SEIRCRE BY A U. S. REVENUE AGENT .- The distillery of Jacob Greenkoe, in Snyder county, (Fifth Division of the Fourteenth Collection District,) has been seized by J. B. Henderson, Special Revenue Agent, for violations of the U.S. Internal Revenue

NEW BOOT AND SHOP SHOP .- John Wilver has again hung out his sign, to let the public know that he has opened a shop on Spruce street, where he intends to manufacture boots and above. He is pre-pared to make up all kinds of work, and in the best anner. See his advertisement.

THE MARKET STREET BRIDGE.-Messrs. A. Lenker & Co., the contractors for building the new iron bridge over the "gut," at the eastern end of Market street, are pushing the work shead rapidly. The stone work is nearly completed. The bridge, when dinished, will be a substantial one, and will, no doubt, reflect credit on the skill of the builders.

Tax Barpon across the canal, at the intersecti with Fourth street, is at present being constructed ander the supervision of our worthy Chief Burgess, E. Y. Bright, Esq. This street will, no doubt, be one of our most important thoroughfares, after it is opened through Cake's addition. We observe that the public road, leading from the Catawissa road to the new town, is nearly finished.

NEW FIRE.-We refer our readers to the advertisement of G. Zettlemoyer & Brother, who have taken the old and well established Tin Ware and Stove establishment, on Market street, formerly conducted by their father, Mr. Benjamin Zettlemoyer. They have a fine store, are steady and industrious young men, and have a thorough knowledge of the usiness. They deserve success.

STRAWBERRIES .- The strawberry crop was later than usual this season. Our dealers were not supplied with them, from abroad, until Thursday last. On Wednesday previous some very fine ones were brought to town by Mr. William Reed, raised on his farm, about two miles above this place. They are produced on high ground, and are some days earlier than those cultivated in the gardens in this place.

THE portrait of Hon. Alexander Jordan, President Judge of this District, which was painted by Mr. Marchant, of Philadelphia, was placed in the new Court House, in the recess behind the Judge's sent, on Wednesday last. The portrait is well executed and gotter up, and was presented by the members of the bar as a testimonial of regard and esteem for the Judge, who has so long and satisfactorily presided a over the courts in this District

THE STREET RAILWAY .- The following gentlemen were elected Directors of the Sunbury Street Railroad Company, at a meeting held in Northumberland on Monday of last week :- Amos E. Kapp. Wm. T. Forsyth, Wm. M. Rockefeller, J. H. Jenkins and H. L. Cake. A. E. Kapp was elected President, and J. H. Jenkins, Secretary and Treasurer. The authorized capital of the company is \$30,000. It is estimated that the road can be built

ANOTHER CASE OF DROWNING .- The Democrasays that on Wednesday of last week the body of an unknown man was found on Buyers' Island, below this place. He had on a pair of dark cassimere pants, woolen shirt, calf skin boots with patent soles and had two sears on his chin. He was about five feet six inches in height, and from appearance was twenty-five years of age, but there was nothing on his person to lead to the discovery of his name or where he was from. Coroner Geasey held an inquest, and the jury decided that the deceased had come to his death by drowning.

THE STRAWBERRY FESTIVAL .- The ladies of the Episcopal Church, of this place, will open their strawborry festival, in the store room in Mrs. Boulton's building, Market street, on Wednesday evening of next week, and will continue every evening during the balance of the week. A valuable oil painting will be disposed of by ballot, at ten cents each to be given to any minister receiving the largest number of votes. It is to be hoped the ladies will be liberally encouraged, as the object for which the festival is to be given, the building of a parsonage is a most worthy one.

SHAD .- We are glad to learn that an unusue number of shad have been caught, the past week, at the fishery of Mr. Wm. Gaugler, on Buyers' Island, a short distance below this place. Over five hundred were taken the first three days. The shad are very fine, and much superior to those brought from Phil-adelphia and Baltimore. Whether the presence of these shad is owing to the continuous high stage of water, or to the improvement made for their ascension at the Celumbia dam, is a question that cannot be readily settled in one season.

