wounded cannot recover, as their injuries

Turks. Thirty persons are in the state prison of Nevada, and as a proof of their intelligence it is stated that every one of them can play draw poker. Wounded cannot recover, as their injuries are of a very serious character. It seems that the boys had collected in the boiler house before going to work, to warm them-selves, and that they were in the house when the explosion took place. This is one of the most terrible accidents of the kind that ever happened in this county.
