week's issue of the American inserted by the Demo-cratic officials of the county, indicates the good un-derstanding that exists between our neighbors and the said officials. We admire the tack with which the American folks can run a Republican paper without seriously damaging their interests with the Democracy. We are curious to know whether in this case, as in the case of the Auditor's Report last winter, the insertion is made upon a contract or merely upon a promise of receiving "some com-pensation." Even the Democracy of Lower Au-gusta, the stronghold of the faithful, smile upon our neighbors, as evidenced by the insertion of their Township Auditor's Report last week."—Sunbury Gasette. We publish the above article, from the

Gazette, of last week, entire, as the best evidence that can be adduced, to show that night, and to inquire as to the blow that the motives of our neighbor, in giving it was there and then struck, not only at human life along but a blow against the parpublicity, if not altogether selfish, were not man life alone, but a blow against the perentirely void of envy or jealousy. Because the Commissioners of require publication in two papers, is certainly no evidence of inconsistency on our part or wrong in the Commissioners. If the Gasette enjoys less of the confidence of either party than the AMERICAN, it should endeavor to ascertain the cause and correct the vor to ascertain the cause and correct the would prove, as no case was often proved, evil, instead of making vague and unmanly that the prisoner at the bar was present, charges, intended to impair the standing of aiding and abetting the murder, and that a his neighbors by insinuating that we were willing to pander to the opposite party, in sultation with Rooth. The Surratt Trial-What They Intend to Prove.

The following is an abstract of the open-ing address of the district attorney in the ing address of the district attorney in the Surratt case:

Mr. Nathaniel Wilson, assistant district attorney, then addressed the jury, and said all were aware that in criminal cases the custom is for the prosecution at the beginning of a case to make known the subject of inquiry, and to state in outline what proof would be brought forward to support the charges contained in the indictment.

The Grand Jury of the District of Colum-

The Grand Jury of the District of Columbia have indicted John H. Surratt, the prisoner at the bar, for the murder of Abraham Lincoln, late President of the United States. The duty of the jury is to ascertain whether the accused is guilty or not guilty, and an inquiry of a more solemn character was never submitted to human intelligence.— They are, in fact, to turn back the leaves of history, to shut the red page on which are written the awful incidents of that April petuity of this Government and against lib-

It will be shown that in April, 1865, Surratt went from Richmond to Canada; and that while in Montreal, he, on the 10th of April, received a letter from Booth,

commanding his presence in this city.

He came home and it will be shown exactly by what route; and the prosecution will prove by testimony as clear as the noon-day sun, that Surratt was here on that fatal Friday, and was walking through Pennsylvania avenue, booted and spurred, and that but two hours before the fatal shot was fired sion at Williamsport, this week. CRILD STARVED TO DEATH IN ITS MOTHER'S ARMS—RELIEF OF THE SURVIVING SUFFER

Yesterday morning a family of Germans, consisting of a man and his wife and three children, evidently in very poor circumstances, arrived here on the Atlantic and Great Western train, en route for Cincinnati, to which place they had secured transpor-tation from New York. As the train failed to connect with the forenoon train on the Cincinnati, Hamilton and Dayton Road, the family was obliged to lay over here for the

evening train.

For a while the poor family remained on the platform, until some one invited them to go into the ladies' room and be seated.
The people seemed to shrink from observation, and were grouped together in one corner of the room. The woman was holding an infant in her arms, and a lady who hap pened to pass close to her noticed that it looked like a corpse, and, as she could speak the German language, she asked the poor woman what was the matter with her child. per child was dead.

The countenances of the man and wife bore painful evidence of the progress of starvation, and their uncomplaining chil-dren looked little better than the corpse of the little sufferer that had just passed through the gate of death to the land of plenty!

The moment the terrible condition of this poor family was made known, they found friends in everybody around them. The mother was instantly relieved of her dead babe, and while a messenger was dispatched for an undertaker, the surviving members of the sorrowing family were taken to the waiting room in the depot, and given all that they could eat. The Action of the President.

The President and his Cabinet yesterday decided that the opinion of the Attorney General necessitates the revoking of those acts of the District Commanders which it declared to be illegal. Mr. Stanberry himself pointed out that such action would necessarily follow the approval of his argu-ment. "There is," be said, "an executive duty to be performed here which cannot safely be avoided or delayed," and, in support of this conclusion, he quoted recent de cisions of the Supreme Court, in an elaborate argument. It is evident that the Presidenthe suffering mother gave vent to her pent up grief, was one of the most affecting and is not intended to be merely a theory; it is horrowing they ever witnessed. THE

UNION PACIFIC RAILROAD COMPANY.

Are now constructing a Railroad from OMAHA, NEBRASKA. vestward towards the Pacific Ocean, making with its connections an unbroken line
ACROSS THE CONTINENT.

The Company now offer a limited amount of their FIRST MORTGAGE BONDS having thirty years to run, and bearing annual interest, payable on the first days of January and July, in the City of New York, at the rate of SIX PER CENT. IN GOLD.

AT

Ninety Cents on the Dollar. This road was completed from Omaha 305 miles west on the 1st of January, 1867, and is fully equipped, and trains are regularly running over it. The Company has now on hand sufficient iron, ties, etc., to finish the remaining portion to the castern base of the Rocky Mountains, 212 miles, which is under contract to he done Soytember 1st of this year, and it is tract to be done September 1st of this year, and it is expected that the entire road will be in running order from Omnhas to its western connection with the Central Pacific, now being rapidly built eastward from Sacramento, Cal., during 1879.

MEANS OF THE COMPANY. Estimating the distance to be built by the Union Pacific to be 1,565 miles, the United States Government issues its Six per cent. Thirty-year Bonds to the Company as the road is finished at the average rate of about \$28,250 per mile, amounting to \$44,208,-

rate of about \$28,250 per mile, amounting to \$44,208,000.

The Company is also permitted to issue its own First Mortgage Bonds to an equal amount, and at the same time, which by special Act of Congress are made a First Mortgage on the entire line, the bonds of the United States being subordinate to them.

The Government makes a donation of 12,800 across of land to the mile, amounting to 20,032,000 across, estimated to be worth \$30,000,000, making the total resources, exclusive of the capital, \$118,416,000; but the full value of the lands cannot now be realized.

The authorized Capital Stock of the Company is one hundred million dollars of which five millions have already been paid in, and of which it is not supposed that more than twenty-five millions at most will be required.

The cost of the road is estimated by competent engineers to be about one hundred million dollars, ex-

gineers to be about one hundred million dollars, ex-clusive of equipment.

PROSPECTS FOR BUSINESS.

The railroad connection between Omaha and the The railroad connection between Omaha and the East is now complete, and the earnings of the Union Pacific on the sections already finished for the first two weeks in May were \$113,000. These sectional earnings as the road progresses will much more than pay the interest on the Company's bonds, and the through business over the only line of railroad between the Atlantic and Pacific must be immense.

Value and Security of the Bonds. The Company respectfully submit, that the above statement of facts fully demonstrates the security of their Bonds, and as additional proof they would suggest that the Bonds now offered araless than ten million dollars on \$17 miles of road, on which over twonty million dollars have already been expended:—on 33d miles of this road the cars are now running, and the remaining 187 miles are nearly completed. At the present rate of premium on gold these bonds now an annual interest on the present cost of bonds pay an annual interest on the present cost of

Nine Per Cent., and it is believed that on the completion of the road, like the Government Bonds, they will go above par. The Company intend to sell but a limited amount at the present low rate, and retain the right to advance

the price at their option.