THE entertainments given in the new Masoni Hall, in this place, on Saturday and Monday evenings last, by the Ellinger and Boote Combination Troupe, were well patronized, the large Hall being completely jammed each evening. The audiences were delighted with seeing and hearing the celebrated Commodore Foote and his accomplished sister. Mr. Harrison, the extempore comic singer of the troupe, is excellent, and his productions were received with shouts of applause. The appearance of the Commodore's little equipage on the streets cre-ated an unusual excitement among the juvaniles.

IMPROVEMENTS .- A day or two since we spent an hour looking at some of the improvements, in progress at the eastern end of the town, on the property of Mr. J. B. Lenker. The new Brick Ma-chine of Mesers. Lenker & Gaugler was in successful operation, making ten thousand bricks per day, and appeared to do its work well. To test its capacity and speed, a trial was made, and six hundred bricks were turned out in fifteen minutes. As brick will not only be reasonable and abundant, there will be no excuse for the erection of wooden buildings, that cost nearly as much as brick, and are worth one-third less when finished. We trust our Council, if it can't entirely prevent this delusion in regard to frame buildings, will at least regulate matters so as to prevent the erection of wooden shantles in our prin-

Near the brick yard, Messrs. Bowen, Wilder & Co. Near the brick yard, Messrs Bowen, Wilder & Co., are creciting buildings and putting up an engine and machinery for refining Petroleum, or Coal Oil. The location, which is near the railroad, is an excellent one, and the enterprise will undoubtedly prove to be a profitable one. The amount of oil received and distributed, at this place, we understand is now about 3,000 barrels per annum. When the oil is prepared here, that amount will be doubled the first year.

Close by these improvements is the establishment of Messrs Torrington & Hodgkins, for the manufacture of Super-Phesphate of Lime, an article that should be used by access the committee.

THE MIDDLE CREEK RAILROAD .- Our cotempo-The Middleburg Tribune speaks very favorably of the prospects of the construction of this read, and thinks that if reports are correct the final building of it amounts to a certainty. It says:—"After several months of apparent lnactivity, and when many of our citizens imagined the project abandoned, we receive the intelligence that active operations are about so begin. Our worthy townsman, A. K. Gift, has informed us that he is one of the corps employed to locate the road, and that he had instructions to report by the 17th inst., to commence operations. The work will be begun at the Western terminus, and will be worked towards the Eastern terminus. If the work is once commenced the balance of the money needed to see ure its completion will readily be secured. In our estimation the prospects of the read being built are much better than they have been for many days."

POLICE MATTERS IN THE COAL REGION .- We take the following from the Potteville Journal, of the 8th inst. :- "Mr. Michael Lukina, a colliery boss and book-keeper as Locust Gap, Northumberland county, was, with his family, threatened by some notorious characters, among them one James Rodgers last week. On Saturday and Sunday Marshal Helsler's police, under command of Lieut. Thos. J. Pitzsimmons, guarded Mr. Lukins and his family, and at last accounts all was quiet. On Sunday morning, while the police were going the rounds to see that all was right, Hodgers, who has the reputation of being a very bad man, opened the door and fired on th force, using at the same time abusive language. Lieut. Fitseimmons immediately entered the hou and arrested Rodgers in his bed room, and found the pistol with which he fired the shot in the same room. Or Monday Rodgers was held to ball to answer at the next court to be held in Northumberland county."

HIS NAME.—The name of the man who was found dead, near the blue hill, opposite this place, on the 29th ult., and who was supposed to have committed suicide by taking strychnine, was Paul Sadler. The deceased had in his possession an honorable discharge from the United States services He had served in Battery I, 3d U. S. Artiflery. The discharge gave the unfortunate man the credit of having been a faithful soldier, the words "character good" being underlined. He was a printer, and had been at Middleburg, Snyder county, on the preceding Monday, in search of employment.

