This Distressing Affection—which renders Life miscrable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sconer by those falling into improper habits than by the predent? Trust not your lives, or health, to the care of the many Unlearned and Worthless Pretenders, destitute of knowledge, name or character, who copy Dr. Johnston's advertisement, or style themselves, in the newspapers, regularly Educated Physicians, incapable of Curing, they keep you trifling month after month taking their filthy and poisonus compounds, or as long as the smallest fee can be obtained, and in despair, leave you with ruined health to sigh over your galling disappointment.

Dr Johnston is the only Physician advertising.
His credential or diplomas always hang in his office. His remidies or treatement are unknown to all others, prepared from a life spent in the great hospitals of Europe, the first in the country and a more extensive Private Practice than any other Physician in the world. More than 13 years of regular use upon all description of Crops grown in the Middle and Southern States, has given a high degree of popularity to this MANURE, which places its application now, entirely beyond a mere experiment.

A few ignorant practitioners have anserted that there is nothing that will force or hanten the growth of the hair or beard, their american are false, as housands of thing witnesses (from their own experience) can bear witness. But many will say, how are we to distinguish the graume from the spurious? It certainly is difficult, as nine-tenths of the different Preparations interched for the lastrand than different proparations in their purchase.
