Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the conever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

their children." Its effects commence by deposition from the Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constituthe energies of life, so that serofulous constitu-tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other discases; conse-quently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive discases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse if from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

Compound EXTract of Darsaparnina, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remediats that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affec-tions which arise from it, such as Enurrive and SKIN DISEASES, ST. ANTHONY'S FILE, BLOTCHES, BLAINS and BOILS, TEMORS, TETTER BLOTCHES, BLAINS and BOILS, TEMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPERSIA, DEBILITY, and, EASIS, DROPST, DYSPERSIS, DEMLATY, and, indeed, ALL COMPLAINTS ARDSING FROM VITLA-TERD OR IMPERE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disor-ders arise from its irritation, among which are Neuralgia, Rhenmatiam, Gout, Headache, Rhind-ness, Toothache, Eurache, Catarzh, Asthma, Fal-pitation, Painful Affection of the Spleen, Hyster-icz, Pain in the Bouest, Colie, Parulysis and De-rangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cune" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occa-sionally or daily while exposed to the infection, that will be exercted from the system, and cannot accumulate in sufficient quantity to ripen into dia-case. Hence it is even more valuable for protec-tion than cure, and few will ever suffer from Inter-mittents if they avail themselves of the protection this remedy affords. It is amclaucholy fact that thousands fall victims to this terrible disease, owing to the unskillfulness of ignorant pretenders, who, by the use of that Deadly Forson, Merceny, ruin the constitution and make the residue of life miserable.