THE NEW RAILROAD -We find in the Danville American, of last week, the following report of F. C. SUNBURY, PA., May 31st, 1867. S. P. Kase, Esq., Pres't. D. H. & W. R. R.,
Ser:—In reply to your inquiries, in relation to the
advantages which the Danville, Hazleton & Wilkesbarre R. R. will have for trade in competition with other routes, I may say—besides the saving in dis-tance between Sunbury and New York. alluded to in my report, viz: 41 miles over the Harrisburg route, 13 over the Catawissa line, and 9 miles over the Mt 13 over the Catawissa line, and 9 miles over the Mt Carmel, thus occupying a position to command the entire New York trade of the Philadelphia & Eric Railroad—the road will open the shortest, cheapest and best route for the anthractic coal of the Mc-Canlay and Buck Mountain, and the Lehigh Valley to the entire veest, at Eric, Pa. Taking Haleton as a point, (although this is 12 miles east of the Buck Mountain coal, and 21 miles east of the McCaulay,) and we have the following comparison of distance:

From Hazleton to Mauch Chunk, 22 miles. Easton, 45 "
Elizabethport, 63 "
New York, 12 "
Albany, 145 "
Buffalo, 350 " From Hazleton to Sunbury, 239

A saving of 298 miles, and all transhipments for the entire trade of the Lakes! The grades for this traffic, which is destined to become immense, will be either descending or level to Sunbury from the McCaulay mines, and with only one reverse grade of 52 feet for two miles from Hazleton. The road can be built at moderate cost and good alignment, and with no high and expensive bridges or tunnels. The advantage of this favorable connection of the western market with the coal regions cannot be overestimated. Your Geologist reports the supply in the McCaulay meuntain, (the nearest point,) to be almost inexhaustible, and you have certificates from experienced foundrymen that the quality of this coal for smelting and foundry purposes is not equalled.

ity of this coal for smelting and foundry purposes is not equalled.

The road will also connect, (through the Middle Creek Railroad, now being located from Sunbury to Lewistown, and forming an almost air line extension.) the now productive anthracite coal regions with the Middle Creek valley, rich in agricultural products and inexhaustible beds of valuable iron ores and limestone, which will open a heavy traffic in both directions.

PROCEEDINGS OF THE BOROUGH COUNCIL.-Coun oll met on Tuesday evening, 4th inst., it being the regular stated night of meeting. Members present —Messrs. Haas, Hendricks, Bucher, Bourne, Markle, Brice, Clement, Bright, Youngman, Hoover and Henry Haas.

The minutes of last stated night of meeting were read, and the following amendments made. viz:-The words "and bounty tax" were stricken out of Mr. Markle's resolution in regard to per capita tax; the fine for destroying or injuring public or private shade trees, by hitching horses to them, was changed from \$10 to \$20, and the word "fifty" was directed to be inserted in that part of the resolution in reference to the different denominations of bonds to be issued, making it read, "of the denominations of fifty, one hundred, two hundred, &c." The minutes were approved with the above amendments.

The regular order of business was suspended to allow Messrs. Masser, Rockefeller and Boyd to appear and make a statement in regard to fixing Centre

On motion of Mr. Hans, Resolved, That the Chief Burgess is requested to employ John Bowen, at \$3 per day for each and every day employed, in attending to the grading, repairing, fixing and improving of Centre siley, commencing at Market street and terminating at Chestnut street, and, if required, to alter and improve the continuance of said Centre alley from Chestnut street to the Shamokin Valley Railroad; to facilitate and improve the alley called Centre alley from Chestnut to Market street; that the work thereof shall be done, &c., and the said John Bowen is also empowered to have personal supervision of the paving required for all crossings at atreets and alleys; all of which is to be under the directions of the Chief Burgess, to the said superintendent, John Bowen.

The committee on claims and accounts presented

The committee on claims and accounts presented the following report, which was read and adopted : We, the committee on claims and accounts, would report adversely on the claim of J. M. KENNEDY'S BANK REVIEW cautions the public against receiving the new and dangerous imitations of the \$5 bills of the National Banks. They are gotton up in a style well calculated to deceive. The following marks of distinction may assist in detect-ing these bills: In the first place the signatures of both President and Cashier are printed, while in all cenuine bills the names are invariably written. The etters "t" and "s" in the title "Pres"t," in the original, are separated by an apostrophe. In the counerfelt the neat figure of the two females, sitting i the lower right, is almost invisible; in the genuine it is very clear and distinct. The back of the bill is still more bunglingly made than the front. The green is pale and poor, and in the true bill no letters dong the top touch the green border, while in the spurious the words are partly printed on the green entirely across. The picture plate is too large for the green border.

LUMBER.-We direct the attention of our readers to the advertisement of the Potter County and Sunbury Lumber Company, in our advertising columns. This company is now prepared to furnish all kinds of prepared lumber, and in any quantities. Persons desiring to purchase lumber will not only save the cost of transportation from other markets by getting it at this place, but can get a cheaper and better article. This company owns extensive timber land Potter county, and their facilities are such that orders can be filled at the shortest notice and shipped to all points, by railroad and canal.

THE NEW JURY LAW does not increase the pay o jurors to \$2 50 per day, as has been stated; it only provides for that sum per day as the compensation for the Jury Commissioners provided for in that law.

BUSINESS NOTICES. A swell told his shoemaker to make his shoe high enough to cover the entire calf. The bootma ker, eyeing him from head to foot, replied, "That is impossible; I have not leather enough in the shop for that!" If the "swell" should happen to call at Thacher's, in Pleasants' building, Market street, he could be accommodated, as Boots and Shoes of all grades, styles and sizes, are kept there, and sold very cheaply.

Tue old saying that "dress makes the man" has often been disputed, yet we cannot help but recognize the fact that dress does, to some extent, make the man; that is, in order to be considered anybody, you must dress in style. The best way to do this is to go to J. O. Beck s, on Fourth street, and order a suit of the beautiful summer goods, which he is prepared to make up in the latest style.

LIFE INSURANCE.—Prompt attention to the subect of life insurance is of the utmost importance Insure while in good health, and without delay, for after the health has failed, and disease has set in, will be too late to get insured; and if postponed, and only good intentions are the result, they will not save the wife and children from toes, if death should overtake the husband and parent before they produced fruit in securing a policy on his life. "ALWAYS aim at what becomes you," although an old saying, is most ridiculous advice. Just imagine a man setting up his best cont for a target and blazing away at it! Ridiculous, indeed, if it should happen to be one of those becoming, fashionable, cheap and durable coats turned out at the Continental Bazaar, Market Square. .

"THERE's two ways of doing it," said Pat to him self, as he stood musing and waiting for a job. 'If I save me four thousand dollars, I must lay up two hundred dollars a year for twenty years, or I can put away twenty dollars a year for two hundred years." Pat or anybody else can easily save twenty dollars a year by purchasing his Boots and Shoes at Miller's Excelsior Store, Market Square.

"VENI, VIDI, VICI," was the dispatch sent back to his country by the great Casar, after he had met and conquered the enemy. This short saying is accepted by the people now-a-days, instead of using the latin, translate it by saying, "we came, saw, and conquered" all our prejudices by buying our Hats and Caps at the fashionable Hat and Cap Emporium of S. Dr. Schenck's Pulmonic Syrup. This great medicine cured Dr. J. H. Schonck, the Proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physpeedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weakly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives

In the whole history of medical discoveries, REMEDY has performed so many or such remarkable cures of the numerous affections of the THROAT, LUNGS and CHEST, as this long-tried and justly celebrated Balsam.
